## **MerCruiser Stern Drives**

The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.

Small firms in Chicago employ more than 1.6 million individuals—nearly 50 percent of the private work force, according to a new study released this fall by the Small Business Administration. The survey, which defines small firms as those employing less than 500 people, also shows that these businesses generate 47 percent of the area's total receipts of \$278 billion dollars. However, SBA statistics also reveal that, on average, of the small businesses starting today, 53 percent will not be in business four years from now. Of these closings, it's estimated that 15 percent will close due to business failures. Chicago businessman Jay Goltz understands what it takes for a small business to succeed. During the past twenty years he has owned and operated Artists' Frame Service in Chicago. Goltz started the business in 1978, and
