For ten years the Cleveland Browns compiled a better record and won more championships than any team in pro football history. In their first game they set an all-time attendance record and consistently drew the largest crowds of the post-World War II era. They dominated an upstart league and then silenced their detractors by doing the same to the NFL. The Browns were led by Paul Brown, a football visionary who changed pro football. Most important among his innovations was the leading role the franchise played in the integration of pro sports. While much of their competition continued with the racial exclusion of the past, the Browns featured some of the greatest black players of all-time, men who were an integral part of the Cleveland dynasty. *The Best Show in Football: The 1946-1955 Cleveland Browns, Pro Football's Greatest Dynasty* tells the story of those players and that dynasty. Included in that story is the construction of the Browns as well as accounts of the team's many victories. Dozens of interviews bring to life the exploits of Otto Graham, Bill Willis, Marion Motley, Lou Groza, Mac Speedie, Len Ford, Dante Lavelli, Frank Gatski, and so many others. In rich detail, *The Best Show in Football* demonstrates why Cleveland's dynasty was the greatest ever, greater even than several teams that are usually accorded that honor. The conclusions may be surprising but the evidence is all here. And along the way author Andy Piascik provides a wonderful trip back to football's golden age.

This volume has as its focus the role of the Marshall Plan as both a force in the transformation of European Economic practices and a stimulus to political integration in Europe. This organizing theme is framed in terms of two other issues that are central to contemporary debates in international political economy and geopolitical studies: the origins and development of the Cold War, and the growing globalisation of the world economy. In relating the Marshall Plan to these issues, this book goes beyond the typical diplomatic history approach to place the Plan in the context of both the political economy of late twentieth-century Europe, and the impact of American models of business and government that came with the Plan.

"The Buffalo Bills of the National Football League are known for having a fervent fan base. The team had such an impact on the city and on professional football that franchise owner Ralph Wilson, when searching for a home for his American Football Leagueteam, settled in Buffalo and named the team in honor of the original Bills"--Provided by publisher.
