The Red Chip Review

J. D. Bernal's monumental work, *Science in History*, was the first full attempt to analyse the reciprocal relations of science and society throughout history, from the perfection of the flint hand-axe to the hydrogen bomb. In this remarkable study he illustrates the impetus given to (and the limitations placed upon) discovery and invention by pastoral, agricultural, feudal, capitalist, and socialist systems,

and conversely the ways in which science has altered economic, social, and political beliefs and practices. In this first volume Bernal discusses the nature and method of science before describing its emergence in the Stone Age, its full formation by the Greeks and its continuing growth (probably influenced from China) under Christendom and Islam in the Middle Ages. Andrew Brown, Bernal's biographer, with a nice sense of paradox, has said of him, he 'was steeped in history, in part because he was always thinking about the future.' He goes on to say, 'Science in History is an encyclopaedic, yet individual and colourful account of the emergence of science from pre-historic times. There is detailed coverage of the scientific revolution of the Enlightenment, the Industrial Age and the first two-thirds of the twentieth century. . . The writing flows and is devoid of the tortured idioms that mar so many academic histories of science. After reading it, it is easy to agree with C. P. Snow's orotund observation that Bernal was the last man to know science. Faber Finds are reissuing the illustrated four volume edition first published by Penguin in 1969. The four volumes are: Volume 1: The Emergence of Science, Volume 2: The Scientific and Industrial Revolutions, Volume 3: The Natural Sciences in Our Time, Volume 4: The Social Sciences: Conclusion. 'This stupendous work . . . is a magnificent synoptic view of the rise of science and its impact on society which leaves the reader awe-struck by Professor Bernal's encyclopaedic knowledge and historical sweep.' Since well before his epic 1974 walk between the Twin Towers of the World Trade Center, Philippe Petit had become an artist who answered first and foremost to the demands of his craft - not only on the high wire, but also as a magician, street juggler, visual artist, builder and writer. A born rebel, he is self taught, cultivating the attitudes, resources and techniques to tackle even seemingly impossible feats. His outlaw sensibility spawned a unique approach to the creative process, an approach he shares with the reader, revealing unconventional ways of creating art.

explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.

True Romance, directed by Tony Scott, is a hilarious, twisted road movie about which Interview raved, "A pop-crazy, instant B classic with A clout." Alabama, a hooker, and Clarence, a comic-book store clerk, fall in love and hit the road in a purple Cadillac. They are going to Los Angeles to start a new life -- with a suitcase full of cocaine accidentally stolen from Alabama's defunct ex-pimp. Guided by the spirit of Elvis, Clarence attempts to sell the coke to a top Hollywood director, putting the young lovers in the middle of a standoff between the narcs and the Sicilian gangsters who rightfully own the cocaine. Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated. Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and

Who Owns Whom

Cyprus as I Saw It in 1879 by Sir Samuel White Baker, first published in 1879, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

Although federal and state regulations require employers to provide toilets, government agencies, incredibly, do not require employers to permit workers to use them. Marc Linder, a labor lawyer and political economist, and Ingrid Nygaard, a physician specializing in urogynecology, place this regulatory breakdown in the wider context of the history of labor-management struggles over rest periods. They emphasize the physiological consequences that workers suffer when they are not allowed to interrupt work to rest or urinate. Linder and Nygaard explain how protective rest period legislation has shrunk over time. Ironically, because most statutes singled out women for rest breaks, they were invalidated by Title VII's ban on sex discrimination. The authors explain other countries' regulations and conclude with a recommendation for legislation to mandate rest and bathroom breaks for all workers.

by a committee of experts, based on input from scientists and the public. The Guide incorporates recent research on commonly used species, including farm animals, and includes extensive references. It is organized around major components of animal use: Institutional policies and responsibilities. The committee discusses areas that require policy attention: the role and function of the Institutional Animal Care and Use Committee, protocols for animal care and use, occupational health and safety, personnel qualifications, and other areas. Animal environment, husbandry, and management. The committee offers guidelines on how to design and run a management program, addressing environment, nutrition, sanitation, behavioral and social issues, genetics, nomenclature, and more. Veterinary care. The committee discusses animal procurement and transportation, disease and preventive medicine, and surgery. The Guide addresses pain recognition and relief and issues surrounding euthanasia. Physical plant. The committee identifies design and construction issues, providing guidelines for animal-room doors, drainage, noise control, surgery, and other areas. The Guide for the Care and Use of Laboratory Animals provides a framework for the judgments required in the management of animal facilities--a resource of proven value, now updated and expanded. This revision will be important to researchers, animal care technicians, facilities managers, administrators at research institutions, policymakers involved in research issues, and animal welfare advocates.

Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

Trailer Life's RV Repair & Maintenance Manual

How do the rich get rich? An updated edition of the “remarkable” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don’t live in Beverly Hills or on Park Avenue. They live next door. America’s wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don’t realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “rich” are actually a tiny minority of America’s truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America’s rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century.
