Hands-on activities and insightful historical information reveal the fascinating life of Theodore Roosevelt, America's 26th president, who was also well known as a writer, a ranchman, a politician, a soldier, an explorer, and a family man. Combining a rich biography, including information about his childhood, with relevant and engaging projects, this book offers a glimpse at Roosevelt's work and times--how a sickly, undersized boy grew into a physically fit, energetic, and courageous man; how his wealth did not shield him from human tragedy; how as a leader of a young, vigorous nation, he steered a middle course between big business and working-class needs; and how his love of nature led him to protect millions of acres for posterity. Readers will create a Native American toy, explore the effects of erosion, go on a modern big-game hunt

with a camera, and make felted teddy bears. The text includes a time line, online resources, and a reading list for further study--making this the ultimate reference on a great American president.

Leonardo da Vinci for Kids

Best known for his general theory of relativity and the famous equation linking mass and energy, $E = mc$, Albert Einstein had a lasting impact on the world of science, the extent of which is illuminated--along with his fascinating life and unique personality--in this lively history. In addition to learning all about Einstein's important contributions to science, from proving the existence and size of atoms and launching the field of quantum mechanics to creating models of the universe that led to the discovery of black holes and the big bang theory, young physicists will participate in activities and thought experiments to bring his theories and ideas to life. Such activities include using dominoes to model a nuclear chain reaction, replicating the expanding universe in a microwave oven, creating blue skies and red sunsets in a soda bottle, and calculating the speed of light using a melted chocolate bar. Suggestions for further study, a time line, and sidebars on the work of other physicists of the day make this an incredibly accessible resource for inquisitive children.

Zoology for Kids

From cobras and copperheads to pythons and boas, all types of snakes are covered in this book of 40 science experiments, art projects, and games that help budding herpetologists gain a greater appreciation for these slithering reptiles. Activities include making foldable fangs to learn how snakes' teeth and jaws work together; simulating cytotoxic snake venom while making a tasty snack using an everyday enzyme found in pineapple; and mimicking the sound a rattlesnake makes using a rubber band, a paper clip, and an envelope. Engaging, simple, and safe experiments teach kids about the biology of snakes, such as how they use their tongues and nostrils to detect smells, how they are cold-blooded and sensitive to subtle changes in temperature, and how they can detect the slightest vibrations or tremors. Kids do not need a snake for any of the activities and will delight in all the strange snake facts and gross-out projects such as Snake Stink—where they create their own signature stink and test how well it repels potential predators. Did you know•Snakes do not need to be coiled to strike; they can strike from any position, even underwater!•Cobras and coachwhips are two of the few snakes that can move in a

straight line forward while keeping their upper body raised off the ground • Snake venom can actually help humans too: blood pressure medicine was developed from the venom of a Brazilian pit viper, and over 60 other treatments have been created from snake venoms

Includes a glossary, bibliography, listing of pertinent museums and Web sites, a timeline, and many interesting sidebars.

Salvador Dalí and the Surrealists

The hit book about a willful young frog with a serious identity crisis and his heard-it-all-before father is now available in paperback! Perfect for fans of Mo Willems's *Don't Let the Pigeon Drive the Bus!* and Jon Klassen's *I Want My Hat Back!* Frog wants to be anything but a slimy, wet frog. A cat, perhaps. Or a rabbit. An owl? But when a hungry wolf arrives--a wolf who HATES eating frogs--our hero decides that being himself isn't so bad after all. In this very silly story with a sly message, told in hilarious dialogue between a feisty young frog and his heard-it-all-before father, young readers will identify with little Frog's desire to be something different, while laughing along at his stubborn yet endearing schemes to prove himself right. And look for the hilarious sequels--*I Don't Want to Be Big, There's Nothing to Do!*, and *I Don't Want to Go to Sleep*. ★ "First-time author Petty's dialogue between a frog father and his son makes its point about accepting one's nature with a big grin. . . . The story might create similar gratitude in the minds of readers--or it might just make them giggle."--Publishers Weekly, STARRED REVIEW "A lively look at self-acceptance."--Kirkus "This amusing story ends with a laugh and a much more content frog."--School Library Journal "Silliness and deadpan humor combine into a hopping good story of being happy with who you are."--Booklist "A paean to self-acceptance wrapped in snappy dialogue and illustrated with richly colored comic paintings."--Wall Street Journal "Petty and Boldt provide just enough predictability to hook youngest readers, then deliver a delightful twist or two to create surprise and satisfaction--for both the green hero and the many fans he'll make with this book."--Shelf Awareness "This lighthearted exploration of identity will delight as a readaloud."--The Bulletin of the Center for Children's Books

The Great Depression for Kids

Children will find artistic inspiration as they learn about iconic artists Frida Kahlo and Diego Rivera in these imaginative and colorful activities. The art and ideas of Kahlo and Rivera are explored through projects that include painting a self-portrait Kahlo-style, creating a mural with a social message like Rivera, making a Day of the Dead ofrenda, and crafting an Olmec head carving. Vibrant illustrations throughout the book include Rivera's murals and paintings, Kahlo's dreamscapes and self-portraits, pre-Columbian art and Mexican folk art, as well as many photographs of the two artists. Children will learn that art is more than just pretty pictures; it can be a way to express the artist's innermost feelings, a source of everyday joy and fun, an outlet for political ideas, and an expression of hope for a better world. Sidebars will introduce children to other Mexican artists and other notable female artists. A time line, listings of art museums and places where Kahlo and Rivera's art can be viewed, and a list of relevant websites complete this cross-cultural art experience.

I Don't Want to Be a Frog

George Washington comes alive in this fascinating activity book that introduces the leader to whom citizens turned again and again--to lead them through eight long years of war, to guide them as they wrote a new Constitution, and to act as the new nation's first executive leader. Children will learn how, shortly after his death in 1799, people began transforming George Washington from a man into a myth. But Washington was a complex individual who, like everyone, had hopes and fears, successes and failures. In his early 20s, for instance, Washington's actions helped plunge Great Britain and France into war. He later fought for liberty and independence, yet owned slaves himself (eventually freeing them in his will). This book weaves a rich tapestry of Washington's life, allowing kids to connect with his story in 21 hands-on projects based on his experiences and the times in which he lived. Children will learn how to tie a cravat, write with a quill pen, follow animal

tracks, sew a lady's cap, plant a garden, roll a beeswax candle, play a game of Quoits, and make a replica of Washington's commander-in-chief flag. The text includes a time line, glossary, websites, travel resources, and a reading list for further study

Frog and Toad Together Vocabulary Activities

Examines the lives and creative work of the surrealist artist Salvador Dalí and other artists and friends who shared his new ways of exploring art. Features art activities that engage the subconscious thoughts and spontaneity of the reader.

Frogs and Toads

History explodes in this activity guide spanning the turmoil preceding secession, the first shots fired at Fort Sumter, the fierce battles on land and sea, and finally the Confederate surrender at Appomattox. Making butternut dye for a Rebel uniform, learning drills and signals with flags, decoding wigwag, baking hardtack, reenacting battles, and making a medicine kit bring this pivotal period in our nation's history to life. Fascinating sidebars tell of slaves escaping on the Underground Railroad, the adventures of nine-year-old drummer boy Johnny Clem, animal mascots who traveled with the troops, and friendships between enemies. The resource section includes short biographies of important figures from both sides of the war, listings of Civil War sites across the country, pertinent websites, glossary, and an index.

Frog and the Birdsong

These post-reading activities for Frog and Toad Together allow students to share their understanding of characters, plots, and settings of the stories in the book. They have opportunities to write, draw, and perform based on what they've learned.

The Civil War for Kids

Like everything in the Lone Star State, the history of Texas is larger than life. The flags of six different nations have flown over the state, which had a rich Native American heritage long before European explorers such as Cabeza de Vaca, Coronado, and La Salle ever arrived. The state was even its own republic, achieving independence from Mexico in 1836, yet joined the United States in 1845. Author Karen Bush Gibson tells the 500-year saga of this unique state, from the founding of the Spanish Missions to the victory at San Jacinto, from the Civil War to the first oil gusher at Spindletop, from the Great Storm that destroyed Galveston to the establishment of NASA's Mission Control in Houston. Texas History for Kids also includes 21 informative and fun activities to help readers better understand the state's culture, politics, and geography.

Kids will recreate one of the six flags to fly over Texas, make castings of local wildlife tracks, design a ranch's branding iron, celebrate Juneteenth by reciting General Order Number 3, build a miniature Battle of Flowers float, and more. This valuable resource also includes a time line of significant events, a list of historic sites to visit or explore online, and Web resources for further study. Karen Bush Gibson is the author of *Women in Space*, *Women Aviators*, *Native American History for Kids*, and three dozen other books for young readers. She lives in Norman, Oklahoma.

Mouse Soup

A collection of recipes for various kinds of breads arranged in a timeline format that charts the history of this staple food from the earliest civilization to the present day. Includes instructions for related activities.

Texas History for Kids

One autumn day Frog discovers a blackbird lying motionless in the grass. Worried, he asks his friends what can be the matter. Very gently and simply, then animals begin to understand the meaning of death and the beauty of life in this moving story.

Awesome Snake Science!

From Caldecott Medalist Arnold Lobel (1933-1987) comes a brand-new collection of rhyming stories about frogs and toads. Discovered by his daughter, Adrienne Lobel, *The Frogs and Toads All Sang* has the same warmth, compassion, and humor that is found in his best-loved work. Brimming with sweet silliness, this new book reminds us why Arnold Lobel's characters continue to be so popular years after debut.

Frog Went A-courtin'

Amazing Amphibians explores the major amphibian groups--frogs, salamanders, and caecilians--including their anatomy, behavior, and conservation needs. Young nature enthusiasts will learn about slime, venom, hibernation, and much more in this full-color overview of amphibian life history. *Amazing Amphibians* highlights a number of high-interest species through thirty fun, hands-on activities. Readers will learn about various characteristics of amphibians, like egg-laying, metamorphosis, and ectothermy, along with facts about their diet, habitat, behaviors, and more. This useful resource includes a glossary of scientific terms, a guide to understanding amphibian orders, and a teacher's guide to initiate classroom discussion.

A Guide for Using Frog and Toad Are Friends in the Classroom

American history before and after the Wall Street Crash of 1929 Providing a balanced, realistic picture of a time rife with hardships, The Great Depression for Kids brings the era and key concepts to life. Kids learn about the harsh realities that most Americans could not escape, such as massive unemployment, natural disasters, and economic collapse. They also learn that the 1930s were a time when neighbors helped neighbors; sports figures behaved admirably; and an army of young men rebuilt the nation's forests, roads, and parks. Librarians delivered books on horseback, a curly-haired child star charmed moviegoers to "stand up and cheer" in the darkest of days, and a little African American girl became the first of her race to participate in the National Spelling Bee. Beginning with an in-depth look at the 1920s, the book builds readers' background knowledge to help set the stage for the decline of the economy over the next decade. Twenty-one crosscurricular activities help kids learn how to research, buy, and sell stocks; use scientific methods to conduct a survey, re-create Depression glassware; and much more.

Marco Polo for Kids

Featuring 21 hands-on projects that explore the scientific concepts Isaac Newton developed, this illuminating guide paints a rich portrait of the brilliant and complex man and provides young readers with a hands-on understanding of astronomy, physics, and mathematics. The activity-packed resource allows children to experiment with swinging pendulums, build a simple waterwheel, create a 17th-century plague mask, track the phases of the moon, bake an "apple pye in a coffin," and test Newton's three laws of motion using coins, a skateboard, and a model boat they construct themselves. A time line, excerpts from Newton's own writings, online resources, and a reading list for further exploration ensure that kids will gravitate to this unique activity book.

Frog and Toad Are Friends

Another sweet bedtime story about Mouse, from Arnold Lobel, the beloved author and illustrator of the Newbery Honor and Caldecott Honor award-winning Frog and Toad books. Weasel is ready for his dinner, and poor Mouse is it. Can Mouse stop Weasel from serving up mouse soup for supper? The clever mouse tells the weasel four stories to make the soup tasty—then manages to trick the weasel and get home safely. Arnold Lobel's Mouse Soup is a Level Two I Can Read book, geared for kids who read on their own but still need a little help. Whether shared at home or in a classroom, the engaging stories, longer sentences, and language play of Level Two books are proven to help kids take their next steps toward reading success.
