These are vignettes of growing up in small town rural Michigan, also a closely observed portrait of mid-century America. But this isn't a collection of pretty postcards. Damm's family experienced depression, alcoholism and loss, and he writes with a survivor's compassion. These are stories for all the senses, held in place by strands of memory alternately steel and gold.

Goals Gone Wild!

Richard Garrison, a Corporal in the British Military Police, loses his sight while trying to save the wife and child of millionaire industrialist Thomas Schroeder from a terrorist bomb. While Garrison is recovering from his injuries, Schroeder makes him an offer the young man cannot refuse-refuge at Schroeder's luxurious mountain retreat and rehabilitation from the

best doctors who can treat Garrison's blindness and if not cure him at least teach him a new way of life. But Thomas Schroeder has a secret. He is dying and determined not to lose his life. The doctors tell him his body cannot be saved. But about his mind? Garrison's healthy young body would make an excellent replacement for Schroeder's failing corpus, if the machines to perform the operation can be perfected in time. Garrison has no secrets of his own. Since the bombing that caused a loss of his sight, Garrison has become aware of new abilities slowly developing in his mind: mental powers he is beginning to master; strengths Schroeder cannot expect. Richard Garrison and Thomas Schroeder, two strong-willed men locked in battle for the greatest prize-life itself. in the early afternoon of May 10, 1996, he hadn't slept in fifty-seven hours and was reeling from the brain-altering effects of oxygen depletion. As he turned to begin the perilous descent from 29,028 feet (roughly the cruising altitude of an Airbus jetliner), twenty other climbers were still pushing doggedly to the top, unaware that the sky had begun to roil with clouds. Into Thin Air is the definitive account of the deadliest season in the history of Everest by the acclaimed Outside journalist and author of the bestselling Into the Wild. Taking the reader step by step from Katmandu to the mountain's deadly pinnacle, Krakauer has his readers shaking on the edge of their seat. Beyond the terrors of this account, however, he also peers deeply into the myth of the world's tallest mountain. What is it about Everest that has compelled so many people--including himself--to throw caution to the wind, ignore the concerns of loved ones, and willingly subject themselves to such risk, hardship, and expense? Written with emotional clarity and supported by his unimpeachable reporting, Krakauer's eyewitness account of what happened on the roof of the world is a singular achievement. National Best Seller From the best-selling author of Wild, a collection of quotes--drawn from the wide range of her writings--that capture her wisdom, courage, and outspoken humor, presented in a gift-sized package that's as irresistible to give as it is to receive. Around the world, thousands of people have found inspiration in the words of Cheryl Strayed, who in her three prior books and in her "Dear Sugar" columns has shared the twists and trials of her remarkable life. Her honesty, spirit, and ample supply of tough love have enabled many of us, even in the darkest hours, to somehow put one foot in front of the

other--and be brave enough. This book gathers, each on a single page, more than 100 of Strayed's indelible quotes and thoughts--"mini instruction manuals for the soul" that urge us toward the incredible capacity for love, compassion, forgiveness, and endurance that is within us all. Be brave enough to break your own heart. You can't ride to the fair unless you get on the pony. Keep walking. Acceptance is a small, quiet room. Romantic love is not a competitive sport. Forward is the direction of real life. Ask yourself: What is the best I can do? And then do that.

In a series of riveting interviews, America's senior statesman discusses the challenges of directing foreign policy during times of great global tension. As National Security Advisor to Richard Nixon, Henry Kissinger transformed America's approach to diplomacy with China, the USSR, Vietnam, and the Middle East, laying the foundations for geopolitics as we know them today. Nearly fifty years later, escalating tensions between the US, China, and Russia are threatening a swift return to the same diplomatic game of tug-of-war that Kissinger played so masterfully. Kissinger on Kissinger is a series of faithfully transcribed interviews conducted by the elder statesman's longtime associate, Winston Lord, which captures Kissinger's thoughts on the specific challenges that he faced during his tenure as NSA, his general advice on leadership and international relations, and stunning portraits of the larger-than-life world leaders of the era. The result is a frank and well-

Lawyers and Clients: Critical Issues in Interviewing and Counseling examines practical and theoretical challenges lawyers face with clients. Each chapter explores a critical issue in interviewing and counseling, such as developing connection across difference, dealing with atypical clients, and using engaged client-centered counseling. Ellmann, Dinerstein, Gunning, Kruse, and Shelleck investigate these issues primarily through detailed analysis of lawyer-client conversations, which invite the reader to consider and critique the lawyer's choices. A key theme is "engaged client-centered lawyering," which emphasizes the importance of client choice and the impact of lawyers on clients, and affirms lawyers' ability to achieve wise engagement with clients.

In 1950, Patrick Curran joins a large Irish Catholic family in Los Angeles, California. He eases through the idyllic fifties, (the first television generation), fights for stability and clarity in the turbulent sixties, (with assassinations, race riots and the Vietnam War) and then takes flight in the psychedelic seventies. (with student demonstrations, hippies and the drug induced golden age of rock and roll) He reflects on his generation's reaction and his own reactions to the events of the day and travels the world to find peace and authenticity. He finds temporary solace living in several communes but finally lands in Kodiak, Alaska to start his career and his instant family. His journey ends in Northern California where he shares the lessons he's learned with his children and his clients as a Marriage and Family Therapist.

Can economics be passionate?... Can it center on people and what really matters to them day-in and day-out.... And help us understand their hidden motives for why they do what they do in everyday life? Uri Gneezy and John List are revolutionaries. Their ideas and methods for revealing what really works in addressing big social, business, and economic problems gives us new understanding of the motives underlying human behavior. We can then structure incentives that can get people to move mountains, change their behavior—or at least get a better deal. But finding the right incentive can be like looking for a needle in a haystack. Gneezy and List's pioneering approach is to embed themselves in the factories, schools, communities, and offices where people work, live, and play. Then, through large-scale field experiments conducted "in the wild," Gneezy and List observe people in their natural environments without them being aware that they are observed.

Their randomized experiments have revealed ways to close the gap between rich and poor students; to stop the violence plaguing inner-city schools; to decipher whether women are really less competitive than men; to correctly price products and services; and to discover the real reasons why people discriminate. To get the answers, Gneezy and List boarded planes, helicopters, trains, and automobiles to embark on journeys from the foothills of Kilimanjaro to California wineries; from sultry northern India to the chilly streets of Chicago; from the playgrounds of schools in Israel to the boardrooms of some of the world's largest corporations. In *The Why Axis*, they take us along for the ride, and through engaging and colorful stories, present lessons with big payoffs. Their revelatory, startling, and urgent discoveries about how incentives really work are both revolutionary and immensely practical. This research will change both the way we think about and take action on big and little problems. Instead of relying on assumptions, we can find out, through evidence, what really works. Anyone working in business, politics, education, or philanthropy can use the approach Gneezy and List describe in *The Why Axis* to reach a deeper, nuanced understanding of human behavior, and a better understanding of what motivates people and why.

Your favorite financial contrarian spreads the wealth in interviews on forty separate topics Investment guru Doug Casey made headlines with the financial approach he advocated in *Totally Incorrect*. Casey believes that the best returns come from going against the grain, and taking a closer look at what everyone else is leaving behind. This rational approach to speculation struck a chord with the investing public, inspiring the follow-up book *Right on the Money: Doug Casey on Economics, Investing, and the Ways of the Real World* with Louis James. In *Right*

on the Money, Casey expands upon the basic ideas presented in *Totally Incorrect*, and translates them into actionable steps to take today to ensure a secure financial future. In a series of forty interviews, Casey presents his views on various topics, including investments, assets, real estate, and ethics. With his usual candor, he advocates for immediate action and lays down the path from idea to investment.

Regardless of your position on each topic, you'll be forced to consider a perspective you've never before considered on topics such as: Protecting your assets with educated speculation The pros and cons of gold, cattle, and real estate Ethics of investing and the morality of money The impact of the EU, Africa, Egypt, and North Korea No matter what topic he focuses on, Casey's primary message is always clear: act now. Stop paralysis by analysis and take the leap. You only get one financial future, and it's up to you to make it as secure and comfortable as possible. In *Right on the Money: Doug Casey on Economics, Investing, and the Ways of the Real World* with Louis James, Casey presents the case for investing against the grain, and reaping the rewards others have passed over.

She knew there had to be a deeper, more integrated way of developing effective leaders. There is! Move to Greatness reveals that to lead and live wholly, basic energy patterns must be brought into balance. Out of kilter, these four patterns create the ineffective "buts" in leadership style ("great at making numbers, but hell on staff") and personal performance ("successful at work, but has no life"). Success and failure originate in our use (or misuse) of four fundamental patterns in the nervous system that have been studied over decades: * The Driver pushes into every barrier with speed, directness and intensity and puts a focus on priorities, actions and the bottom line. * The Organizer does the right thing with discipline and order and establishes processes, clarifies roles and assigns responsibility. * The Collaborator swings into playful engagement with life and the people in it, and as a leader, the Collaborator is oriented to customers, employees, loyalty and fun. * The Visionary goes with the flow, hangs out in the chaos, and leaps to new possibilities; the Visionary leader thinks outside the box and creates the future. Using these patterns as a map, you will understand people more easily and more deeply, and see how to lead them more effectively. Moreover, you'll learn how to move yourself to your highest potential. Discover your natural preferences and learn how to literally move yourself-and others-to greatness.

From the best-selling author and rewilding pioneer Isabella Tree, *When We Went Wild* is a heartwarming, sustainably printed picture book about the benefits of letting nature take the lead, inspired by real-life rewilding projects. Nancy and Jake are farmers. They raise their cows and pigs, and grow their crops. They use a lot of big machines to help them, and spray a lot of chemicals to get rid of the weeds and the pests. That's what all good farmers do, isn't it? And yet, there is no wildlife living on their farm. The animals look sad. Even the trees look sad! One day, Nancy has an idea what if they stopped using all the machines, and all the chemicals, and instead they went wild? The author's own experience of rewilding her estate at Knepp in West Sussex, England, has influenced conservation techniques around the world that are bringing nature back to the countryside and bringing threatened species back from the brink. Ivy Kids brings you beautiful, sustainably printed books to rewild your child. They are hopeful, joyful stories and nonfiction about nature and the environment that are charmingly illustrated and printed on 100% post-consumer recycled paper, locally in the US, and using renewable energy. Praise for *Wilding*, the author's best-selling memoir: "In a story that is part personal memoir, part work of conservation, Tree reveals the capacity of the wild to reclaim the land--as long as humans step out of the way." --Smithsonian, "The Ten Best Science Books of 2018" "Wilding is both a timely and important book." --Tim Flannery, *The New York Review of Books*

A Refinery29 Best Book of the Year The novel that inspired the acclaimed Rebecca Miller film Maggie's Plan, starring Julianne Moore, Ethan Hawke, and Greta Gerwig. Isabel, Anna, Beth, and Maggie are women who aren't afraid to take it all. Whether spearheading a pregnancy lingerie company, conspiring to return a husband to his ex-wife, lusting after an old lover while in a satisfying marriage, or trying to balance motherhood and work—they are sexy, determined, and not looking for a simple happily ever after. Through punchy, hilarious, and insightful storytelling, The End of Men shatters the confines of society, and more importantly, those we impose upon ourselves. "With humor, bravery, and panache, Karen Rinaldi puts her finger straight on the tender conundrum of the female experience, where work, love, and motherhood intersect." — Rebecca Miller, director of Maggie's Plan "Karen Rinaldi's The End of Men is in every way marvelous. A sharply drawn story—or more accurately, stories—that gets everything right. Warm hearted but painfully close to the bone. " —Anthony Bourdain "In 1995, I wrote a short story, 'Baster,' inspired by some goings-on in my friend Karen

Rinaldi's life. In 2003, that story, significantly altered, became the Jennifer Aniston-movie 'The Switch.' In 2016, another film, 'Maggie's Plan,' directed by Rebecca Miller, appeared, this time based partly on Rinaldi's unfinished novel about said events. And, now, Rinaldi has finished that novel, creating yet another version, her own version. I knew it was a good idea the first time I heard it, but I had no inkling it would prove quite so fruitful. Given the subject matter, however, how could it be otherwise? Certainly, this is a story that keeps on giving."

unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book "Every bit as moving as *To Kill a Mockingbird*, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields."—David Cole, *The New York Review of Books* "Searing, moving . . . Bryan Stevenson may, indeed, be America's Mandela."—Nicholas Kristof, *The New York Times* "You don't have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful."—Ted Conover, *The New York Times Book Review* "Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he's also a gifted writer and storyteller."—*The Washington Post* "As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty."—*The Financial Times* "Brilliant."—*The Philadelphia Inquirer*
