Prestressing in Singapore

The aim of this book is to help students write mathematics better. Throughout it are large exercise sets well-integrated with the text and varying appropriately from easy to hard. Basic issues are treated, and attention is given to small issues like not placing a mathematical symbol directly after a punctuation mark. And it provides many examples of what students should think and what they should write and how these two are often not the same.

Wolfsbane and Mistletoe

Reeling from the recent death of his wife, police officer Evan Cerelli looks at his four children and can only see how he fails them. His loving wife was the caretaker and nurturer, and now the single father feels himself being crushed by the pain of loss and the heavy responsibility of raising his kids. At the urging of his partner, Evan celebrates a coworker's retirement and meets disgraced former cop turned security consultant Matt Haight. A friendship born out of loneliness and the solace of the bottle turns out to be exactly what they both need. The past year has been a slow death for Matt Haight. Ostracized from his beloved police force, facing middle age and perpetual loneliness, Matt sees only a black hole where his future should be. When he discovers another lost soul in Evan, some of the pieces he thought he lost start to fall back in place. Their friendship turns into something deeper, but love is the last thing either man expected, and both of them struggle to reconcile their new and overwhelming feelings for one another.

A unique presentation of the source of Hindu Icons as representation of scientific elements in Physics, chemistry, mathematics etc, In this fascinating treatise Swami Ram Charran shows how Hindu Gods are really the periodic Table of elements that keeps all of us alive. He shows how Einstein derived his famous equation $E=MC^2$ from the Hindu texts, how Newton knew about the colors of the Sun from the Hindu God Surya, and how the 9 forms of electro-magnetic energy since creation was known as the 9 forms of Laxmi, the hindu goddess of Light This book will leave you with the knowledge that Air, Water, Light, space, fire, the solar system etc. are all the elements of God that gives each one of us a godly power within, identified as a unique fingerprint that is different from all others on earth. After reading the book, the knowledge aquired will help you understand your own life, your purpose for living, who are you really and why were you born. Swami explains how the Hindu Icons can be used to pinpoint major karmic changes in your own life..

Motocourse

This official history of the FIM Grand Prix motor cycle racing World Championship, since its formation in 1949, records the action from a sport that has seen massive changes during the last 50 years with Japanese manufacturers eclipsing their European rivals, purpose-built race circuits replacing true road courses and a reduction in the number of Grand Prix classes. In other respects it has enjoyed remarkable continuity, as motor cycle racing has remained the domain of the major manufacturers anxious to promote the awareness of their road machines. Contemporary Grand Prix designs are clearly descended from the bikes raced in the 1950s. This book traces the major trends and developments during the last 50 years and it profiles the legendary riders, teams and innovators that have dominated the sport during this period. Concluding the history is a comprehensive and detailed results section which provides an invaluable source of reference for any motor cycle enthusiast.

With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users.

Faith & Fidelity

A killer adventure fantasy follow-up to HOPE AND RED, set in a fracturing empire spread across savage seas, where two young people from different cultures find common purpose. Red is being trained as a cold-blooded assassin by the biomancers. As he becomes increasingly embroiled in palace politics, he learns that even life among the nobility can be deadly. While terrorizing imperial ships as the pirate Dire Bane, Hope stumbles onto a biomancer plot of such horrifying scope

that it makes even the massacre of her childhood village seem small in comparison. With the biomancers tightening their grip of fear over the empire, Hope and Red struggle to fill their new roles and responsibilities, but the cost will be greater than any of them realize. Industrial Organization in Context

In light of the tremendous changes that have come to the island of Borneo in recent decades, this volume takes a detailed historical look at the Borneo environment from native, colonial and national perspectives. It examines change and continuity in the economic, political and social dimensions of human-environment interactions. Reflecting the increasingly multidisciplinary nature of environmental history, the book brings together an international group of historians, anthropologists, geographers and social foresters, all looking through a historical lens at the environment in the Malaysian states of Sabah and Sarawak, and the Indonesian province of Kalimantan and Brunei. Drawing on extensive archival research and fieldwork, these ten original contributions encompass eleven centuries of history on Borneo, examining interrelated topics that include long-distance trade, conservation, land tenure, resource access, property rights, perceptions of the environment, migration, and development policy and practice. The chapters in this volume are extensively revised versions of selected papers presented at an international seminar on "Environmental change in native and colonial histories of Borneo: Lessons from the past, prospects for the future" held in Leiden under the auspices of the International Institute for Asian Studies.

This book has been developed from its earlier and far less formal presentment as the proceedings of a symposium entitled The Biochemistry of S-Adenosylmethionine as a Basis for Drug Design that was held at the Solstrand Fjord Hotel in Bergen, Norway on June 30-July 4, 1985. The purpose of the symposium was to bring together scientists from various disciplines (biochemistry, pharmacology, virology, immunology, chemistry, medicine, and so on) to discuss the recent advances that have been made in our understanding of the biological roles of S adenosylmethionine (AdoMet) and to discuss the feasibility of utilizing AdoMet-dependent enzymes as targets for drug design. Thus the information provided herein will be of value not only to basic scientists involved in elucidating the role of AdoMet in biology, but also to medicinal chemists who are using this basic knowledge in the process of drug design. The volume should also be of interest to pharmacologists and clinicians involved in biological evaluation of potential therapeutic agents arising from the efforts of the biochemists and medicinal chemists. Each plenary speaker at the symposium was requested to submit a chapter reviewing recent contributions of their discipline to our base of knowledge about the biological role of AdoMet. Topics covered in this volume include protein and phospholipid methylations (Section A), nucleic acid methylations (Section B), the regulation of AdoMet, S-adenosylhomocysteine, and methylthioadenosine metabolism (Section C), clinical aspects of AdoMet (Section D), and the design, synthesis, and biological evaluation of trans methylation inhibitors (Section E).

The Scooter Book

Glutton, demon of destruction, symbol of slaughter, mightiest of wilderness villains... The wolverine comes marked with a reputation based on myth and fancy. Yet this enigmatic animal is more complex than the legends that surround it. With a shrinking wilderness and global warming, the future of the wolverine is uncertain. The Wolverine Way reveals the natural history of this species and the forces that threaten its future, engagingly told by Douglas Chadwick, who volunteered with the Glacier Wolverine Project. This five-year study in Glacier National Park - which involved dealing with blizzards, grizzlies, sheer mountain walls, and other daily challenges to survival - uncovered key missing information about the wolverine's habitat, social structure and reproduction habits. Wolverines, according to Chadwick, are the land equivalent of polar bears in regard to the impacts of global warming. The plight of wolverines adds to the call for wildlife corridors that connect existing habitat that is proposed by the Freedom to Roam coalition.

Drafting For The Creative Quilter

Life can be compared to the construction of a tunnel; we are often obstructed by solid rocks. Invincible thinking works as the powerful drill to break through these rocks. When we practice this thinking, we will never feel defeat in our life. Invincible thinking is based on the practical theories that bridge self-reflection and development, and it exerts a great power. By reading, savoring and practicing the thoughts in this book, and by using the thoughts as your own power, you will be able to declare that there is no such thing as defeat--only victory.

both specific implementation techniques and architectural patterns for distributed application development. PowerBuilder 9, to be released Q4 2002, introduces many highly-anticipated distributed development features including support for Web Services and Java application servers. Version 9 of PowerBuilder introduces many features designed specifically to blend the traditional strength of PowerBuilder as a rapid Client/Server application development tool with the new emerging models for distributed application development. PowerBuilder developers need PowerBuilder-specific information on interacting with Java application servers, such as WebSphere, WebLogic, and Sybases Enterprise Application Server (EAServer), and Web Service development. This book presents the new capabilities of PowerBuilder 9 along with the architecture and patterns required to create distributed systems in PowerBuilder. William Green and his team of writers are among the most prominent members of the Sybase community, having helped found TeamSybase in 1994. They have written and served on the advisory boards for every major PowerBuilder publication and have authored three books -- PowerBuilder 5 Object-Oriented Design and Development, PowerBuilder Foundation Class (PFC), and Secrets of the PowerBuilder Masters. They respond to several hundred newsgroups and listserv postings daily. They are active consultants implementing PowerBuilder-based solutions and serve on key community advisory panels within Sybase.

Bane and Shadow

Drawing from his extensive business management experience, Pradip Chand turns traditional wisdom on its head when he proposes that Brand Loyalty is inversely proportional to the income and education levels of the 'knowledge consumer'. He examines how and why brands become strategic assets, traces the evolution of the knowledge consumer and what can companies do to protect equity of the brands they have nurtured over the decades. A new approach to building a Brand Loyalty that gives marketers a competitive edge in today's high-tech, high-stake brand-hostile environment. The book combines the knowledge with engaging real life case studies and proven examples.
