Every Landlord's Guide to Managing Property

This book was made especially for California landlords. Landlords often have questions as to how to manage the landlord/tenant relationship before and during the term of the rental agreement. Landlords must also sometimes deal with removing "bad" tenants because, for example, the tenant stopped paying the rent or is violating an essential term of the rental agreement. In addition to providing landlord "best practices" and tips for managing the landlord/tenant relationship, useful forms are also made available to use as a template for such things as a "3 Day Notice to Pay Rent or Quit," a "30/60 Day Notice of Termination of Tenancy," a "Security Deposit Itemization," a "Notice of Rent Increase," and more. These forms and several others are included in this landlord/tenant guide. "California Landlord Best Practices and Eviction Overview" seeks to provide an easy-to-understand and concise guide for California landlords by providing valuable suggestions for managing the landlord/tenant relationship and also provides a high-level overview of what to expect in the event that the tenant needs to be evicted. This book should be used as a tool to educate the landlord about the business of renting property in California, with an emphasis on residential units.

"Essential reading." —New York Review of Books In the spirit of *Evicted*, *Bait and Switch*, and *The Big Short*, a shocking, heart-wrenching investigation into America's housing crisis and the modern-day robber barons who are making a fortune off the backs of the disenfranchised working and middle class—among them, Donald Trump and his inner circle. Two years before the housing market collapsed in 2008, Donald Trump looked forward to a crash: "I sort of hope that happens because then people like me would go in and buy," he said. But our future president wasn't alone. While millions of Americans suffered financial loss, tycoons pounced to heartlessly seize thousands of homes—their profiteering made even easier because, as prize-winning investigative reporter Aaron Glantz reveals in *Homewreckers*, they often used taxpayer money—and the Obama administration's promise to cover their losses. In *Homewreckers*, Glantz recounts the transformation of straightforward lending into a morass of slivered and combined mortgage "products" that could be bought and sold, accompanied by a shift in priorities and a loosening of regulations and laws that made it good business to lend money to those who wouldn't be able to repay. Among the men who laughed their way to the bank: Trump cabinet members Steve Mnuchin and Wilbur Ross, Trump pal and confidant Tom Barrack, and billionaire Republican cash cow Steve Schwarzman. *Homewreckers* also brilliantly weaves together the stories of those most ravaged by the housing crisis. The result is an eye-opening expose of the greed that decimated millions and enriched a gluttonous few.

This is a thought-provoking exploration of the development of civil law in California from 1850 to 1890. Focusing upon contract, landlord and tenant, mortgage, tort, and admiralty law, Bakken argues that the formulation of the law generally responded to socioeconomic forces. He also asserts that on the operational level, the law's reach was limited by

ambiguities, judicial inexactitude, and mistakes made by the bar. Essentially, the broad policy goals of frontier law worked to stimulate marketplace forces by facilitating certain transactions. Entrepreneurs often received the aid of the developing law, but were frustrated by it at other times. Bakken scrutinizes the role of judges, legislators, lawyers, and laymen in contributing to this process. Finally, he demonstrates that the law was less certain and the policy considerations less clear when the law actually functioned on an operational level in society.

WINNER OF THE 2017 PULITZER PRIZE GENERAL NON-FICTION From Harvard sociologist and MacArthur "Genius" Matthew Desmond, a landmark work of scholarship and reportage that will forever change the way we look at poverty in America In this brilliant, heartbreaking book, Matthew Desmond takes us into the poorest neighborhoods of Milwaukee to tell the story of eight families on the edge. Arleen is a single mother trying to raise her two sons on the \$20 a month she has left after paying for their rundown apartment. Scott is a gentle nurse consumed by a heroin addiction. Lamar, a man with no legs and a neighborhood full of boys to look after, tries to work his way out of debt. Vanetta participates in a botched stickup after her hours are cut. All are spending almost everything they have on rent, and all have fallen behind. The fates of these families are in the hands of two landlords: Sherrena Tarver, a former schoolteacher turned inner-city entrepreneur, and Tobin Charney, who runs one of the worst trailer parks in Milwaukee. They loathe some of their tenants and are fond of others, but as Sherrena puts it, "Love don't pay the bills." She moves to evict Arleen and her boys a few days before Christmas. Even in the most desolate areas of American cities, evictions used to be rare. But today, most poor renting families are spending more than half of their income on housing, and eviction has become ordinary, especially for single mothers. In vivid, intimate prose, Desmond provides a ground-level view of one of the most urgent issues facing America today. As we see families forced into shelters, squalid apartments, or more dangerous neighborhoods, we bear witness to the human cost of America's vast inequality—and to people's determination and intelligence in the face of hardship. Based on years of embedded fieldwork and painstakingly gathered data, this masterful book transforms our understanding of extreme poverty and economic exploitation while providing fresh ideas for solving a devastating, uniquely American problem. Its unforgettable scenes of hope and loss remind us of the centrality of home, without which nothing else is possible.
