### **Pediatric Nurse Practitioner Certification Review Guide**

Asthma, Health, and Society A Public Health Perspective Edited by Andrew Harver, University of North Carolina at Charlotte, Charlotte Harry Kotses, Ohio University, Athens Asthma, Health, and Society is a comprehensive, current resource on this complex disease—its scope, human costs, and management—from a combined social ecology/public health perspective. This important and unique book proposes a concerted, multifaceted response and sets out the foundation for shaping this response, comprising individual and large-scale assessment, education, advocacy, and multiple forms of intervention. In clear, authoritative detail enhanced by figures, graphs, and references, contributors explain where universal standards need to be set, alliances need to be built (such as among agencies and institutions in a community), and what is currently known about: Pathophysiology, epidemiology, and social impact of asthma. Genetic and environmental factors; protective factors and risk markers. Effects in women, minorities, children, teens, and elders. Medical management, self-management, and home monitoring. Evidence-based interventions at the family, school, and community levels. Screening guidelines, compliance issues, and more. In the absence of a cure or clear-cut causes, Asthma, Health, and Society offers the most

robust compilation of practical knowledge on its subject to benefit the range of public health and asthma professionals, researchers, teachers, and students

"The Pediatric Nurse Practitioner Certification Review Guide presents information and current standards of practice for Nurse Practitioners (NP) in the pediatric primary care setting. One major change is the certification for PNPs will only be offered by PNCB instead of both PNCB and American Nurses Credentialing Center (ANCC). PNCB has changed their blueprint. The current content outline is based on our 2017-18 Job Task Analysis (JTA) research. This routine, required research ensures that exam content accurately represents current pediatric primary care nurse practitioner practice in the U.S. The revised book would focus on the current blueprint, released Sept 2018"--

Updates for 2020! We've made edits and updates to the following sections: Asthma, Atrial Fibrillation, Beers Criteria, Chronic Kidney Disease, Crohn's, COPD, Diabetes, Migraines, Hyperlipidemia, Parkinson's, Sexual Dysfunction, Ulcerative Colitis, and Vaccines. In addition, we've created a section on the rapidly growing topic of Pharmacogenomics. If you are a pharmacist seeking to become board certified in geriatrics by passing the exam, this is a must-have study guide. We've edited our VERY popular BCPS Bullets book and created a review for the geriatric pharmacy exam based on the Board of Pharmaceutical Specialties content outline. With recent PASS rates around 40%, you have to have the right tools to pass this exam and this book will help immensely. In addition to the exam being very difficult, you are likely a busy professional with very minimal free time. I've always had a hard time staying focused while studying from large review article type study guides and have squandered hours reading while retaining very little. This book is intended to be a crash course/cheat sheet overview of the most highly testable material. I wanted to remember the really important stuff because I know it is impossible to know every minute detail. BCGP Bullets, the Condensed BCGP Study Guide will help prepare you for the exam as well as help you maximize your study time. We have covered over 100+ disease states with critical clinical pearls, like drugs of choice, drug interactions, disease state education, and geriatric-specific nuggets for certain medications. Biostatistics basics, important geriatric terminology, social, financial, and emotional considerations are also included in this book. Items like elder abuse, advanced directives, and power of attorney show up in the content outline and we have also outlined the basics of this terminology. I can assure you that there is no doubt this book will help in your preparation for becoming a BCGP certified pharmacist! The Board Certified Geriatric Pharmacist (BCGP) is a designation from the Board of Pharmacy Specialties. The contents within this study guide are not affiliated or endorsed by the Board of Pharmacy Specialties.

Learn the principles and skills you'll need as a respiratory therapist! Egan's Fundamentals of Respiratory Care, 12th Edition provides a solid foundation in respiratory care and covers the latest advances in this ever-changing field. Known as "the bible for respiratory care," this text makes it easy to understand the role of the respiratory therapist, the scientific basis for treatment, and clinical applications. Comprehensive chapters correlate to the 2020 NBRC Exam matrices, preparing you for clinical and exam success. Written by noted educators Robert Kacmarek, James Stoller, and Albert Heuer, this edition includes new chapters on heart failure as well as ethics and end-of-life care, plus the latest AARC practice guidelines. Updated content reflects the newest advances in respiratory care, preparing you to succeed in today's health care

environment. UNIQUE! Mini-Clinis provide case scenarios challenging you to use critical thinking in solving problems encountered during actual patient care. Decision trees developed by hospitals highlight the use of therapist-driven protocols to assess a patient, initiate care, and evaluate outcomes. Rules of Thumb highlight rules, formulas, and key points that are important to clinical practice. Learning objectives align with the summary checklists, highlighting key content at the beginning and at the end of each chapter, and parallel the three areas tested on the 2020 NBRC Exam matrices. Learning resources on the Evolve companion website include an NBRC correlation guide, image collection, lecture notes, Body Spectrum electronic anatomy coloring book, and an English/Spanish glossary. Student workbook provides a practical study guide reflecting this edition of the text, offering numerous case studies, experiments, and hands-on activities. Available separately. Full-color design calls attention to the text's special features and promotes learning. Glossary includes key terms and definitions needed for learning concepts. NEW Heart Failure chapter covers the disease that is the most frequent cause of unscheduled hospital admissions. NEW Ethics and End-of-Life Care chapter explains related issues and how to help patients and their families. NEW! Improved readability makes the text easier to read and concepts easier to understand. NEW! Updated practice guidelines from the AARC (American Association for Respiratory Care) are included within the relevant chapters. NEW! Updated chapters include topics such as arterial lines, stroke, ACLS, PALS, hemodynamics, polysomnography, waveform interpretation, and laryngectomy. NEW! Streamlined format eliminates redundancy and complex verbiage.
