First Corinthians

This book constitutes the refereed proceedings of the 8th International Conference on Social Computing and Social Media, SCSM 2016, held as part of the 18th International Conference on Human-Computer Interaction, HCII 2016, held in Toronto, ON, Canada, in July 2016. The total of 1287 papers and 186 posters presented at the HCII 2016 conferences were carefully reviewed and selected from 4354 submissions. The papers thoroughly cover the entire field of Human-Computer Interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The 43 contributions included in the SCSM 2016 proceedings were organized in the following topical sections: designing and developing social media; users behaviour in social media; social media, policy, politics and engagement; social network analysis; social media in learning and collaboration; and enterprise social media.

Griselda

This book constitutes the proceedings of the Third International Conference on Human Aspects of Information Security, Privacy, and Trust, HAS 2015, held as part of the 17th International Conference on Human-Computer Interaction, HCII 2015, held in Los Angeles, CA, USA, in August 2015 and received a total of 4843 submissions, of which 1462 papers and 246

posters were accepted for publication after a careful reviewing process. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers thoroughly cover the entire field of Human-Computer Interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The 62 papers presented in the HAS 2015 proceedings are organized in topical sections as follows: authentication, cybersecurity, privacy, security, and user behavior, security in social media and smart technologies, and security technologies.

Diagnosis of Learning Difficulties

Children with Developmental Coordination Disorder (DCD) represent a significant portion of the school-aged population. They experience coordination deficits which considerably impact their performance of daily activities at home, in play, and at school. While their coordination abilities have been extensively studied, the nature and mechanisms of the disorder remains poorly understood. Given the identified coordination deficits of these children and the evidence gathered from studies characterizing those deficits, the hypothesis of a cerebellar dysfunction warrants investigation. Accordingly, the objectives of this study were to explore the performance of children with and without DCD on a throwing task, designed to measure cerebellar function. A two-group comparison design was used to evaluate between-group and individual differences.

Results demonstrated that, as a group, children with DCD are more variable and less accurate than their peers, and that some children with DCD may have a cerebellar dysfunction. Further studies are needed to examine this hypothesis.

Developmental Coordination Disorder [microform] : Exploration of a Cerebellar Hypothesis

"A Michael Glazier book." Includes bibliographical references and indexes.

Learning and Collaboration Technologies

Virtue Ethics is the ethics of character and character formation and for this reason is sometimes described as agent-centred to contrast it with rule-based ethical theories. The agent here is the person who is choosing to pursue some end and doing so for good reasons. So a virtue is usually defined as either a disposition of character or an inclination of character, the first definition highlighting the habitual nature of the virtues, and the second, the link between virtue and will.

Virtual, Augmented and Mixed Reality

Bismarck, the White Revolutionary: 1851 [i.e. 1815]-1871

With this new lectionary commentary series, Westminster John Knox offers the most extensive resource for preaching on the market today. When complete, the twelve volumes of the series will cover all the Sundays in the three-year lectionary cycle, along with movable occasions, such as Christmas Day, Epiphany, Holy Week, and All Saints' Day. For each lectionary text, preachers will find four brief essays--one each on the theological, pastoral, exegetical, and homiletical challenges of the text. This gives preachers sixteen different approaches to the proclaimation of the Word on any given occasion. The editors and contributors to this series are world-class scholars, pastors, and writers representing a variety of denominations and traditions. And while the twelve volumes of the series will follow the pattern of the Revised Common Lectionary, each volume will contain an index of biblical passages so that nonlectionary preachers, as well as teachers and students, may make use of its contents.

Distributed, Ambient and Pervasive Interactions

A story of witches, magic, vampires and dragons.

Sacra Pagina: Second Corinthians

The Princess Trilogy consists of Princess, A True Story; Princess Sultana's Daugthers; and Princess Sultana's Circle. Sultana is a Saudi Arabian princess, born to uncountable wealth. She has four mansions on three continents, her own private jet, glittering jewels,

designer dresses galore. But she has no freedom, no control over her own life, no value but as a bearer of sons. Sultana is a member of the Saudi royal family, closely related to the king. For the sake of her daughters, she has decided to take the risk of speaking out about the life of women in her country, regardless of their rank. She must hide her identity for fear that the religious leaders in her country would call for her death to punish her honesty. Only a woman in her position could possibly hope to escape from being revealed and punished. Although Sultana lives with constant fear of retribution, her passion to provide her daughters a better life transcends her fear and fuels her desire for change.

God Is Order Not Out of Order

This book constitutes the proceedings of the 16th International Conference on Engineering Psychology and Cognitive Ergonomics, EPCE 2019, held as part of the 21st International Conference, HCI International 2019, which took place in Orlando, FL, USA, in July 2019. The total of 1274 papers and 209 posters included in the 35 HCII 2019 proceedings volumes was carefully reviewed and selected from 5029 submissions. EPCE 2019 includes a total of 34 regular papers; they were organized in topical sections named: mental workload and performance; visual cognition; cognitive psychology in aviation and space; and group collaboration and decision making.

HCI in Business

This thorough commentary presents a coherent reading of 1 Corinthians, taking full account of its Old Testament and Jewish roots and demonstrating Paul's primary concern for the unity and purity of the church and the glory of God. Roy Ciampa and Brian Rosner's well-informed, careful exegesis touches on an astonishingly wide swath of important yet sensitive issues, reinforcing the letter's ongoing theological and pastoral significance.

Human Aspects of Information Security, Privacy, and Trust

In Bartchy's Harvard dissertation, a thorough investigation into the character of slavery in first-century Greece serves as the basis for a rethinking of Paul's advice to slaves in 1 Corinthians 7:21. Such a rethinking also sheds light on Paul's more general concern that the Corinthian Christians find their identity in their calling as followers of Jesus rather than in their circumstances of race, gender, or socio-political status.

HCII 2016 received a total of 4354 submissions, of which 1287 papers were accepted for publication after a careful reviewing process. The 70 papers presented in this volume are organized in topical sections named: Usability, User Experience and Design in VAMR, Perception, Cognition, Psychology and Behaviour in VAMR, Multimodal Interaction in VAMR, Novel Devices and Technologies in VAMR, VAMR Applications in Aviation,

Space and the Military, Medicine, Health and Well-Being Applications of VAMR, VAMR in Industry, Design and Engineering, Novel Virtual Environments.

Dead Girl Walking

Sacra Pagina: 1, 2, and 3 John

The Johannine Epistles are today read as an important part of the Johannine literature. Yet the meaning of the text is often unclear. Part of the problem arises because, although 1 John is called an Epistle, it lacks the formal marks of an Epistle. In 1, 2, and 3 John, John Painter illuminates the relationship 1, 2, and 3 John have to each other and to the Gospel. Painter explains the historical context of the Johannine Epistles using a socio-rhetorical approach. The writings are shown to reflect a situation of conflict and schism within the Johannine community; they seek to persuade the readers of the truth of the writer's message. In this truth, the readers are encouraged to abide if they would have the assurance of eternal life. Painter also examines the inseparable connection between belief and ethical life in active love for one another. Through the socio-rhetorical approach Painter brings to light the continuing relevance of these writings. 1, 2, and 3 John is divided into two parts. Chapters under 1 John are Introduction to the Exegesis of 1 John," *Outline of 1 John, - *First Presentation of the Two Tests(1:6-2:27), - *Excursus: Sin and Sinlessness, - *Excursus: Love of the Brother/Sister: of One Another, - *Excursus: The

Antichrist, - *Second Presentation of the Two Tests (2:28-4:6), - *Third Presentation of the Two Tests (4:7-5:12), - *Conclusion (5:13-21), and *Excursus: 'A Sin Unto Death.' - Chapters under 2 and 3 John are *2 John, - *Introduction to the Exegesis of 2 John, - *Outline of 2 John, - *Prescripti 2 John 1-3, - *Body of the Letter (4-11), - *Notice of Intention to Visit (12), - and *Final Greetings (13), - *3 John, - *Introduction to the Exegesis of 3 John, - *Outline of 3 John, - *Prescript: 3 John 1-2, - *Body of Letter (3-12), - and *Final Greetings (13-15). - John Painter is the Foundation Professor of Theology at Charles Sturt University in Canberra, Australia. "

The Gospel of Mark

A Boston Globe Best Book of the Year: From Berlin to Barcelona, sex, drugs, rock 'n' roll, and murder make for "tantalizing . . . fantastic thriller fare" (Booklist). Celebrated, beautiful, and talented, rock star Heike Gunn had everything . . . right up until she vanished. Meanwhile, Scottish journalist Jack Parlabane just watched his career and marriage vanish, along with his reputation, after landing himself on the wrong end of a scandal. But when he gets a call for help from Heike's manager, Parlabane sees a shot at redemption. As Parlabane enters the backstage world of Heike's band, he discovers each member has plenty to hide. Paranoia, jealousy, guilt, and obsession are getting the best of them. Just like they got to Heike. But as he pursues the superstar's reckless past—from Milan to the Scottish islands—Parlabane is forced to confront his own dark history. As secrets

start colliding, he'd better find Heike before it's too late for both of them. Christopher Brookmyre's prize-winning series continues with a "country-hopping plot [that] looks back to Graham Greene and John Buchan, but . . . [it's] bang up-to-date" (The Sunday Times). "Fascinating . . . darkly humorous yet disturbing." —Publishers Weekly "Good right to the final page." —The Globe and Mail (Toronto)

Virtual, Augmented and Mixed Reality

This book constitutes the refereed proceedings of the 5th International Conference on Distributed, Ambient and Pervasive Interactions, DAPI 2017, held as part of the 19th International Conference on Human-Computer Interaction, HCII 2017, held in Vancouver, BC, Canada, in July 2017. The total of 1228 papers presented at the 15 colocated HCII 2017 conferences was carefully reviewed and selected from 4340 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. This volume contains papers addressing the following major topics: designing and evaluating distributed, ambient and pervasive interactions; natural interaction; smart cities; art and cultural heritage in smart environments; smart environments for quality of life; smart environments for learning and creativity; and ambient games and

humour.

Princess Trilogy

This study shows that the common view of 1 Corinthians as mainly about 'ethics' and therefore of little importance for 'theology' needs correcting. Furnish argues that 1 Corinthians is an even better place to take the apostle's theological pulse than the allegedly 'more theological' letters to the Galatians and Romans, because here it is especially evident how his thinking about the gospel took place within the crucible of his missionary and pastoral labours. Paul's complex theological legacy is not a systematic theology or even the basis for constructing a theological system. However, we come close to the heart of Paul's legacy in his clear-sighted identification of the gospel with the saving power of God's love as disclosed in Christ, and his insistence that those who are called to belong to Christ are thereby summoned to be agents of God's love wherever in the world they have received that call.

Social Computing and Social Media

Engineering Psychology and Cognitive Ergonomics

This is the first part of the two-volume set (LNCS 8023-8024) that constitutes the refereed proceedings of the 5th International Conference on Cross-Cultural Design, held as part of the 15th International

Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. This two-volume set contains 113 papers. The papers in this volume focus on the following topics: cross-cultural product design, cross-cultural design methods and techniques, international usability evaluation, and case studies in cross-cultural design.

The Gospel of Luke

This commentary on II Corinthians in the New Testament Library continues the exemplary quality of the series. Frank Matera provides a commentary that is a close study of the backgrounds and language of the text while also providing important theological insights into the message of Paul for his time and for the contemporary church. The New Testament Library offers authoritative commentary on every book and major aspect of the New Testament, as well as classic volumes of scholarship. The commentaries in this series provide fresh translations based on the best available ancient manuscripts, offer critical portrayals

of the historical world in which the books were created, pay careful attention to their literary design, and present a theologically perceptive exposition of the text.

RFGI Handbook I

This book shows the body of christ how God is order, and how the body of christ has been out of order.

Women Praying and Prophesying in Corinth

No two works in the Pauline Epistles resemble each other as closely as Colossians and Ephesians. Often recognized for their majestic tone and powerful theological statement, Colossians and Ephesians also present many challenges of interpretation. Most commentaries on these letters seem preoccupied with the same few issues, particularly the question of authorship. As MacDonald addresses these classic questions, she offers a fresh perspective on Colossians and Ephesians by making use of insights from the social sciences. Moreover, by paying attention to subtle differences between the two letters, she brings their distinct perspectives into sharp relief. MacDonald highlights the interplay between Colossians and Ephesians and the social life of New Testament communities. She illustrates how the texts reflect ancient cultural values and are influenced by particular aspects of community life such as worship and household existence. In particular, she reflects on the issues faced by these

communities as they formed institutions and interacted with the society around them. She shows the struggles of the New Testament communities to survive and maintain a distinct identity in first-century society. Margaret Y. MacDonald is a professor in the department of religious studies at St. Francis Xavier University in Nova Scotia. She and Carolyn Osiek have coauthored (with Janet H. Tulloch) A Women's Place: House Churches in Earliest Christianity (Fortress, 2006). Her research has been supported by the Social Sciences and Humanities Research Council of Canada.

The Second Life of Inspector Canessa

Pro Agile .NET Development with SCRUM guides you through a real-world ASP.NET project and shows how agile methodology is put into practice. There is plenty of literature on the theory behind agile methodologies, but no book on the market takes the concepts of agile practices and applies these in a practical manner to an end-to-end ASP.NET project, especially the estimating, requirements and management aspects of a project. Pro Agile .NET Development with SCRUM takes you through the initial stages of a project—gathering requirements and setting up an environment—through to the development and deployment stages using an agile iterative approach: namely, Scrum. In the book, you'll focus on delivering an enterprise-level ASP.NET project. Each chapter is in iterations or sprints, putting into practice the features of agile—user stories, test-driven development (TDD), behavior-driven development (BDD), continuous integration,

user acceptance testing, extreme programming, Scrum, design patterns and principles, inside-out development, lean developent, KanBan boards, and more. An appendix features code katas designed for the reader to get up-to-speed with some of the features of extreme programming, while also showcasing popular open-source frameworks to assist in automated testing and mocking. In addition, popular open-source architectural foundation projects such as S#arp and NCommons are demonstrated to allow you to base future projects on these frameworks, which already have many best-practice design patterns and principles built in.

Human Aspects of Information Security, Privacy, and Trust

The LNCS volume 9192 constitutes the refereed proceedings of the Second International Conference on Learning and Collaboration Technologies, LCT 2015, held as part of the 17th International Conference on Human-Computer Interaction, HCII 2015, in Los Angeles, CA, USA in August 2015, jointly with 15 other thematically similar conferences. The total of 1462 papers and 246 posters presented at the HCII 2015 conferences were carefully reviewed and selected from 4843 submissions. These papers address addressing the following major topics: technology-enhanced learning, adaptive and personalised learning and assessment, virtual worlds and virtual agents for learning, collaboration and Learning Serious Games and ICT in education.

The Theology of the First Letter to the Corinthians

Ce livre est écrit en anglais. Il aborde les difficultés rencontrées par l'enfant souffrant d'un DCD en anglais = TAC (trouble de l'acquisition de la coordination), les tests disponibles pour les fonctions perceptivo-motrices, les différents sous-types et la comorbidité, les déficits sous-jacents au TAC, les approches thérapeutiques et leur efficacité, et la prise en charge du TAC. Table of contents Characteristics of DCD : on problems & prognosis Diagnostic Procedure for Developmental Coordination Disorder Subtypes & comorbidities Deficits underlying DCD Review of interventions for children with DCD : the approaches and the evidence Dynamic management of DCD

Pro Agile .NET Development with SCRUM

This book constitutes the refereed proceedings of the First International Conference on Digital Human Modeling, DHM 2007, held in Beijing, China in July 2007. The papers thoroughly cover the thematic area of digital human modeling, addressing the following major topics: shape and movement modeling and anthropometry, building and applying virtual humans, medical and rehabilitation applications, as well as industrial and ergonomic applications.

Feasting on the Word

This book constitutes the refereed proceedings of the 13th International Conference on Augmented

Cognition, AC 2019, held as part of the 21st International Conference on Human-Computer Interaction, HCII 2019, in Orlando, FL, USA in July, 2019. The 1274 full papers and 209 posters presented at the HCII 2019 conferences were carefully reviewed and selected from 5029 submissions. The papers cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of applications areas. The papers in this volume are organized in the following topical sections: cognitive modeling, perception, emotion and interaction; human cognition and behavior in complex tasks and environments; brain-computer interfaces and electroencephalography; and augmented learning. --

MongoDB: The Definitive Guide

Family secrets, terrorist plots and the return of a legendary cop: a ferociously paced noir thriller from one of Italy's top crime writers, and the second book in Pushkin Press's collaboration with Walter Presents Annibale Canessa didn't want to go back to his old life. When everything went wrong in 1984, he traded his brutal, exciting career in the Carabinieri for

paradise in San Fruttuoso. He started swimming in the bay at dawn and helping his elderly aunt run a small restaurant. His life was calm. But some shattering news pulls him back in - his estranged brother has been found dead; lying beside him, the body of an ex-terrorist, a man Canessa himself caught. Back in Milan, Canessa must pursue old connections and unsolved crimes, which draw him ever deeper into the underworld he thought he'd left behind

Virtue Ethics

In First Corinthians, Paul makes two conflicting statements about women's speech: He crafts a difficult argument about whether men and women should cover their heads while praying or prophesying (11:2-16) and instructs women to be silent in the assembly (14:34-35). These two statements bracket an extended discussion about inspired modes of speech - prophecy and prayer in tongues. From these exegetical observations, Jill E. Marshall argues that gender is a central issue throughout 1 Corinthians 11-14 and the religious speaking practices that prompted Paul's response. She situates Paul's arguments about prayer and prophecy within their ancient Mediterranean cultural context, using literary and archaeological evidence, and examines the differences in how ancient writers described prophetic speech when voiced by a man or a woman.

Developmental coordination disorder

Now Available in Paperback! Second Corinthians is

often regarded as the most personal of Paul's letters. In this letter Paul more than once fiercely counters the attacks of his opponents. He extensively describes both the quality and circumstances of his apostolic existence: the sufferings he endures, the opposition he encounters, and his continual care for the churches. Second Corinthians is, therefore, highly significant theologically as well as autobiographically. This letter is an especially important document because of Paul's ongoing reflection on his ministry. It is both profound in its content and style for its original audience as well as for today's readers. It is a message that is relevant to Christians today. Jan Lambrecht, SJ, is professor emeritus of New Testament and biblical Greek at the Catholic University of Leuven, Belgium. "

Augmented Cognition

Manage the huMONGOus amount of data collected through your web application with MongoDB. This authoritative introduction—written by a core contributor to the project—shows you the many advantages of using document-oriented databases, and demonstrates how this reliable, high-performance system allows for almost infinite horizontal scalability. This updated second edition provides guidance for database developers, advanced configuration for system administrators, and an overview of the concepts and use cases for other people on your project. Ideal for NoSQL newcomers and experienced MongoDB users alike, this guide provides numerous real-world schema design examples. Get started with

MongoDB core concepts and vocabulary Perform basic write operations at different levels of safety and speed Create complex queries, with options for limiting, skipping, and sorting results Design an application that works well with MongoDB Aggregate data, including counting, finding distinct values, grouping documents, and using MapReduce Gather and interpret statistics about your collections and databases Set up replica sets and automatic failover in MongoDB Use sharding to scale horizontally, and learn how it impacts applications Delve into monitoring, security and authentication, backup/restore, and other administrative tasks

Maps, Artifacts, and Other Arcane Magic

"One of the most exciting of Paul's letters, First Corinthians offers a vantage point from which modern

readers can reflect on the diversity in Christian churches today. In First Corinthians, Raymond Collins explores that vantage point as well as the challenge Paul posed to the people of his time - and continues to pose in ours - to allow the gospel message to engage them in their daily lives."--P. [4] of cover.

The First Letter to the Corinthians

This volume constitutes the refereed proceedings of the Second International Conference on HCI in Business, HCIB 2015, held as part of the 17th International Conference on Human-Computer Interaction, HCII 2015, which took place in Los Angeles, CA, USA, in August 2015. HCII 2015 received a total of 4843 submissions, of which 1462 papers and 246 posters were accepted for publication after a careful reviewing process. The papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. They thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The 72 papers presented in this volume address the following topics: social media for business, enterprise systems, business and gamification, analytics, visualization and decision- making, industry, academia, innovation, and market.

II Corinthians

The Cornerstone Biblical Commentary series (18

volumes) provides students, pastors, and laypeople with up-to-date, accessible evangelical scholarship on the Old and New Testaments. Presenting the message for each passage, as well as an overview of other issues relevant to the text, each volume equips pastors and Christian leaders with exegetical and theological knowledge so they can better understand and apply God's Word. This volume includes the entire NLT text of 1st and 2nd Corinthians. Ideal for the NLT reader who wants to do more in-depth study. William R. Baker, Ph.D., University of Aberdeen, is professor of New Testament at Cincinnati Bible Seminary in Cincinnati, Ohio. He is the general editor of Stone-Campbell Journal and the author and editor of several books and articles, including Evangelicalism and the Stone-Campbell Movement and Sticks and Stones: The Biblical Ethics of Talk. He has also written a commentary on 2 Corinthians for the College Press NIV Commentary Series. Ralph P. Martin, Ph.D., University of London, is in his fifth decade as a teacher, scholar, and mentor. He is Distinguished Scholar in Residence at Fuller Theological Seminary, at the Graduate School of Theology of Azusa Pacific University, and at Logos Evangelical Seminary in Pasadena, California. He is the author of numerous studies and commentaries on the New Testament, including Worship in the Early Church, the Philippians in The Tyndale New Testament Commentary series, and James in the Word Biblical Commentary, for which he also serves as New Testament editor. He also co-edited the Dictionary of Paul and His Letters and the Dictionary of the Later New Testament and Its Developments. Ordained to the Baptist ministry in 1949, Dr. Martin has pastored churches in Dunstable,

Southport, and Gloucester, England. Carl N. Toney, Ph.D., Loyola University Chicago, is adjunct assistant professor of New Testament at Fuller Theological Seminary in Pasadena, California. He edited and contributed to the revised edition of 2 Corinthians in the Word Biblical Commentary series and is the author of Paul's Inclusive Ethic: Resolving Community Conflicts and Promoting Mission in Romans 14-15. A licensed minister in the American Baptist Convention, Dr. Toney is also a member of the Society of Biblical Literature.
