The Unknown Leader

Fuel success and grow your team at every level of leadership. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than

"the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position - People follow because they have to. 2. Permission - People follow because they want to. 3. Production - People follow because of what you have done for the organization. 4. People Development - People follow because of what you have done for them personally. 5. Pinnacle - People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

Accelerated Strategy Development and Execution The company of today has its supply chains and finances stretched further around the globe than ever before while simultaneously having increasing pressures to drive value across a complicated and fluid set of metrics and deliver innovations, products, and services more quickly and reliably. The competitive advantage belongs to the companies that can quicken their vision-building and strategy-execution efforts—the ones that can identify challenges more swiftly and accelerate their decision making so they are better able to formulate and deploy responses decisively yet with greater agility. To successfully accomplish this, companies will have to prioritize creating a culture of leadership that strengthens communication skills and emphasizes systems thinking by building capacity and capability that cuts across the business smokestacks and permeates the entire organization. In *State of Readiness*, Joseph F. Paris Jr. shares over thirty years of international business and operations experience and guides C-suite executives and business-operations and -improvement specialists on a path toward operational excellence, the organizational capability and situational awareness that is attained as the enterprise reaches a state of alignment for pursuing its strategies. In doing so, create a corporate culture that is committed to the continuous and deliberate improvement of company performance and the circumstances of those who work there—a precursor to becoming a high-performance organization.

Our world has many obvious leaders: captains of industry, high-achieving academics, CEOs, statesmen, champion athletes. But we also depend on leaders whose work is usually not so visible. They are all around us, filling crucial roles at every level of society, in all kinds of organizations and in our communities, enriching the lives of those around them and making the world a better place. *The Unknown Leader* celebrates these leaders among us and invites you to join them. Hussein A. Al-Banawi shares the inspiring stories of some of today's Unknown Leaders and shows how they discovered their hidden talents through hard work, reflection and continual learning. He also recounts his own lifelong journey toward leadership and the invaluable lessons he gained from unusual friendships, daunting challenges, tough decisions, victories and defeats. And Al-Banawi explains the six crucial qualities every aspiring leader must develop, with specific advice about how to enhance these qualities in yourself. Whether you are a student, a mid-career professional, an entrepreneur, or anyone seeking a richer and fulfilling life, *The Unknown Leader* will be a powerful guide and companion in your own lifelong journey.

How to Lead

AI is radically transforming business. Are you ready? Look around you. Artificial intelligence is no longer just a futuristic notion. It's here right now--in software that senses what we need, supply chains that "think" in real time, and robots that respond to changes in their environment. Twenty-first-century pioneer companies are already using AI to innovate and grow fast. The bottom line is this: Businesses that understand how to harness AI can surge ahead. Those that neglect it will fall behind. Which side are you on? In *Human + Machine*, Accenture leaders Paul R. Daugherty and H. James (Jim) Wilson show that the essence of the AI paradigm shift is the transformation of all business processes within an organization--whether related to breakthrough innovation, everyday customer service, or personal productivity habits. As humans and smart machines collaborate ever more closely, work processes become more fluid and adaptive, enabling companies to change them on the fly--or to completely reimagine them. AI is changing all the rules of how companies operate. Based on the authors' experience and research with 1,500 organizations, the book reveals how companies are using the new rules of AI to leap ahead on innovation and profitability, as well as what you can do to achieve similar results. It describes six entirely new types of hybrid human + machine roles that every company must develop, and it includes a "leader's guide" with the five crucial principles required to become an AI-fueled business. *Human + Machine* provides the missing and much-needed management playbook for success in our new age of AI. **BOOK PROCEEDS FOR THE AI GENERATION** The authors' goal in publishing *Human + Machine* is to help executives, workers, students and others navigate the changes that AI is making to business and the economy. They believe AI will bring innovations that truly improve the way the world works and lives. However, AI will cause disruption, and many people will need education, training and support to prepare for the newly created jobs. To support this need, the authors are donating the royalties received from the sale of this book to fund education and retraining programs focused on developing fusion skills for the age of artificial intelligence.

Becoming A Person of Influence

Seminary president Jeff Iorg believes that character, and character development, are essential foundations for effective leaders. In *The Character of Leadership*, he writes about how God ever shapes character in the life of every leader, and in relation, how continual spiritual formation is a process to which every good leader must pay close attention. Iorg puts insightful chapter-long emphasis on nine important character-shaping qualities that help readers in "becoming the leader God intends me to be rather than doing the leading God intends me to do." The nine qualities are: Integrity, Security, Purity, Humility, Servanthood, Wisdom, Discipline, Courage, and Passion. Endorsements: Rick Warren, author of *The Purpose-Driven Life* "Jeff Iorg defines lasting leadership as character, not capacity or competency. The making of a great leader is built on what God intends you to be rather than doing the leading God intends for you to do. His purpose is first and foremost to shape you into the image of Jesus, the greatest leader of all time." James T. Draper, Jr., president emeritus, LifeWay Christian Resources "An enormous contribution to the critical area of ministry and leadership. A must read for every ministry that strives for excellence. I recommend it without reservation."

J. Robert White, executive director, Georgia Baptist Convention "Iorg is imminently qualified to write this volume on leadership . . . the chapters on integrity and purity are very much needed in our times and worth the investment of your time."

The 15 Invaluable Laws of Growth

The Pulitzer Prize-winning epic of the Great Depression, a book that galvanized—and sometimes outraged—millions of readers. First published in 1939, Steinbeck's Pulitzer Prize-winning epic of the Great Depression chronicles the Dust Bowl migration of the 1930s and tells the story of one Oklahoma farm family, the Joads—driven from their homestead and forced to travel west to the promised land of California. Out of their trials and their repeated collisions against the hard realities of an America divided into Haves and Have-Nots evolves a drama that is intensely human yet majestic in its scale and moral vision, elemental yet plainspoken, tragic but ultimately stirring in its human dignity. A portrait of the conflict between the powerful and the powerless, of one man's fierce reaction to injustice, and of one woman's stoical strength, the novel captures the horrors of the Great Depression and probes into the very nature of equality and justice in America. At once a naturalistic epic, captivity narrative, road novel, and transcendental gospel, Steinbeck's powerful landmark novel is perhaps the most American of American Classics. This Centennial edition, specially designed to commemorate one hundred years of Steinbeck, features french flaps and deckle-edged pages. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

“The only way to create great relationships and results is through servant leadership. Not infrequently, they end up bringing down their entire organization. But there is another way: servant leadership. Servant leaders lead by serving their people, not by exalting themselves. This collection features forty-four renowned servant leadership experts and practitioners—prominent business executives, bestselling authors, and respected spiritual leaders—who offer advice and tools for implementing this proven, but for some still radical, leadership model. Edited by legendary business author and lifelong servant leader Ken Blanchard and his longtime editor Renee Broadwell, this is the most comprehensive and wide-ranging guide ever published for what is, in every sense, a better way to lead.

Ultimate Leadership

Reinvent best practices that have become bad habits Without meaning to, and often with the best of intentions, most organizations continually waste precious time and money on processes and activities that don't create value and no longer make sense in today's business environment. Until now, the relatively slow speed of marketplace evolution has allowed wasteful habits to continue without consequence. This reality is ending. Detonate explains how organizations built up

bad habits, identifies which ones masquerade as "best practices," and suggests alternatives that can contribute to winning in the marketplace. With a focus on optimism and empowerment, it focuses on an approach and mindset which are critical to successfully compete in an era characterized by profound technological advances and uncertainty. • Core themes challenge how you think about and approach problems • Case studies illustrate the challenges you face and how to overcome them • Recommendations are pragmatic and steer clear of suggesting a brand-new, complicated wiring diagram • Actionable advice provides the first steps down an evolutionary path If you want to compete differently in today's marketplace and to challenge the things your company does which you have a nagging feeling are actually just a waste of time - and maybe value-destroying - Detonate gives you what you need to ignite change.

Servant Leadership in Action

Most of us look at our days in the wrong way: We exaggerate yesterday. We overestimate tomorrow. We underestimate today. The truth is that the most important day you will ever experience is today. Today is the key to your success. Maxwell offers 12 decisions and disciplines-he calls it his daily dozen-that can be learned and mastered by any person to achieve success.

The Character of Leadership

The Bottom Line on Success Most of us are eager to achieve success in life. But are we really sure what actions yield true, lasting success? Do you KNOW that you're taking steps in the right direction? Success is different for every person. But the principles for the journey don't change. In Success 101, John Maxwell distills success down to its essential components. In this short and easy-to-read volume, he shows you exactly what success looks like. He also offers specific steps you can take and ways you can overcome obstacles that might otherwise keep you from achieving success. Success breeds success—in you, in those closest to you, and in everyone you lead.

Developing the Leader Within You

#1 New York Times bestselling author John C. Maxwell's latest book will enhance the lives of leaders, professionals, and anyone who wants to achieve success and personal growth. We often treat the word capacity as if it were a natural law of limitation. Unfortunately, most of us are much more comfortable defining what we perceive as off limits rather than what's really possible. Could it be that many of us have failed to expand our potential because we have allowed what we perceive as capacity to define us? What if our limits are not really our limits? In his newest book, John Maxwell identifies 17 core capacities. Some of these are abilities we all already possess, such as energy, creativity and leadership. Others are aspects of our lives controlled by our choices, like our attitudes, character, and intentionality. Maxwell examines each of these capacities, and provides clear and actionable advice on how you can increase your potential in each. He will guide you on how to identify, grow, and apply your critical capacities. Once you've blown the "cap" off your capacities, you'll find yourself more successful--and fulfilled--in your daily life.

Everyone Communicates, Few Connect

Why do some people achieve great personal success, yet never succeed in building

a business or making an impact in their organization? John C. Maxwell knows the answer. "The greatest leadership principle that I have ever learned in over twenty-five years of leadership," says Maxwell, "is that those closest to the leader will determine the success level of that leader." It's not enough for a leader to have vision, energy, drive, and conviction. If you want to see your dream come to fruition, you must learn how to develop the leaders around you. Whether you're the leader of a non-profit organization, small business, or Fortune 500 company, *Developing the Leaders Around You* can help you to take others to the limits of their potential and your organization to a whole new level.
