magical world—and a fight to save mankind—in this novel by a New York Times–bestselling author. As a student of medieval history, Gil Patterson is a woman familiar with dark stories. She knows well the Crusades, the Black Death, and the other horrors of the Middle Ages, but it is another kind of atrocity that has begun to haunt her dreams. She sees forces of evil assaulting a beleaguered kingdom, whose kind people are on the brink of annihilation, and awakes each morning in a cold sweat. Gil dismisses the dreams until a wizard appears in her apartment. He has crossed into her dimension, passing through the fraying fabric of the universe, to ask her help. For mankind to survive he must protect an infant prince, whom he plans to hide in Gil's world. The student of history is about to get much closer to evil than she ever imagined. This ebook features an illustrated biography of Barbara Hambly, including rare photos and never-before-seen documents from the author's personal collection.

Knights of the Old Republic

One of fantasy's finest next-generation storytellers continues to break new ground. Michael J. Sullivan's trailblazing career began with the breakout success of his Riyria series: full-bodied, spellbinding fantasy adventures whose imaginative scope and sympathetic characters won a devoted readership and comparisons to fantasy masters Brandon Sanderson, Scott Lynch, and J.R.R. Tolkien himself. Now *Age of Myth* inaugurates an original five-book series. Since time immemorial, humans have worshipped the gods

they call Fhrey, truly a race apart: invincible in battle, masters of magic, and seemingly immortal. But when a god falls to a human blade, the balance of power between humans and those they thought were gods changes forever. Now only a few stand between humankind and annihilation: Raithe, reluctant to embrace his destiny as the God Killer; Suri, a young seer burdened by signs of impending doom; and Persephone, who must overcome personal tragedy to lead her people. The Age of Myth is over. The time of rebellion has begun. Magic, fantasy, and mythology collide in Michael J. Sullivan's Legends of the First Empire series: AGE OF MYTH • AGE OF SWORDS • AGE OF WAR

The first novel in an exciting new series, *Every Sky a Grave* is a thrilling space epic following a powerful woman who can destroy planets with a single word but is suddenly faced with an adversary that threatens the entire known universe. Far in the future, human beings have seeded themselves amongst the stars. Since decoding the language of the universe 8,000 years ago, they have reached the very edges of their known galaxy and built a near-utopia across thousands of worlds, united and ruled by a powerful organization known as the Ascendance. The peaceful stability of their society relies solely on their use of this Deep Language of the cosmos. But this knowledge is a valuable secret, and a holy order of monastics known as the First House are tasked with monitoring its use and “correcting” humanity’s further development. Elyth is one such mendicant, trained as a planetary assassin, capable of infiltrating and ultimately destroying worlds that have been corrupted, using nothing more than her words. To this end, Elyth is sent to the world Qel in response to the appearance of a forbidden strain of the Deep Language that was supposed to have died out with its founder over seven hundred years prior. What she finds on the backwater planetoid will put her abilities to the test and challenge what she knows of the Deep Language, the First House, and the very nature of the universe.

From grading to testing, from content area disciplines to curriculum planning and instruction, from the social construction of knowledge to embodied cognition, this book takes the theories behind Critical Pedagogy and illustrates them at work in common classroom environments.

This book is an analysis of literary texts that question, critique, or subvert anthropocentrism, the notion that the universe and everything in it exists for humans. Bryan Moore examines ancient Greek and Roman texts; medieval to twentieth-century European texts; eighteenth-century French philosophy; early to contemporary American texts and poetry; and science fiction to demonstrate a historical basis for the questioning of anthropocentrism and contemplation of responsible environmental stewardship in the twenty-first century and beyond. *Ecological Literature and the Critique of Anthropocentrism* is essential reading for ecocritics and ecofeminists. It will also be useful for researchers interested in the relationship between science and literature, environmental philosophy, and literature in general.

"This timely volume engages with one of the most important shifts in recent film studies: the turn away from text-based analysis towards the viewer. Historically, this marks a return to early interest in the effect of film on the audience by psychoanalysts and psychologists, which was overtaken by concern with the 'effects' of film, linked to calls for censorship and moral panics rather than to understanding the mental and behavioral world of the spectator. Early cinema history has revealed the diversity of film-viewing habits, while traditional 'box office' studies, which treated the audience initially as a homogeneous market, have been replaced by the study of individual consumers and their motivations. Latterly, there has been a marked turn towards more sophisticated economic and sociological analysis of attendance data. And as the film experience fragments across multiple formats, the perceptual and cognitive experience of the individual viewer (who is also an auditor) has become increasingly accessible. With contributions from Gregory Waller, John Sedgwick and Martin Barker, this work spans the spectrum of contemporary audience studies, revealing work being done on local, non-theatrical and live digital transmission audiences, and on the relative attraction of large-scale, domestic and mobile platforms."--Publisher's website.
