Finishing Well

Year after year, readers pulled me aside at events and said, "I've never had a

problem starting. I've started a million things, but I never finish them. Why can't I finish? According to studies, 92 percent of New Year's resolutions fail. You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals. For years, I thought my problem was that I didn't try hard enough. So I started getting up earlier. I drank enough energy drinks to kill a horse. I hired a life coach and ate more superfoods. Nothing worked, although I did develop a pretty nice eyelid tremor from all the caffeine. It was like my eye was waving at you, very, very quickly. Then, while leading a thirty-day online course to help people work on their goals, I learned something surprising: The most effective exercises were not those that pushed people to work harder. The ones that got people to the finish line did just the opposite-- they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all. That's why we're most likely to quit on day two, "the day after perfect"--when our results almost always underperform our aspirations. The strategies in this book are counterintuitive and might feel like cheating. But they're based on studies conducted by a university researcher with hundreds of participants. You might not guess that having more fun, eliminating your secret rules, and choosing something to bomb intentionally works. But the data says otherwise. People who have fun are 43 percent more successful! Imagine if your diet, guitar playing, or small business was 43 percent more successful just by following a few simple principles. If you're tired of being a chronic starter and want to become a consistent finisher, you have two options: You can continue to beat yourself up and try harder, since this time that will work. Or you can give yourself the gift of done.

But I do not account my life of any value nor as precious to myself, if only I may finish my course and the ministry that I received from the Lord Jesus, to testify to the gospel of the grace of God. —Acts 20:24 (ESV) Growing old has been the greatest surprise of my life,” says Billy Graham, known by many as God’s Ambassador. “I would have never guessed what God had in store for me, and I know that as I am nearing home, He will not forsake me the last mile of the way.” In *Nearing Home* this man of faith—now in his nineties—explores the challenges of aging while gleaning foundational truths from Scripture. Billy Graham invites us to journey with him as he considers the golden years while anticipating the hope of being reunited with his wife, Ruth, in his heavenly home that eclipses this world. “When granted many years of life, growing old in age is natural, but growing old with grace is a choice,” says the author. “Growing older with grace is possible for all who will set their hearts and minds on the Giver of grace, the Lord Jesus Christ.” Join Billy Graham as he shares the challenges of fading strength but still standing strong in his commitment to finishing life well. “Explore with me not only the realities of life as we grow older but also the hope and fulfillment and even joy that can be ours once we learn to look at these years from God’s point of view and discover His strength to sustain us every day.” —BILLY GRAHAM

Many men struggle with identity issues, mid-life crises, depression, self-esteem, and defining a life mission. Our culture has tried to redefine what Christian manhood means. A growing number of men see their primary identity in what they do rather than who they are. Not enough men value the importance of great character and modeling Christlike attitudes. In *Finishing Well, Finishing Strong*, Jim Grassi explores what spiritual manhood looks like and how men can discover the joy of living an abundant life. Persevering through pressure and stress to find God’s peace allows men not to quit when the going gets tough. Dr. Grassi helps men discover the difference between having worldly success and developing spiritual significance. Men will feel motivated, empowered, and equipped to better cope with the issues in our chaotic culture that impact personal growth. Features include: Practical and relevant ideas and resources to assist those wishing to find more joy in their lives Specific suggestions for lifestyle adjustments to give a better understanding of balance and stress management An exploration of what it means to have a spiritual mentor Powerful Bible studies for applying God’s wisdom to developing short- and long-term goals Encouragement for perseverance and coping with chaotic issues

Finishing Our Course with Joy

Most people want to finish life well, yet so few take the time necessary to carefully think through what that entails. Some say it means contentment, happiness, and freedom from pain. Many desire to simply maintain their dignity and enjoy their family and loved ones. These are reasonable goals; yet, there is a more profound, uniquely Christian approach to the end of life. John Dunlop, a medical doctor who has practiced for over thirty years and specializes in geriatrics, combines his medical expertise, firsthand experience with patients, and firm commitment to Scripture to propose nine strategies for finishing life well. He shows how with proper physical, emotional, and spiritual preparation, aging and death need not be a fight to the finish but a purposeful resting in the arms of the Savior. Theologically robust and practically relevant, this book will prove to be a sensitive and helpful resource for anyone facing end-of-life issues.

Nearing Home

John Piper challenges fellow baby boomers to forego the American dream of retirement and live out their golden years with a far greater purpose in mind. They say it's a person's reward for all those years of labor. "Turn in your time card and trade in your IRAs. Let travel plans and golf-course leisure lead the way." But is retirement really the ideal? Or is it a series of poor options that ignore a greater purpose--and will kill a person more quickly than old age? John Piper responds:

The MANipulator Manual: Keep Your Man Interested and Begging for More Without Playing Games Let me start off by explaining I am in no way talking about the sexual act. F*ck him in this case is not physical, it's mental. So many women get in trouble in their love lives, and 99.9 percent of that trouble could have been avoided if they'd said, "Well, f*ck him!" a bit more often. Too many women are way too nice and compliant to their men, especially when these men don't deserve that kind of treatment. And yet, every woman I've ever met tries to not be needy or wear her heart on her sleeve. She simply wants to protect her feelings. Nevertheless, most women I've coached have had men seem very interested only to disappear suddenly. These women are left standing in the dark. Once the guy vanishes, they often find out it's easier to get the President of the United States on the phone than the man who seemingly really liked them just not enough to stick around. This should stop. I, as a dating coach and author of books for women who want to get men, cannot take it anymore. You deserve better. This is not your fault. It's his! He needs to learn to be much more transparent and upfront. That said, we both know most men won't change. We can lead a horse to water, but we can't make it drink. Or can we? What if there was a way to change a guy's behavior? What if you could get into his head and take over the driver's wheel? What if you could make him do more of the things that you appreciate and need and less of the bad behaviors you dislike? At first, this might seem impossible. Nevertheless, I'm sure you've already met women who are good at manipulating their men. Enter the high-value woman. You know her. You've seen her. She's the woman who always has great men drooling over her. It's the woman you see getting all the attention. You often wonder, "How does she do it? What do they see in her? What does she know that I don't?" You might have even complained to your girlfriends that men just don't seem to notice what a catch you are. Your girlfriends may have

even said, "He doesn't know what he's missing." What if you could make him see it? When you look at these high-value women who get their way with men, it might have surprised you that their looks don't seem to matter. The high-value woman can be great looking, average looking, or even bad looking. It doesn't matter. She knows her way around men. She knows how to mentally f*ck them. Are you ready to implement her strategies? You'll see behavior you've never seen from him. He'll start to put in an effort that makes you feel like you're a queen because to him, you are. At first, it will be strange. If you've never truly been in control of a man, it might feel like riding a horse for the first time. But soon, it will make you feel all tingly inside. I'm not kidding. There's nothing more powerful than being in a relationship with a guy and having him do exactly what you want while he thinks it was his idea. (This is important, as you'll see. He needs to think he is the one in the driver's seat, even though you actually are.) This book is not about becoming someone you're not or turning your boyfriend into a spineless manslave. It's about your empowerment, about taking back what's yours. No man should ever be able to play games with you, to take you for granted, to treat you even a tiny bit less than you deserve. By the time you've finished this book, this will all be part of your past. Are you ready? Then hit the buy button at the top of this page and start your high value woman journey right away!

Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an "average" runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater fulfillment in running for those who consider themselves "middle of the pack runners" -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. Run to the Finish is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as "Favorite hilarious marathon signs" and "Weird Thoughts We all Have at the Start Line," Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.

What separates pastors who finish well from those who don't? When trusted pastors fall into sin and destroy a ministry, the entire body of believers gets hurt. After helping two large churches through the aftermath of such an event, Daniel Henderson discovered that pastoral failings are not primarily rooted in overdeveloped passions for self and sin but rather in underfed visions of eternity and a lack of zeal for God's glory. In *Glorious Finish*, Daniel Henderson teaches you: Why focusing on God's glory is the key to a fruitful ministry How leaders can build habits that keep them captivated by God and His glory How to stay glory-oriented in the grind, challenges, and spiritual attacks of ministry Forget the latest techniques and the strategies—spend some time recentering on what you know is most important—His glory.

'God's purpose for us is to show, as we get older, that he gives us his strength and, through our experiences of him, his wisdom,' says Ian Knox. 'God is not finished with us. In our later years we are not only to be blessed, but to be a blessing and bring a blessing.' As we get older, some of us grow more frenetic in our anxiety to demonstrate that the force is still with us. Others withdraw, often quite abruptly. What is God's view of ageing? The Bible has much to say, and many stories to tell, about those who did great things, those who did ordinary things well, those who prayed, those who used their gifts, those who suffered, those who went right to the end - and those who, in later years, got it absolutely wrong. How are we going to face the prospect of ageing? Will we subside, give up? Or shall we view retirement as a gift from God, an opportunity to reach out to others? Our older years are full of possibilities, not least of which is that of helping others find Christ.
