WALL STREET JOURNAL BESTSELLER “An incredible, compelling read. It covers an astonishing amount of ground with basic simplicity and good humor. A masterful starting point for any investor. Tina Hay is a wizard.”—Ben Stein, economist, author, actor and commentator A handy crash course in personal finance, *Napkin Finance* is the groundbreaking guide everyone needs to help them manage their money and feel more secure. Surveys have found that two thirds of Americans can't pass a basic financial literacy test, and nine in ten believe personal finance should become a required high school course. Tina Hay understands the confusion. While attending Harvard Business School, she struggled to keep up with classmates—many of whom came from the banking world—when it came to understanding jargon and numbers-heavy concepts. Tina developed a visual learning strategy using sketches and infographics that helped her succeed in her studies and master even the most complex financial topics. Since then, Tina founded *Napkin Finance*, a thriving company built on the concept of taking seemingly overwhelming topics—such as budgeting, investments, and retirement accounts—and turning them into simple, skimmable explanations. Now, she's synthesized the most important content into this personal finance handbook. *Napkin Finance* includes dozens of individual learning modules, on topics ranging from credit scores to paying off student loans to economics and blockchain. The first illustrated guide that makes finance fun and accessible, *Napkin Finance* can help even the most numbers-phobic reader learn about complex financial topics without dying of boredom.

Professional responsibilities of a CPA personal financial planner and the requirements of the Statement on Standards in PFP Services. Time value of money concepts. The book then builds on these foundational concepts, showing their interconnectivity and professional opportunities, to provide a deeper understanding of PFP and its application.
