In Arizona, a notary public is a public officer commissioned by the Secretary of State to perform notarial acts, as defined in the Arizona Revised Statutes (see Chapter 5). A notary, in essence, serves as an impartial witness pursuant to A.R.S. ? 41- 328(B). Government offices, businesses and the public rely on the accuracy and integrity of notaries public. This means the notary should take the required steps to authenticate signatures and ensure that all notarizations are properly completed and performed. Many documents require a notarization in an effort to deter fraud, to prove the authenticity of the signature and to ensure that a signature was made willingly and not under duress. Therefore, it's essential that a notary accept a valid form of identification, as defined in statutes, to determine

that a signer is who he or she claims to be. Because the prevention of fraud and deception is central to the notary's role, it is essential that a notary have no conflict of interest when notarizing a document.

The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as

well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

This Act clarifies and reforms some legal uncertainties in law where decisions are made on behalf of others. Adults who lose their mental capacity, through dementia or brain injury, or are born with such a condition, will have new rules of protection for decisions made on their behalf. Part 1 sets out a definition of "persons who lack capacity", along with key principles and a checklist to ascertain what is in that person's best interest. A new statutory scheme for "lasting" powers of attorney will also be established, and provision made for courts to appoint substitute "decision-makers", as well as a system of independent advocates for vulnerable people. Part 2 establishes a new superior court of record called the Court of Protection in place of the office of the Supreme Court, which will have the capacity to deal with both welfare and financial matters. A new public official, the Public Guardian will be appointed, who will keep registers of lasting powers of attorney, and orders appointing deputies. Schedule 3 of this Act gives effect in England and Wales to the Convention on the International Protection of Adults, as signed at the Hague in January 2000.

The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic

documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.
