The New South

Gail Gibbons explores the mysterious world and workings of owls. She depicts numerous species of owls and discusses their biological similarities as well as their differences. She portrays their ideal habitats, life styles, birth and development and

Motivating Reluctant Readers

A comprehensive approach to social science methods, this text presents relevant and engaging material in each discrete method area.

The Curriculum Management Audit

THE NEW COUNTRY INDEX is an essential tool for interpreting the educational backgrounds of people who have studied outside the United States and who need statements of educational equivalencies to enter the U.S. educational environment and workforce. This handy reference provides an outline of world educational systems and is used extensively by a variety of organizations in the assessment of foreign academic credentials. Compiled by current and former staff and board members of the International Education Research Foundation-the oldest and one of the most respected foreign credentials evaluation agencies in the United States-THE NEW COUNTRY INDEX is a uniquely thorough reference for colleges and universities, professional organizations, state licensing boards, U.S. government agencies, foreign ministries, counseling services, recognition agencies, and attorneys and individuals. Easy-to-follow tables clearly map the varied structures of

both the U.S. and foreign educational systems, making it possible for anyone to determine U.S. equivalents of foreign credentials. Includes interpretations of the educational systems of 70 countries from primary education through higher education, including academic secondary patterns and information on secondary level studies, teacher training, commercial education, and technical, vocational, and professional training. The most reliable, convenient, and practical reference of its kind.

Race and the Shaping of Twentieth-Century Atlanta

The Lie: Evolution (25th Anniversary Edition: Revised and Expanded)

This field-tested curriculum, serving learners from kindergarten through age 21, is designed to prepare students with disabilities to thrive in the real world.

Atlanta Magazine

Confronting a reality that many policy makers would prefer to ignore, contributors to this volume offer the latest information on the trend toward the racial and socioeconomic resegregation of southern schools. In the region that has achieved more widespread public school integration than any other since 1970, resegregation, combined with resource inequities and the current "accountability movement," is now bringing public education in the South to a critical crossroads. In thirteen essays, leading thinkers in the field of race and public education present not only the latest data and statistics on the trend toward resegregation but also legal and policy analysis of why these trends are accelerating, how they are harmful, and what can be done to counter them. What's at stake is the quality of education available to both white and nonwhite students, they argue. This volume will help educators, policy makers, and concerned citizens begin a much-needed dialogue about how America can best educate its increasingly multiethnic student population in the twenty-first century. Contributors: Karen E. Banks, Wake County Public School System, Raleigh, N.C. John Charles Boger, University of North Carolina School of Law Erwin Chemerinsky, Duke Law School Charles T. Who's Who in the Midwest 1996-1997

BERLIN, 1942. The Gestapo arrest eighteen-year-old Bert Lewyn and his parents, sending the latter to their deaths and Bert to work in a factory making guns for the Nazi war effort. Miraculously tipped off the morning the Gestapo round up all the Jews who work in the factories, Bert goes underground. He finds shelter sometimes with compassionate civilians, sometimes with people who find his skills useful and sometimes in the cellars of bombed-out buildings. Without proper identity papers, he survives as a hunted Jew in the flames and terror of Nazi Berlin in part by successfully mimicking non-Jews, even masquerading as an SS officer. But the Gestapo are hot on his trail Before World War II, 160,000 Jews lived in Berlin. By 1945, only 3,000 remained alive. Bert was one of the few, and his thrilling memoir—from witnessing the famous 1933 book burning to the aftermath of the war in a displaced persons camp—offers an unparalleled depiction of the life of a runaway Jew caught in the heart of the Nazi empire.

The Encyclopedia of World Religions

The Great Fuzz Frenzy

Acclaimed author Karen Hesse's Newbery Medal-winning novel-in-verse explores the life of fourteen-year-old Billie Jo growing up in the dust bowls of Oklahoma.

Atlanta Magazine

An American midwife travels to Central America to care for the women and children suffering through war.

Hummingbird House

This indispensable volume presents an up-to-date conceptual model and practical tools for meeting the challenges of severe problem behavior in elementary and middle-school settings. The focus is on developing and implementing team-based support plans for the 1-5% of students who require intensive, individualized behavioral assessment and intervention.

Outlined are field-tested procedures that enable the practitioner to evaluate student needs using functional behavioral assessment; transform assessment results into practical, function-based interventions; develop school-wide systems that support the assessment and intervention process; establish clear roles for leaders and members of behavior support teams; and work collaboratively with administrators, teachers, students, and parents. A much-needed resource and text, the book features illustrative case examples, figures, and charts. Also included are reproducible assessment instruments, parent and teacher forms, sample meeting agendas, and other useful materials. Note: A less intensive, prevention-oriented intervention for students with moderate problem behavior is presented in the complementary volume, *Responding to Problem Behavior in Schools*.

Study Skills 2

Owls

Deep, deep down in their underground town, the prairie dogs live in harmony--until a mysterious, fluorescent, very fuzzy thing (otherwise known as a tennis ball) rolls down their hole. When the prairie dogs discover that they can pluck and pull the fuzz into fabulous fashions, their fear quickly turns to curiosity, then delight, then pure greed. The frenzy that erupts threatens to tear apart the prairie-dog town forever. But when mean ol' Big Bark is kidnapped after taking all the fuzz for himself, the prairie dogs come to the rescue and remember the true meaning of community.

The Temperance Movement and Its Workers

The New York Times bestseller *A Long Walk to Water* begins as two stories, told in alternating sections, about two eleven-year-olds in Sudan, a girl in 2008 and a boy in 1985. The girl, Nya, is fetching water from a pond that is two hours' walk from her home: she makes two trips to the pond every day. The boy, Salva, becomes one of the "lost boys" of Sudan, refugees who cover the African continent on foot as they search for their families and for a safe place to stay. Enduring every hardship from loneliness to attack by armed rebels to contact with killer lions and crocodiles, Salva is a survivor, and his story goes on to intersect with Nya's in an astonishing and moving way.

Effective Elementary Social Studies

Atlanta is often cited as a prime example of a progressive New South metropolis in which blacks and whites have forged "a city too busy to hate." But Ronald Bayor argues that the city continues to bear the indelible mark of racial bias. Offering the

first comprehensive history of Atlanta race relations, he discusses the impact of race on the physical and institutional development of the city from the end of the Civil War through the mayorship of Andrew Young in the 1980s. Bayor shows the extent of inequality, investigates the gap between rhetoric and reality, and presents a fresh analysis of the legacy of segregation and race relations for the American urban environment. Bayor explores frequently ignored public policy issues through the lens of race--including hospital care, highway placement and development, police and fire services, schools, and park use, as well as housing patterns and employment. He finds that racial concerns profoundly shaped Atlanta, as they did other American cities. Drawing on oral interviews and written records, Bayor traces how Atlanta's black leaders and their community have responded to the impact of race on local urban development. By bringing long-term urban development into a discussion of race, Bayor provides an element missing in usual analyses of cities and race relations.

The Syracuse Community-referenced Curriculum Guide for Students with Moderate and Severe Disabilities

Hare solves his family's problems by tricking rich and lazy Bear in this funny, energetic version of an old slave story. With roots in American slave tales, *Tops & Bottoms* celebrates the trickster tradition of using one's wits to overcome hardship. "As usual, Stevens' animal characters, bold and colorful, are delightful. . . . It's all wonderful fun, and the book opens, fittingly, from top to bottom instead of from side to side, making it perfect for story-time sharing."--Booklist

Woodcock reading mastery tests

Despite the rapid creation of jobs in the greater Atlanta region, poverty in the city itself remains surprisingly high, and Atlanta's economic boom has yet to play a significant role in narrowing the gap between the suburban rich and the city poor. This book investigates the key factors underlying this paradox. The authors show that the legacy of past residential segregation as well as the more recent phenomenon of urban sprawl both work against inner city blacks. Many remain concentrated near traditional black neighborhoods south of the city center and face prohibitive commuting distances now that jobs have migrated to outlying northern suburbs. The book also presents some promising signs. Few whites still hold overt negative stereotypes of blacks, and both whites and blacks would prefer to live in more integrated neighborhoods. The emergence of a dynamic, black middle class and the success of many black-owned businesses in the area also give the authors reason to hope that racial inequality will not remain entrenched in a city where so much else has changed. A Volume in the Multi-City Study of Urban Inequality

The Holt Reader - 2nd Course

Holt Science and Technology

Representing views on many facets of reluctant readers, the chapters in this book provide suggestions for working with students who function at a frustration level and those who have an aversion to reading. Specific topics discussed in the book's nine chapters are: (1) building language experiences for reluctant readers, (2) home remedies, (3) using popular music as a motivation device, (4) recent adolescent literature as an alternative to serial books, (5) starter shelves in content area classrooms, (6) using student publishers to promote book sharing, (7) motivating children to read through improved self-concept, (8) the camera as a tool for teaching reading, and (9) services that can be provided by the reading laboratory or resource room. (FL)

Whatever It Takes

Lively illustrations on nearly every exercise, easy-reading, student-directed instructions, emphasis on words in context, real life applications. Sample Activities Include: Time Management, Planning and Goal Setting, Developing a Learning Style, Paraphras.

Improving Schools Through Action Research

In 1987 Ken Ham wrote what would become a prophetic warning to the Church about the destructive effects of compromise with evolutionary ideas, and how this compromise undermines Scriptural authority and erodes Christian confidence in the infallibility of God's Word. Today we have Christians not only confused when it comes to Genesis and age of the earth, but even the reality of Hell, Adam as a real person, and Christ's own words about creation, marriage and more are being debated in the pulpits across the world. In this special revised and updated edition, Ken Ham again takes the lead in pointing out the looming precipice the Church is rushing towards, how evolution and/or millions of years, is driving away young people of the faith, and the biblical solution that can change it!

On the Run in Nazi Berlin

Teen Health is the integrated, activities-based health program written especially for middle school students. This sequential, three-course program provides the perfect combination of course material and interactive multimedia resources. Teen Health helps students understand that good health affects their school performance, their friendships, their looks, and their lives. In middle school, life changes quickly. There's more freedom and more peer pressure. Students might be faced with life-changing decisions when they least expect it. That's one reason why mastering good health skills is so essential during the teen years. Teen Health stretches far beyond traditional health topics to cover the subjects your students really want to know about. It explains the importance of avoiding risky behaviors and provides step-by-step guidelines on how to do so. Course 1 Student Modules . Adolescence: Growing and Changing . Building Character . Conflict Resolution

The New Country Index

An insider's account of the infamous Atlanta Public Schools cheating scandal of 2013, which scapegoated black employees for problems caused by an education reform movement that is increasingly a proxy for corporate greed.

Reinventing Public Education

Atlanta Paradox

A heated debate is raging over our nation's public schools and how they should be reformed, with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools. Combining decades of experience in education, the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes. Reinventing Public Education shows how contracting would radically change the way we operate our schools, while keeping them public and accessible to all, and making them better able to meet standards of achievement and equity. Using public funds, local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction. In a hands-on, concrete fashion, the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice. They show how contracting would free local school boards from operating schools so they can focus on improving educational policy; how it would allow parents to choose the best school for their children; and, finally, how it would ensure that schools are held accountable and academic standards are met. While retaining a strong public role in education, contracting enables schools to be more imaginative, adaptable, and suited to the needs of children and families. In presenting an alternative vision for America's schools, Reinventing Public Education is too important to be ignored.

Tops & Bottoms

The greatest trick the videogame industry ever pulled was convincing the world that videogames were games rather than a medium for making metagames. Elegantly defined as "games about games," metagames implicate a diverse range of practices that stray outside the boundaries and bend the rules: from technical glitches and forbidden strategies to Renaissance painting, algorithmic trading, professional sports, and the War on Terror. In *Metagaming*, Stephanie Boluk and Patrick LeMieux demonstrate how games always extend beyond the screen, and how modders, mappers, streamers, spectators, analysts, and artists are changing the way we play. Metagaming uncovers these alternative histories of play by exploring the strange experiences and unexpected effects that emerge in, on, around, and through videogames. Players puzzle through the problems of perspectival rendering in *Portal*, perform clandestine acts of electronic espionage in *EVE Online*, compete and commentate in *Korean StarCraft*, and speedrun *The Legend of Zelda* in record times (with or without the use of vision). Companies like Valve attempt to capture the metagame through international e-sports and online marketplaces while the corporate history of *Super Mario Bros.* is undermined by the endless levels of *Infinite Mario*, the frustrating pranks of *Asshole Mario*, and even *Super Mario Clouds*, a ROM hack exhibited at the Whitney Museum of American Art. One of the only books to include original software alongside each chapter, *Metagaming* transforms videogames from packaged products into instruments, equipment, tools, and toys for intervening in the sensory and political economies of everyday life. And although videogames conflate the creativity, criticality, and craft of play with the

act of consumption, we don't simply play videogames—we make metagames.

School Resegregation

A People and US Weekly Pick “An impressive feat...an immensely entertaining, moving, and believable read” (Atlanta Journal-Constitution), this debut novel in the bestselling tradition of P.S. I Love You revolves around a young woman with breast cancer who undertakes a mission to find a new wife for her husband before she passes away. Twenty-seven-year-old Daisy already beat breast cancer four years ago. How can this be happening to her again? On the eve of what was supposed to be a triumphant “Cancerversary” with her husband Jack to celebrate four years of being cancer-free, Daisy suffers a devastating blow: her doctor tells her that the cancer is back, but this time it's an aggressive stage four diagnosis. She may have as few as four months left to live. Death is a frightening prospect—but not because she's afraid for herself. She's terrified of what will happen to her brilliant but otherwise charmingly helpless husband when she's no longer there to take care of him. It's this fear that keeps her up at night, until she stumbles on the solution: she has to find him another wife. With a singular determination, Daisy scouts local parks and coffee shops and online dating sites looking for Jack's perfect match. But the further she gets on her quest, the more she questions the sanity of her plan. As the thought of her husband with another woman becomes all too real, Daisy's forced to decide what's more important in the short amount of time she has left: her husband's happiness—or her own?
