Beading with Cabochons

Todd Mikkelsen's Paracord! offers a diverse collection of projects that utilize parachute cords—known around the world as paracord. Used by paratroopers and other military personnel during World War II, this lightweight nylon rope is now one of the most sought-after materials by crafters. Its durability and flexibility make it perfect for creating everyday accessories such as belts, bracelets, buckles, necklaces, dog leashes and collars, key chains, and more. As you will see in Mikkelsen's book, this rope comes in various colors, from army green to hot pink, making it easy to personalize every type of project. In Paracord!, you'll find step-by-step instructions that take you through every project. Each step is accompanied by a photo that clearly illustrates the process. In addition to learning how to make these accessories, Mikkelsen also includes introductory chapters preparing your paracord for crafting, tying different types of knots, and caring for and cleaning your completed paracord projects.

hedgehogs have captivated our imaginations throughout history. Yet as pets, hedgehogs have only become popular in the last few decades-which is a shame, considering how playful and affectionate they can be. Hedgehogs are hearty and low-maintenance pets. As their popularity in the pet trade has increased so, too, has the available knowledge about the animal, and today it's easier than ever to keep a pet hedgehog happy and healthy. A hedgehog can fit into almost any lifestyle. Whether you need a furry friend to make your apartment feel less lonely or you're a family with cats and dogs that wants to add something new, the hedgehog will quickly burrow its way into your heart.

Craft in America

Weaving is a highly accessible craft — over, under is the basic technique — but the stumbling block for many would-be weavers has been the high cost of a commercial loom. The Weaving Explorer removes that barrier, inviting crafters and artists to try out an amazing range of techniques and creative projects that are achievable with a simple homemade loom, or no loom at all! Weavers Deborah Jarchow and Gwen W. Steege take inspiration from the world of folk weaving traditions, adding a contemporary spin by introducing an unexpected range of materials and home dec projects. From sturdy rag fabric grocery bags to freeform wire baskets, delicately woven thread bracelets to colorful woven rugs, crafters will delight in exploring the opportunities to make their own personal variations on these beautiful — and functional — creations.

WINNER OF THE PULITZER PRIZE From the highly acclaimed, multiple award-winning Anthony Doerr, the beautiful, stunningly ambitious instant New York Times bestseller about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History, where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great-uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, a National Book Award finalist, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

Designer Josie Fabre has developed a new technique that allows for much quicker creation of the Peyote stitch. This is often the first stitch learned by beginning stitchers and is extremely time-consuming. By using a technique she developed, combined with her own, original, multi-drop, even-count, flat peyote patterns she has simplified the process. Keeping beginners in mind the book has 25+ beautiful projects designed with a minimum of colors in each pattern to making the patterns easier to follow and faster to create. Her inspired bracelet patterns range from the traditional wide to slim width, some include clean edging, some are finished with a stitched toggle clasp, and others use a double clasp. While bracelets are the main jewelry piece created in peyote stitch, Josie has also added necklaces and earrings to her mix in this book.

Friendship Bracelets

With this gloriously photographed and illustrated manual at hand, beaders can create awe-inspiring jewelry. It's the only current, comprehensive guide to working with cabochons--a flat piece of rock or mineral--and it covers all the basics, along with a range of new creative techniques and hot trends. Find out which tools and materials to use, which beads work best, and how to wrap them round the stones. Craft turned, pointed, twisted, brick stitch, ruffled, or scalloped edges, or add decorative fringe. For something dramatic, combine more than one cabochon in a single piece. Or, instead of natural stone, use dichroic glass or other found objects. Make a glittering brooch, funky bracelets, a wearable art necklace, and other showstoppers.
