Mansell's team-mate, Riccardo Patrese, also won a race, and finished second to Mansell on six occasions. To complete the stunning statistics, Mansell either won or finished second in all the races he finished that season, and he took pole position for all but two of the season's 16 races.

Conceived by Colin Chapman, the Lotus 72 is one of the most successful Formula 1 cars ever made. This innovative car – with its wedge-shaped profile, side-mounted radiators and inboard front brakes – was driven during 1970 by Jochen Rindt, Formula 1's posthumous World Champion, and also gave Emerson Fittipaldi the World Champion's crown in 1972. Here, in this new Haynes Manual, is a unique perspective on what it takes to restore, maintain and race a Lotus 72, as well as an insight into the design and engineering of this legendary racing car.

The Lotus 98T was the 1986-season, JPS-liveried F1 car driven by Ayrton Senna and team-mate Johnny Dumfries. Senna took eight podium positions, including two wins in the car, taking the fight to the superior McLarens and Williams. The 98T was one of the ultimate incarnations of an F1 car, powered by a Renault V6 turbo engine, which is conservatively estimated to have produced up to 1,300bhp at full boost. Senna was mighty to behold at the wheel of the 98T - he took pole position at eight of the season's 16 races, with victories in Spain and Detroit, famously crossing the line alongside Nigel Mansell in Spain, to win by 0.014s. This Manual, extensively illustrated with both period photographs and technical illustrations and photographs of a recently restored car, provides a fascinating insight into the design, evolution, operation, maintenance and restoration of the Lotus 98T.
