After conquest of the Philippine archipelago in the late sixteenth century, Spanish colonizers launched a sweeping social program designed to bring about dramatic religious, political, and economic changes. But the limitations of Spanish colonial resources, together with the reactions of Filipinos themselves, combined to shape the outcome of that effort in unique and unexpected ways, argues John Leddy Phelan. With no wealth in the islands to attract conquistadores, conquest was accomplished largely by missionaries scattered among isolated native villages. Native chieftains served as intermediaries, thus enabling the Filipinos to react selectively to Spanish innovations. The result was a form of hispanization in which the resilient and adaptable Filipinos played a creative part.

## **A History of the Philippines**

On the eve of a new century, an up-and-coming Theodore Roosevelt set out to transform the U.S. into a major world power. The Spanish-American War would forever change America's standing in global affairs, and drive the young nation into its own imperial showdown in the Philippines. From Admiral George Dewey's legendary naval victory in Manila Bay to the Rough Riders' heroic charge up San Juan Hill, from Roosevelt's rise to the presidency to charges of U.S. military misconduct in the Philippines, Honor in the Dust brilliantly captures an era brimming with American optimism and confidence as the nation expanded its influence abroad.

the Bureau of Public Works' Division of Architecture as part of Philippine national development and decolonisation. Morley provides new archival materials which deliver significant insight into the dynamics associated with both governance and city planning during the American colonial era in the Philippines, with links between prominent American university educators and Filipino architecture students. The book discusses the two cities of Tayabas and Iloilo which highlight the significant role in the urban design of places beyond the typical historiographical focus of Manila and Baguio. These examples will aid in further understanding the appearance and meaning of Philippine cities during an important era in the nation's history. Including numerous black and white images, this book is essential for academics, researchers and students of city and urban planning, the history and development of Southeast Asia and those interested in colonial relations.

### **An Introduction to Philippine History**

“This will be a fight against overwhelming odds from which survival cannot be expected. We will do what damage we can.” With these words, Lieutenant Commander Robert W. Copeland addressed the crew of the destroyer escort USS Samuel B. Roberts on the morning of October 25, 1944, off the Philippine Island of Samar. On the horizon loomed the mightiest ships of the Japanese navy, a massive fleet that represented the last hope of a staggering empire. All that stood between it and Douglas MacArthur's

vulnerable invasion force were the Roberts and the other small ships of a tiny American flotilla poised to charge into history. In the tradition of the #1 New York Times bestseller *Flags of Our Fathers*, James D. Hornfischer paints an unprecedented portrait of the Battle of Samar, a naval engagement unlike any other in U.S. history—and captures with unforgettable intensity the men, the strategies, and the sacrifices that turned certain defeat into a legendary victory. **BONUS:** This edition includes an excerpt from James D. Hornfischer's *Neptune's Inferno. Praise for The Last Stand of the Tin Can Sailors* “One of the finest WWII naval action narratives in recent years, this book follows in the footsteps of *Flags of Our Fathers*. . . . Exalting American sailors and pilots as they richly deserve. . . . Reads like a very good action novel.”—*Publishers Weekly* “Reads as fresh as tomorrow's headlines. . . . Hornfischer's captivating narrative uses previously classified documents to reconstruct the epic battle and eyewitness accounts to bring the officers and sailors to life.”—*Texas Monthly* “Hornfischer is a powerful stylist whose explanations are clear as well as memorable. . . . A dire survival-at-sea saga.”—*Denver Post* “In *The Last Stand of the Tin Can Sailors*, James Hornfischer drops you right into the middle of this raging battle, with 5-inch guns blazing, torpedoes detonating and Navy fliers dive-bombing. . . . The overall story of the battle is one of American guts, glory and heroic sacrifice.”—*Omaha World Herald*

## **Footnotes to Philippine History**

The Philippines, reported home of several terrorist groups and the site of innumerable bombings in recent years, presents a rather bright contrast to other countries in Asia. The Philippines includes over 7,100 islands, but most of the land area is shared among the 11 largest islands. The majority of Philippine people are of Malay stock, descendants of Indonesians and Malays who migrated to the islands long before the Christian era. The most significant ethnic minority group is the Chinese, who have played an important role in commerce since the ninth

century, when they first came to the islands to trade. As a result of intermarriage, many Filipinos have some Chinese and Spanish ancestry. Americans and Spaniards constitute the next largest alien minorities in the country. About 90% of the people are Christian; most were converted and westernised to varying degrees during nearly 400 years of Spanish and American rule. The major non-Hispanicised groups are the Muslim population, concentrated in the Sulu Archipelago and in central and western Mindanao, and the mountain groups of northern Luzon. Small forest tribes live in the more remote areas of Mindanao. About 87 native languages and dialects are spoken, all belonging to the Malay-Polynesian linguistic family. About 40 percent of the population lives in poverty while a wealthy minority holds most political power.

### **The Revolution**

The Philippine Revolution of 1896–1905, which began against Spain and continued against the United States, took place in the context of imperial subjugation and local resistance across Southeast Asia. Yet scholarship on the revolution and the turn of the twentieth century in Asia more broadly has largely approached this pivotal moment in terms of relations with the West, at the expense of understanding the East-East and Global South connections that knit together the region's experience. *Asian Place, Filipino Nation* reconnects the Philippine Revolution to the histories of Southeast and East Asia through an innovative consideration of its transnational political setting and regional intellectual foundations. Nicole CuUnjieng Aboitiz charts turn-of-the-twentieth-century Filipino thinkers' and revolutionaries' Asianist political organizing and proto-national thought, scrutinizing how their constructions of the place of Asia connected them to their regional neighbors. She details their material and affective engagement with Pan-Asianism, tracing how colonized peoples in the "periphery" of this imagined Asia—focusing on Filipinos, but with comparison to the Vietnamese—reformulated a political and intellectual project that envisioned anticolonial Asian solidarity with the Asian "center" of Japan. CuUnjieng Aboitiz

argues that the revolutionary First Philippine Republic's harnessing of transnational networks of support, activism, and association represents the crucial first instance of Pan-Asianists lending material aid toward anticolonial revolution against a Western power. Uncovering the Pan-Asianism of the periphery and its critical role in shaping modern Asia, *Asian Place, Filipino Nation* offers a vital new perspective on the Philippine Revolution's global context and content.

### **Honor in the Dust**

While public administration practice and education in general has become considerably professionalized in the last decade, existing knowledge on public administration in Southeast Asia is fragmented at best, and often devoid of a useful reference. While journal articles and government reports provide decentralized information, *Public Administration in Southeast Asia: Thailand, Philippines, Malaysia, Hong Kong and Macao* takes a comprehensive and comparative look at the major components of administration systems. The selection of countries and regions included reflects the diversity of Southeast Asia. Organized by Country The handbook fills a critical need by bringing together leading scholars who provide an insider perspective and viewpoint on essential and advanced issues. Divided into five sections, each dedicated to a particular country, the text outlines topics relevant to modern public administration, including: History and Political Context of Public Administration Decentralization and

Local Governance Public Ethics and Corruption Performance Management Reforms Civil Service System Focusing on recent developments in public administration in these countries which are among the fastest growing economies in the world, the book explores their practices and innovative approaches in public administration. past by the PEN Open Book Award-winning author of *Gun Dealers' Daughter*. Two women, a Filipino translator and an American filmmaker, go on a road trip in Duterte's Philippines, collaborating and clashing in the writing of a film script about a massacre during the Philippine-American War. Chiara is working on a film about an incident in Balangiga, Samar, in 1901, when Filipino revolutionaries attacked an American garrison, and in retaliation American soldiers created "a howling wilderness" of the surrounding countryside. Magsalin reads Chiara's film script and writes her own version. *Insurrecto* contains within its dramatic action two rival scripts from the filmmaker and the translator--one about a white photographer, the other about a Filipino schoolteacher. Within the spiraling voices and narrative layers of *Insurrecto* are stories of women--artists, lovers, revolutionaries, daughters--finding their way to their own truths and histories. Using interlocking voices and a kaleidoscopic structure, the novel is startlingly innovative, meditative, and playful. *Insurrecto* masterfully questions and twists narrative in the manner of Italo Calvino's *If on a Winter's Night a Traveler*, Julio Cortázar's *Hopscotch*, and Nabokov's *Pale Fire*. *Apostol* pushes up against the limits of fiction in order to recover the atrocity in Balangiga, and in so doing, she shows us the dark heart of an untold and forgotten war that would shape the next century of Philippine and American history.

From ancient Malay settlements to Spanish colonization, the American occupation and beyond, *A History of the Philippines* recasts various Philippine narratives with an eye for the layers of colonial and post-colonial history that have created this diverse and fascinating population. *A History of the Philippines* begins with the pre-Westernized Philippines in the 16th century and continues through the 1899 Philippine-American War, the nation's relationship with the United States' controlling presence, culminating with its independence in 1946 and two ongoing insurgencies, one Islamic and one Communist. Luis H. Francia creates an illuminating portrait that offers the reader valuable insights into the heart and soul of the modern Filipino, laying bare the multicultural, multiracial society of contemporary times.

This volume, a compilation of selected historical essays, is envisioned to capture the kind of information that global Filipinos need and to serve as a quick reference for them during their interactions with other people in foreign lands - whether they are in Australia, Europe, the United States, the Middle East or Asia and the Pacific. There are now an estimated 7.9 million Filipino expatriates living and working in 193 countries throughout the world. The essays have been grouped into three parts. The first provides answers to the question of Filipino identity, and how that identity formed. What are the symbols of Filipino identity, national and political? The second part discusses why Filipinos became known as 'brown Americans of Asia,' explains how the Americans changed the lives of Filipinos with their Pacific adventure, and how the Americanization of the Filipinos was realized easily. The final part talks about global Filipinos, how they survive outside the Philippines, and the problems they encounter. How does Filipino migration help the Philippines survive? The book also presents a discussion of two issues needing clarification - the Philippines' territorial claims on Sabah and the Spratlys, and the life of Imelda Marcos, the most maligned woman in Philippine history, who is compared to another controversial figure in another country's history - Evita Peron, the former First Lady of Argentina. **REVIEWS** The author accomplished what he ought to do, that is, provide a ready, easy background historical resource for our overseas Filipino workers about Filipinoness; a good historical narrative and at times quite satisfying since he injects nationalistic commentary and understanding of the events in our history and not

falling into the usual self-censorship brought about by a mis-educated Filipino mind. I find the book a good one to taste for a start to learn about our history, to share, keep and give to friends and relatives; a truly handy primer, firstly for our own selves as Filipinos and our descendants, and for informing our foreign hosts and friends in foreign lands. . . . We Filipinos need this kind of handbook in helping discover, know and understand ourselves from our past and in the struggle to revive our nationalism and thus regain our homeland from our traitorous fellowmen and their foreign partners/sponsors. from the The Philippine Star by Domini M. In 1899 the United States, having announced its arrival as a world power during the Spanish-Cuban-American War, inaugurated a brutal war of imperial conquest against the Philippine Republic. Over the next five decades, U.S. imperialists justified their colonial empire by crafting novel racial ideologies adapted to new realities of collaboration and anticolonial resistance. In this path breaking, transnational study, Paul A. Kramer reveals how racial politics served U.S. empire, and how empire-building

in turn transformed ideas of race and nation in both the United States and the Philippines. Kramer argues that Philippine-American colonial history was characterized by struggles over sovereignty and recognition. In the wake of a racial-extremist war, U.S. colonialists, in dialogue with Filipino elites, divided the Philippine population into "civilized" Christians and "savage" animists and Muslims. The former were subjected to a calibrated colonialism that gradually extended them self-government as they demonstrated their "capacities." The latter were governed first by Americans, then by Christian Filipinos who had proven themselves worthy of shouldering the "white man's burden." Ultimately, however, this racial vision of imperial nation-building collided with U.S. nativist efforts to insulate the United States from its colonies, even at the cost of Philippine independence. Kramer provides an innovative account of the global transformations of race and the centrality of empire to twentieth-century U.S. and Philippine histories.
