### **Drum Set Reading**

James Hitchcock gives an extraordinarily incisive analysis of the liturgical abuse and destructive liturgical reforms brought about by professional liturgists and other "experts" over the last thirty years. Hitchcock chronicles the havoc wreaked by modern liturgists who abandoned the noble purposes of the classical (pre-1965) Liturgical Movement whose aim was to deepen people's appreciation of the inexhaustible mystery of the liturgy by elevating the practice of the liturgy to incorporate neglected riches of earlier centuries, especially the Patristic Age. Instead of seeking a deeper understanding of the great traditions of the Church through the ages, liturgists have sought "relevance" by means of continued adaptation to contemporary culture. Hitchcock reveals how the tendency toward a desacralized liturgy has had the most profound effects on the whole life of the Church, as well as society. One's basic approach to liturgy is likely to be both a reflection and a catalyst to a whole range of values and beliefs. As Hitchcock states, "It is impossible to change basic symbols and rituals without also changing the life of the society whose symbols and rituals they are."

### **Zulu Wedding**

This was my first book and a true labor of love. I spent decades studying steam and the work of Dead Men, in

both old buildings and on library shelves. I traveled the country, haunting used-book stores, looking for engineering books that held the answers to questions that nagged at me. I was obsessed with this topic, and when I finally sat to write, I poured all that I had learned into this book, and as I wrote, I tried my best to make the words sound good to you - like we were together and having a conversation. I wanted you to know what I know and I wanted you to be able to do what I can do when it comes to old steam systems. This book arrived in 1992 and has since gone through dozens of printings. We've sold it in every state as well as in foreign countries. Steam heat is everywhere there are old buildings, so why shouldn't you be the one with the answers? Dan Holohan
