always hated Max, Viscount Camden, her brother's best friend. In fact, as a besotted girl, she thrived under his kind attention— sure that he was the most noble and handsome man in the land. Until her young heart discovered what manner of rogue he really was. Now, though she enjoys nothing more than getting on his last nerve, she can't deny Max drives her to distraction— even if she tries to pretend otherwise. Now something more . . . Max cannot recall a time when Aurelia did not vex him. If she was not his friend's sister, he would stay far away from the infuriating vixen. Unfortunately, they are always thrown together. At parties and family gatherings . . . she is always there. Mocking him, tossing punch in his face, driving him mad . . . until one night, she goes too far and he retaliates in the only way he can: with a kiss that changes everything.

GENERAL JOHN B. GORDON'S last work was the publishing of his "Reminiscences of the Civil War." This volume, written in his vigorous style and broad, patriotic spirit, has been most favorably received and read all over the country. Since his death this memorial edition is brought out; and it is appropriate that an additional introduction should accompany it, somewhat in the shape of a biographical sketch. General John Brown Gordon was an all-round great man--a valiant and distinguished soldier, an eminent

statesman, a great orator, an author of merit, and a public-spirited and useful citizen. He was born in Upson County, Georgia, February 6, 1832. His father was the Rev. Zachary Herndon Gordon. The family was of Scotch extraction, and its members fought in the Revolutionary War. He received his education at the university of his native State, and by profession was a lawyer. At the breaking out of the war, in 1861, he enlisted as a private soldier, and was elected captain of his company. His career was perhaps as brilliant as that of any officer in the Confederate army. In rapid succession he filled every grade--that of Major, Lieutenant-Colonel, Colonel, Brigadier-General, Major-General, and, near the end, was assigned to duty as Lieutenant-General (by authority of the Secretary of War), and while he never received the commission in regular form, he commanded, at the surrender at Appomattox, one half of the Army of Northern Virginia, under Robert E. Lee. At the close of the war he had earned the reputation of being perhaps the most conspicuous and personally valiant officer surviving, and the one generally regarded as most promising and competent for increased rank and larger command. His imposing and magnificent soldierly bearing, coupled with his splendid ringing voice and far-reaching oratory, made him the "White-plumed Knight of our Southland" and the "Chevalier Bayard of the Confederate Army." He had the God-given talent of getting in front of his troops and, in a few magnetic appeals, inspiring them almost to madness, and being able to lead them into the jaws of death. This was notably done at Fredericksburg, and again on the 12th of May, at the battle of Spottsylvania Court House. He greatly distinguished

himself on many bloody fields. I mention now, as most prominent, the battles of Seven Pines, Sharpsburg or Antietam, the Wilderness, Spottsylvania Court House, Cedar Creek, Petersburg, and Appomattox. At Sharpsburg he was wounded five times, but would not leave his troops till the last shot laid him helpless and insensible on the field. A scholarly professor of history in one of our Southern universities recently stated that in his study of the great war on both sides he had found but one prominent general who, when he was in command, or when he led a charge, had never been defeated or repulsed, and that general was John B. Gordon.

THE WAR is just beginning. Although Madison successfully saved Mathias and her father, Silas escaped. Overcome with conflict between reuniting with Mathias and the relationship she inadvertently built with Alan, Madison retreats into her own thoughts. Should she make a life with the white-haired boy she worked so hard to save? Or with the one who's been capturing her heart? If that isn't bad enough, she also feels lost on how to connect with a father she's never known. Madison's relationship struggles are cut short when she and her allies receive a phone call. Just hours after Silas stole Mathias's gift and shimmered away, Haven has been attacked. There are casualties. But could he have gotten all the way to America so quickly? As tensions rise on all fronts, one thing is clear - they may have won a battle, but the War has just begun. Eventide is the fourth novel in K.A. Poe's Forevermore series. Miles Franklin wrote *My Brilliant Career* as a romance to entertain her friends. It depicts the poor, intelligent Sybylla who cannot accustom herself to her family's reduced circumstances. She is given a reprieve and sent to her Grandmother's grand house, where she mingles with the best rural society, including the handsome Harry Beecham. She is faced with the choice of material improvement through marriage, or personal improvement through working for her dreams.

In this heavily illustrated book, Mike Milligan has captured the still developing story of one of those remote, but no longer secluded, corners of the Colorado Plateau. Upstream from Moab on the Colorado River, near the Colorado state line, there is a relatively short, deep canyon that has become one of the most popular river-running destinations in America. The canyon is known as Westwater. Its popularity is largely due to the thrill provided by one of the most dangerous and challenging stretches of white water on the Colorado---Skull Rapid. Near the head of the canyon are the remnants of the tiny town of Westwater, which has had an interesting and eventful history of its own, partly because of the river and canyon, partly because of the railroad that passes through it, and partly because of its remoteness. It has attracted over the years more than its fair share of colorful characters---government explorers and agents, boosters and get-rich-quick dreamers, cattle and sheep men, outlaws and bootleggers, and, of

course, river runners. Mike Milligan, who came to know the area as a river guide, has written a thorough history of this out-of-the-way place. While it has a colorful history that makes its story interesting in and of itself, Westwater's significance derives more from a phenomenon of the modern West—thousands of recreational river runners. They have pushed a backwater place into the foreground of modern popular culture in the West. Westwater seems to represent one common sequence in western history: the late opening of unexplored territories; sporadic, often unsuccessful attempts to develop them; renewed obscurity when development doesn't succeed; their attraction of a marginal society of misfits or loners; and modern rediscovery due to new cultural motives, especially outdoors recreation, which has brought a great number of people into thousands of remote corners of the West.

This comprehensive book provides guidelines for maximizing plastics processing efficiency in the manufacture of all types of products, using all types of plastics. A practical approach is employed to present fundamental, yet comprehensive, coverage of processing concepts. The information and data presented by the many tables and figures interrelate the different variables that affect injection molding, extrusion, blow molding, thermoforming, compression molding, reinforced plastics molding, rotational molding, reaction injection molding, coining, casting, and other processes. The text presents a great number of problems pertaining to different phases of processing. Solutions are provided that will meet product performance requirements at the lowest cost. Many of the processing variables and their behaviors in the different processes are the same, as they all involve basic conditions of temperature, time, and pressure. The book begins with information applicable to all processes, on topics such as melt softening flow and controls; all processes fit into an overall scheme that requires the interaction and proper control of systems. Individual processes are

The Bakers started Adullam Rescue Mission for street children in Yunnan Province, China. The children in the home, mostly boys aged from six to eighteen, had a revival during which they had visions of heaven, Paradise, angels, and even hell. The children also had visions of the Antichrist, the Rapture, Resurrection, and Day of Judgment. Baker worked for years with little fruit and he almost gave up, until the Holy Spirit came with power, but he never put the spiritual above the Word and searched the Scriptures to make sure what was happening agreed with the Bible. This is reflected in his books as he includes Scripture references in most chapters.

When Edgar's father dies suddenly, Claude insinuates himself into the life of the farm – and into Edgar's mother's affections. Grief-stricken and bewildered, Edgar tries to prove Claude played a role in his father's death, but his plan backfires, spectacularly. Edgar flees into the vast wilderness lying beyond the farm.
