Critical Reading provides a systematic introduction to the process of analyzing and evaluating a written text. Students develop critical reading skills through analysis of texts from authentic sources (journals, newspapers, magazines, and websites) and a variety of academic disciplines. They are encouraged to develop their comprehension and vocabulary skills, while forming a reasoned assessment of the effectiveness and validity of a text. Highlights The text goes beyond the standard "reading comprehension plus vocabulary" approach. Includes opportunities for further research, as well as writing tasks designed to allow students to synthesize the materials they have read and reach an individual conclusion. Each chapter introduces a fundamental skill for developing critical awareness, including: considering place and date of publication; identifying author bias and purpose; distinguishing between fact and opinion; gauging scope of research; evaluating evidence; comparing the author's argument to other points of view; and ultimately, evaluating the strength and validity of an argument with the goal of writing a critical review of the article. Teachers can access My eLab documents for support materials including answer keys and tests.

A gorgeous professional-level guide to the most challenging form of the confectioner's art A showpiece created entirely from sugar is truly a work of art, and it takes an eye for design and strong pastry skills to work with this delicate medium. The Art of the Confectioner is the ultimate guide to working with sugar to create beautiful sugar and pastillage shapes, flowers, figurines, and breathtaking full-scale showpieces. Author and award-winning pastry chef Ewald Notter shares wisdom gained from more than 35 years in the pastry kitchen, and combines straightforward advice and step-by-step instructions with lessons on developing artistry and design skills. The book begins with a basic overview of sugar, including information on the equipment and ingredients needed to work with sugar and Isomalt. Subsequent chapters cover Pastillage, Sugar Casting, Sugar Pulling, Sugar Blowing, and New Trends in Sugarwork, and include detailed instructions on how to make everything from delicate flowers to whimsical blown sugar figurines. And the final chapter shows how readers can bring together all the skills learned throughout the book to create award-winning sugar and pastillage showpieces. From working with shapes and color and choosing a focus point to developing a sculpture based on a particular theme, Notter provides insights into all the tricks of the trade and expert advice on preparing for competitions. Throughout the book, techniques are explained with simple, step-by-step instructions and illustrated with clear how-to photos, while stunning showpiece beauty shots provide inspiration. The book includes hundreds of color photos as well as beautiful hand-painted watercolor illustrations by the author, and an Appendix of templates is provided to help readers replicate the

showpieces shown throughout the book. For pastry students, aspiring confectioners, and professional pastry chefs looking to improve their skills for restaurant work or competition, The Art of the Confectioner is a must-have guide from one of the field's most well-known experts.

8 1/2 x 10 Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

Beyond Buds is a handbook to the future of marijuana. Prohibition's end has led to a technological revolution that's generated powerful medicines and products containing almost zero carcinogens and little smoke. Marijuana icon Ed Rosenthal and leading cannabis reporter David Downs guide readers through the best new consumer products, and demonstrate how to make and use the safest, cleanest extracts. Beyond Buds details how award-winning artisans make hash and concentrates, and includes modern techniques utilizing dry ice and CO2. The book is a primer on making kief, water hash, tinctures, topicals, edibles, and other extracts from cannabis leaves, trim, and bud bits, and it goes on to explore and simplify the more exotic and trendy marijuana-infused products, such as butane hash oil (BHO), shatter, wax,

and budder. More complex than lighting a joint, these innovative products call for new accessories — special pipes, dabbing tools, and vaporizers — all of which are reviewed and pictured in the book. Beyond Buds expands on Rosenthal's previous book Ask Ed: Marijuana Gold — Trash to Stash. Completely updated with full-color photographs that are both "how-to" guides and eye candy, this book enables not only the health-conscious toker but also the bottom line-driven cultivator.

## **The Art of the Confectioner**

Much like Greek and Roman mythology, Norse myths are still with us. Famous storytellers from JRR Tolkien to Neil Gaiman have drawn their inspiration from the long-haired, mead-drinking, marauding and pillaging Vikings. Their creator is a thirteenth-century Icelandic chieftain by the name of Snorri Sturluson. Like Homer, Snorri was a bard, writing down and embellishing the folklore and pagan legends of medieval Scandinavia. Unlike Homer, Snorri was a man of the world—a wily political power player, one of the richest men in Iceland who came close to ruling it, and even closer to betraying it In Song of the Vikings, award-winning author Nancy Marie Brown brings Snorri Sturluson's story to life in a richly textured narrative that draws on newly available sources.

This volume is at once an all-inclusive guide to the meaning of hundreds of technical terms and ideas needed for ice cream manufacturing, as well as a practical introduction to the ingredients, freezing methods, flavoring, and packaging of ice cream, sherbet, sorbet, gelato, frozen yogurts, novelties and many other kinds of frozen desserts. In dozens of longer entries and short essays, as well as with original quantitative tables and graphs, the authors explain the chemistry and controllable variables of all phases of ice cream production, e.g., dairy and non-dairy ingredients, crystallization, overrun, equipment, coloring, test and tasting protocols and much more. With its helpful system of cross-referencing, the book offers essential details on what must be done to create high-quality, successful products—with pointers on how to avoid dozens of specific defects that can occur during manufacturing, such as icy texture and sandiness. The authors also offer original information for extending product lines and creating new, e.g., health-oriented and hybrid products. Besides providing a definitive introduction to the applied science of frozen desserts, the book explains key management concepts from cost-reduction strategies to yield improvement, marketing, and regulatory compliance in formulation and labeling.

North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing, as the country's leader, Kim Jong-Il, is rumored to be terminally ill with pancreatic cancer. North Korea appears to be in a state of serious internal crisis not only because its dictatorial system, albeit skillful and ruthless leadership, is inherently unstable, if not skillful and ruthless leadership, but also because the main pillar of Kim Jong-Il's legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions. The main objective of this book is to explore the probability of North Korea's implosion, and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula. The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and surrounded by four big powers; namely, China, Russia, Japan, and the United States. Each country has its own varying degrees of political, economic, and military stakes with respect to the Korean Peninsula. Thus, the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers. As the North nears a turning point, however, there is a new possibility for the two Koreas to reunite if the international environments work in their favor, and if both countries are well prepared to assume reunification.

London is a historical city full of mysteries and curiosities, and is home to many of England's oldest and quirky pubs. It comes as no surprise that these pubs have a great deal more than their fair share of ghosts, phantoms, and ghouls! A menacing ghostly soldier lurks in Mayfair's Grenadier pub; the hooves of Dick Turpin's Black Bess can be heard galloping up to the Spaniard's Inn at Hampstead; a scary nun does the rounds at the Horns in Bermondsey; and many people have heard the voices of long-dead drinkers killed when the King's Arms in Peckham Rye was blitzed. Combining some well-known stories with others that are long-forgotten, this fascinating book delves into the rich tapestry of London's pub history, with a perfect mix of the past, folklore, popular culture, and the supernatural.
