YMCA Year Book and Official Rosters

The 40th anniversary edition of the classic Newbery Medal-winning title by beloved author Katherine Paterson, with brand-new bonus materials including an author's note by Katherine herself and a foreword by New York Times bestselling author Kate DiCamillo. Jess Aarons has been practicing all summer so he can be the fastest runner in the fifth grade. And he almost is, until the new girl in school, Leslie Burke, outpaces him. The two become fast friends and spend most days in the woods behind Leslie's house, where they invent an enchanted land called Terabithia. One morning, Leslie goes to Terabithia without Jess and a tragedy occurs. It will take the love of his family and the strength that Leslie has given him for Jess to be able to deal with his grief. *Bridge to Terabithia* was also named an ALA Notable Children's Book and has become a touchstone of children's literature, as have many of Katherine Paterson's other novels, including *The Great Gilly Hopkins* and *Jacob Have I Loved*.

Babyhood; the Mother's Nursery Guide

A Collection of Dictionaries for Classical Studies

Barron's SSAT/ISEE, 3rd Edition

"Consolidating the results of a study conducted in four developing member countries—the Republic of Azerbaijan, the Republic of Fiji Islands, the Republic of the Marshall Islands, and Sri Lanka—this book summarizes the major findings of the diagnostic study on available accounting and auditing support contained in the four country reports and provides recommendations and action plans to address identified weaknesses. These reports offer reference materials on accounting and auditing, identify potential actions that the participating governments or the accounting profession can take to rectify weaknesses, and provide the participating countries with a benchmark against which to measure their progress in improving financial management and governance arrangements."

The Church Member's Manuel of Ecclesiastical Principles, Doctrine, and Discipline

Compiles over 13,000 scholarships and college funding programs that are based on merit rather than financial need.

Radiation Oncology Study Guide is a comprehensive study aid for radiation oncology residents preparing for the American Board of Radiology Radiation Oncology Initial Certification board exam. Presenting the fundamental principles of radiation oncology, the book covers the most salient and commonly tested facts on the exam. Organized by specific disease sites, each chapter presents a series of questions and answers that present clinical features, staging, principles of treatment, and evidence-based studies that guide treatment recommendations, with an emphasis on radiotherapy studies. The book offers over 1,000 multiple-choice questions with detailed answers and rationales.
