The Erotic Motive in Literature

Jack London was an American novelist, journalist,

social-activist and short-story writer whose works deal romantically with elemental struggles for survival. At his peak, he was the highest paid and the most popular of all living writers. Because of early financial difficulties, he was largely self educated past grammar school.

Pearl buyer Charley has just boarded Petite Jeanne, a ship that is supposed to sail from Rangiroa to Tahiti. Charley starts to worry when some of the passengers get a smallpox – and die because of it. Soon, however, smallpox doesn't seem like such a big problem as there is a hurricane ahead. Charley ends up in the sea with a Kanaka called Otoo – and their survival is a start of a beautiful friendship. 'The Heathen' is a short story by Jack London. Jack London (1876–1916) was an American writer and social activist. He grew up in the working class, but became a worldwide celebrity and one of the highest paid authors of his time. He wrote several novels, which are considered classics today, among these 'Call of the Wild', 'Sea Wolf' and 'White Fang'.

A rare pearl is fought over during a hurricane on a South Sea island. A zealous missionary sets out to spread the gospel in a land of cannibals. The son of a Polynesian chief becomes the slave of a white man. These stories and others portray life in the South Seas in the days of tall ships over a century ago. In powerful and compelling language that seems not the least bit dated, Jack London tells eight tales of high daring and great savagery, of bravery and death, even of occasional humor, that could only take place in the exotic South Sea islands. Based around themes London considered important--race, culture, justice, and heroism--the stories derive their intensity from the author's own far-flung adventures, conveying an impassioned, unsparing vision borne only of experience. Included here are the following stories: "The House of Mapuhi," "The Whale Tooth," "Mauki," "Yah! Yah! Yah!" "The Heathen," "The Terrible Solomons," "The Inevitable White Man," and "The Seed of McCoy."

Jack London: An American Life

Mother Earth, a Monthly Magazine Devoted to the Social Science and Literature

A prolific and enduringly popular author--and an icon of American fiction--Jack London is a rewarding choice for inclusion in classrooms from middle school to graduate programs. London's biography and the role played by celebrity have garnered considerable attention, but the breadth of his personal experiences and political views and the many historical and cultural contexts that shaped his work are key to gaining a nuanced view of London's corpus of works, as this volume's wide-ranging perspectives and examples attest. The first section of this volume, "Materials," surveys the many resources available for teaching London, including editions of his works, sources for his photography, and audiovisual aids. In part 2, "Approaches," contributors recommend practices for teaching London's works through the lenses of socialism and class, race, gender, ecocriticism and animal studies, theories of evolution, legal theory, and regional history, both in frequently taught texts such as *The Call of the Wild*, "To Build a Fire," and *Martin Eden* and in his lesser-known works.

“Surprising. Impressive. Cannibalism restores my faith in humanity.” —Sy Montgomery, *The New York Times* Book Review

For centuries scientists have written off cannibalism as a bizarre phenomenon with little biological significance. Its presence in nature was dismissed as a desperate response to starvation or other life-threatening circumstances, and few spent time studying it. A taboo subject in our culture, the behavior was portrayed mostly through horror movies or tabloids sensationalizing the crimes of real-life flesh-eaters. But the true nature of cannibalism--the role it plays in evolution as well as human history--is even more intriguing (and more normal) than the misconceptions we've come to accept as fact. In *Cannibalism: A Perfectly Natural History*, zoologist Bill Schutt sets the record straight, debunking common myths and investigating our new understanding of cannibalism's role in biology, anthropology, and history in the most fascinating account yet written on this complex topic. Schutt takes readers from Arizona's Chiricahua Mountains, where he wades through ponds full of tadpoles devouring their siblings, to the Sierra Nevadas, where he joins researchers who are shedding new light on what happened to the Donner Party--the most infamous episode of cannibalism in American history. He even meets with an expert on the preparation and consumption of human placenta (and, yes, it goes well with Chianti). Bringing together the latest cutting-edge science, Schutt answers questions such as why some amphibians consume their mother's skin; why certain insects bite the heads off their partners after sex; why, up until the end of the twentieth century, Europeans regularly ate human body parts as medical

curatives; and how cannibalism might be linked to the extinction of the Neanderthals. He takes us into the future as well, investigating whether, as climate change causes famine, disease, and overcrowding, we may see more outbreaks of cannibalism in many more species—including our own. Cannibalism places a perfectly natural occurrence into a vital new context and invites us to explore why it both enthralls and repels us.

The Assassination Bureau, Ltd

A revelatory look at the life of the great American author—and how it shaped his most beloved works Jack London was born a working class, fatherless Californian in 1876. In his youth, he was a boundlessly energetic adventurer on the bustling West Coast—an

oyster pirate, a hobo, a sailor, and a prospector by turns. He spent his brief life rapidly accumulating the experiences that would inform his acclaimed bestselling books *The Call of the Wild*, *White Fang*, and *The Sea-Wolf*. The bare outlines of his story suggest a classic rags-to-riches tale, but London the man was plagued by contradictions. He chronicled nature at its most savage, but wept helplessly at the deaths of his favorite animals. At his peak the highest paid writer in the United States, he was nevertheless forced to work under constant pressure for money. An irrepressibly optimistic crusader for social justice and a lover of humanity, he was also subject to spells of bitter invective, especially as his health declined. Branded by shortsighted critics as little more than a hack who produced a couple of memorable dog stories, he left behind a voluminous literary legacy, much of it ripe for rediscovery. In *Jack London: An American Life*, the noted Jack London scholar Earle Labor explores the brilliant and complicated novelist lost behind the myth—at once a hard-living globe-trotter and a man alive with ideas, whose passion for seeking new worlds to explore never waned until the day he died. Returning London to his proper place in the American pantheon, Labor resurrects a major American novelist in his full fire and glory.

The Unparalleled Invasion is a rare political
anticipation short story written by Jack London and
first published in McClure's in July 1910 and later in
the book The Strength of the Strong (New York,
Macmillan, 1914). The story begins in 1910s China.
Under the influence of Japan, China modernizes and
has its own Meiji Reforms. In 1922, China breaks away
from Japan and fights a brief war that culminates in
the Chinese annexation of the Japanese possessions
of Korea, Formosa, and Manchuria. Over the next half
century, China's population steadily grows, and

The Reformed Church Review

The literary world was shocked when in 1889, at the height of his career, Robert Louis Stevenson announced his intention to settle permanently on the Pacific island of Samoa. His readers were equally shocked when he began to use the subject material offered by his new environment, not to promote a romance of empire, but to produce some of the most ironic and critical treatments of imperialism in nineteenth-century fiction. In these stories, as in his work generally, Stevenson shows himself to be a virtuoso of narrative styles: his Pacific fiction includes the domestic realism of 'The Beach at Falesé', the folktale plots of 'The Bottle Imp' and 'The Isle of Voices', and the modernist blending of naturalism and symbolism in 'The Ebb-Tide'. But beyond their generic diversity the stories are linked by their concern with representing the multiracial society of which their author had become a member. In this collection - the first to bring together all his shorter Pacific fiction in one volume - Stevenson emerges as a witness both to the cross-cultural encounters of nineteenth-century imperialism and to the creation of the global culture which characterizes the post-colonial world.

"The Red One" is a 1918 short story by Jack London. The story revolves around Bassett, a scientist collecting butterflies in the jungle of Guadalcanal. When he accidentally discovered a large red sphere worshipped by the local natives, he forgets about his original aim and becomes fatally obsessed with the strange object. Highly recommended for lovers of London's work, "The Red One" is not to be missed by fans of early science fiction and the short story form in general. John Griffith London (1876 - 1916), commonly known as Jack London, was an American journalist, social activist, and novelist. He was an early pioneer of commercial magazine fiction, becoming one of the first globally-famous celebrity writers who were able to earn a large amount of money from their writing. London is famous for his contributions to early science fiction and also notably belonged to "The Crowd", a literary group in San Francisco known for its radical members and ideas. Other notable works by this author include: "Martin Eden" (1909), "The Kempton-Wace Letters" (1903), and "The Call of the Wild" (1903). Many vintage books such as this are increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new biography of the author.

Through the South Seas with Jack London

Jack London (1876-1916), known for his naturalistic and mythic tales, remains among the most popular and influential American writers in the world. Jack London's *Racial Lives* offers the first full study of the enormously important issue of race in London's life and diverse works, whether set in the Klondike, Hawaii, or the South Seas or during the Russo-Japanese War, the Jack Johnson world heavyweight bouts, or the Mexican Revolution. Jeanne Campbell Reesman explores his choices of genre by analyzing racial content and purpose and judges his literary artistry against a standard of racial tolerance. Although he promoted white superiority in novels and nonfiction, London sharply satirized racism and meaningfully portrayed racial others--most often as protagonists--in his short fiction. Why the disparity? For London, racial and class identity were intertwined: his formation as an artist began with the mixed "heritage" of his family. His mother taught him racism, but he learned something different from his African American foster mother, Virginia Prentiss. Childhood poverty, shifting racial allegiances, and a

Acces PDF Jack London Tales Of Cannibals And Headhunters Nine South Seas Storie

"psychology of want" helped construct the many "houses" of race and identity he imagined. Reesman also examines London's socialism, his study of Darwin and Jung, and the illnesses he suffered in the South Seas. With new readings of *The Call of the Wild*, *Martin Eden*, and many other works, such as the explosive Pacific stories, Reesman reveals that London employed many of the same literary tropes of race used by African American writers of his period: the slave narrative, double-consciousness, the tragic mulatto, and ethnic diaspora. Hawaii seemed to inspire his most memorable visions of a common humanity.
