Canadian Forest Industries

Timber Harvesting

After explaining why the draft horse is again in demand by farmers, the author explains the basics of farming with horses: how to care for the animals, find and repair horse-drawn machinery, and harness a team

1988 Toys and Prices

A stunning array of edge and boring tools from Britain, continental Europe and North America provides a survey of hand tool-making from prehistory to today.

The Tractor Book

The Austin Company

They Can't Touch Him Now

Jimmy was only nine years old when he was molested and sexually assaulted in London's dingy East End. He struggled to keep his dark secret, while coping with

being adopted and his illiterate father's violent outbursts. Desperately needing to be loved, Jimmy accepts an offer of 'conditional kindness' from Tom, his scoutmaster. Now, after a lifetime of secrets, his story can be told as Tom is now dead, so. "They Can't Touch Him Now"

Metals in America's Historic Buildings

Technical Manual for Design and Construction of Road Tunnels - Civil Elements (FHWA-NHI-10-034)

"A publisher in New York asked me to write down what I know about the Greek gods, and I was like, Can we do this anonymously? Because I don't need the Olympians mad at me again. But if it helps you to know your Greek gods, and survive an encounter with them if they ever show up in your face, then I guess writing all this down will be my good deed for the week." So begins Percy Jackson's Greek Gods, in which the son of Poseidon adds his own magic--and sarcastic asides--to the classics. He explains how the world was created, then gives readers his personal take on a who's who of ancients, from Apollo to Zeus. Percy does not hold back. "If you like horror shows, blood baths, lying, stealing, backstabbing, and cannibalism, then read on, because it definitely was a Golden Age for all that."

Dramatic full-color illustrations throughout by Caldecott Honoree John Rocco make this volume--a must for home, library, and classroom shelves--as stunning as it is entertaining.

The Allis-Chalmers Story

Centurions were the guardians of Rome. At the height of the Roman Republic there were over five thousand qualified Roman Centurions in the Legions. To be a Centurion required that, in a mostly illiterate society, one be able to read and write clearly, to be able to convey and create orders, to be capable of not only performing every skill of a Roman soldier but teach every skill of a Roman soldier. Becoming a Centurion required intense physical ability, courage beyond the norm, years of sacrifice and a total devotion to the philosophy which was Rome. When Rome fell to barbarian invaders, there were less than five hundred qualified Centurions. Not because Rome had fewer people but because it had fewer willing to make the sacrifices. And the last Centurions left their shields in the heather and

took a barbarian bride . . . We are . . . The Last Centurions. At the publisher's request, this title is sold without DRM (Digital Rights Management).

American Gas Journal

The Draft horse primer

Promotes an awareness of metals in America's buildings and monuments, and makes recommendations for the preservation and repair of such metals. Intended for owners, architects, and building managers who are responsible for the preservation and maintenance of America's architectural heritage. When metal building components need rehabilitation or maintenance, info. on proper preservation techniques for each metal and its alloys has not been available. This sourcebook on historic architectural metals is a reference on metals used in architecture; how they are used, how to identify them, and when to replace them. Photos

Grouting Technology

Into the Wild

A Rich History With their signature orange paint, Allis-Chalmers machines have always been unmistakable. As symbols of reliability and innovation, they have long been a favorite of the working farmer and the farming equipment enthusiast. With the help of more than 1,500 photos and illustrations, accomplished author C.H. Wendel tells the tale of this great company in *The Allis-Chalmers Story*. This pictorial tour through history begins with the founding of the Gate Iron Works in 1842, and ends with the Deutz-Allis merger in 1985. Included are information and photos for all the equipment the company produced during that period, including equipment from Advance-Rumely, Monarch, and LaCrosse.

The Waterways Journal

Tells how clutches & transmissions work - gear, friction, & hydrostatic. Gives basics of service & repair of major types of drives, transmission, transaxles, & clutches used in compact equipment. Includes troubleshooting guides. It provides the reader with a list of skills & knowledge that should be learned with each chapter. CONTENTS: Basic principles, clutches, mechanical transmissions, hydrostatic transmissions, belt & chain drives, differentials, final drives, power take-offs, service & maintenance & troubleshooting.

National Gardening

Popular Mechanics

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. His name was Christopher Johnson McCandless. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How McCandless came to die is the unforgettable story of Into the

Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The

power and luminosity of Jon Krakauer's stoytelling blaze through every page. From the Trade Paperback edition.

The American City & County

212o The Extra Degree is a must-have in every personal and business library. A Simple Truths #1 bestseller, the concept is simple: At 211o, water is hot. At 212o, it boils. And with boiling water comes steam. And steam can power a locomotive. The one extra degree makes the difference. This analogy reflects the ultimate definition of excellence. The one extra degree of effort, in business and life, can separate the good from the great. The 212o concept is vividly illustrated for every aspect of your life through powerful stories that will inspire and motivate yourself or your team to the next level of success. We hope that you will join the people, businesses, and schools that have taken action and adopted the 212o concept and used the ONE extra degree to attain their goals.

212 The Extra Degree

Meet the SOCIETY OF SIRENS—three radical, libertine ladies determined to weaponize their scandalous reputations to fight for justice and the love they deserve... She's a Rakes on a quest for women's rights... Seraphina Arden's passions include equality, amorous affairs, and wild, wine-soaked nights. To raise funds for her cause, she's set to publish explosive memoirs exposing the powerful man who ruined her. Her ideals are her purpose, her friends are her family, and her paramours are forbidden to linger in the morning. He's not looking for a summer lover... Adam Anderson is a wholesome, handsome, widowed Scottish architect, with two young children, a business to protect, and an aversion to scandal. He could never, ever afford to fall for Seraphina. But her indecent proposal—one month, no strings, no future—proves too tempting for a man who strains to keep his passions buried with the losses of his past. But one night changes everything

What began as a fling soon forces them to confront painful secrets—and yearnings they thought they'd never have again. But when Seraphina discovers Adam's future depends on the man she's about to destroy, she must decide what to protect... her desire for justice, or her heart.

In this jam-packed and revised edition, readers will learn how to recognize types of lawns, maintain excellent care, and diagnose and cure lawn troubles. The lawn care program and calendar continue to be reader favorites. Full-color illustrations.

Popular Science

The heyday of the televised rocketman came before our actual travels in space occurred and was a burgeoning time in TV history. Before astronauts like John Glenn, Alan Shepard, and Neil Armstrong were household names, before the 'one small step' that left America's national footprint on the Moon, and before the wonders of science fiction became the wonders of science fact, battles were fought with Para-Ray guns and Cosmic Vibrators, 'Opticon Scillometers' scanned through walls, heroes in jetpacks soared through the skies, and the universe was full of wonder. The fourteen essays featured here focus on series such as Space Patrol, Tom Corbett, and Captain Z-Ro, exploring their roles in the day-to-day lives of their fans through topics such as mentoring, promotion of the real-world space program, merchandising, gender issues, and ranger clubs - all the while promoting the fledgling medium of television.

Power Trains

The FHWA Technical Manual for Design and Construction of Road Tunnels - Civil Elements has been published to provide guidelines and recommendations for planning, design, construction and structural rehabilitation and repair of the civil elements of road tunnels, including cut-and-cover tunnels, mined and bored tunnels, immersed tunnels and jacked box tunnels. The latest edition of the AASHTO LRFD Bridge Design and Construction Specifications are used to the

greatest extent applicable in the design examples. This manual focuses primarily on the civil elements of design and construction of road tunnels. It is the intent of FHWA to collaborate with AASHTO to further develop manuals for the design and construction of other key tunnel elements, such as, ventilation, lighting, fire life safety, mechanical, electrical and control systems. FHWA intends to work with road tunnel owners in developing a manual on the maintenance, operation and inspection of road tunnels. This manual is expected to expand on the two currently available FHWA publications: (1) Highway and Rail Transit Tunnel Inspection Manual and (2) Highway and Rail Transit Tunnel Maintenance and Rehabilitation Manual. Black and white print.
