In this adventure motorsports memoir, the first Canadian motorcycle racer to complete the infamous Paris-Dakar Rally recounts his incredible journey. The Paris-Dakar Rally is without question the most arduous and notorious off-road motorsports event on the planet. Since its inception in 1979, it has attracted more than three thousand adventurers from all walks of life. The men and women who have taken up the “Dakar challenge” have at least one thing in common: a desire to measure themselves against the desolate sands of the Sahara. In 2001, Canadian adventure racer Lawrence Hacking entered what would be the last rally on the iconic route from Paris to Dakar. In *To Dakar and Back*, Hacking, in collaboration with motorsport journalist Wil De Clercq, recounts the three weeks of blood, sweat, and tears that took him on that ten thousand kilometer journey in the

heat of competition from the glitzy streets of the French capital through the hinterland of North Western Africa and the triumph of self-realization.

As the journalist Walter Lippmann noted nearly a century ago, democracy falters “if there is no steady supply of trustworthy and relevant news.” Today’s journalists are not providing it. Too often, reporters give equal weight to facts and biased opinion, stir up small controversies, and substitute infotainment for real news. Even when they get the facts right, they often misjudge the context in which they belong. Information is the lifeblood of a healthy democracy. Public opinion and debate suffer when citizens are misinformed about current affairs, as is increasingly the case. Though the failures of today’s communication system cannot be blamed solely on the news media, they are part of the problem, and the best hope for something better. Patterson proposes “knowledge-based journalism” as a corrective. Unless journalists are more deeply informed about the subjects they cover, they will continue to misinterpret them and to be vulnerable to manipulation by their sources. In this book, derived from a multi-year initiative of the Carnegie Corporation and the Knight Foundation, Patterson calls for nothing less than a major overhaul of journalism practice and education. The book speaks not only to journalists but to all who are concerned about the integrity of the information on which America’s democracy depends.

Koh-I-Noor diamond. Exiled to England, the dispossessed Maharajah transformed his estate at Elveden in Suffolk into a Moghul palace, its grounds stocked with leopards, monkeys and exotic birds. Sophia, god-daughter of Queen Victoria, was raised a genteel aristocratic Englishwoman: presented at court, afforded grace-and-favour lodgings at Hampton Court Palace and photographed wearing the latest fashions for the society pages. But when, in secret defiance of the British government, she travelled to India, she returned a revolutionary. Sophia transcended her heritage to devote herself to battling injustice and inequality, a far cry from the life to which she was born. Her causes were the struggle for Indian independence, the fate of the Lascars, the welfare of Indian soldiers in the First World War – and, above all, the fight for female suffrage. She was bold and fearless, attacking politicians, putting herself in the front line and swapping her silks for a nurse's uniform to tend wounded soldiers evacuated from the battlefields. Meticulously researched and passionately written, this enthralling story of the rise of women and the fall of empire introduces an extraordinary individual and her part in the defining moments of recent British and Indian history.

Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's Long Way Round In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip

became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of *Riding Home* and *The Gypsy in Me*.
