For over 25 years Rob Siegel has written a monthly column called "The Hack Mechanic" for the BMW Car Club of America's magazine Roundel. In Memoirs of a Hack Mechanic, Rob Siegel shares his secrets to buying, fixing, and driving cool cars without risking the kids' tuition money or destroying his marriage. And that's something to brag about considering the dozens of cars, including twenty-five BMW 2002s, that

have passed through his garage over the past three decades. With a steady dose of irreverent humor, *Memoirs of a Hack Mechanic* blends car stories, DIY advice, and cautionary tales in a way that will resonate with the car-obsessed (and the people who love them).

Land Rover Discovery Maintenance and Upgrades Manual, Series 1 and 2

In the 1980s and 90s the Australian Defence Force introduced a much-modified Land Rover 110 as the Defence Force's basic lightweight utility vehicle. The basic cargo and general service models of the Australian Land Rover 110 are known as the "Truck, Utility, Lightweight, MC2" and the "Truck, Utility, Lightweight, Winch, MC2" respectively. There are several specialist variants of the Australian Land Rover 110, but the base vehicle is the same in most cases. Although never its official name, the Australian Defence Force Land Rover 110 is known among military vehicle enthusiasts as the "Perentie." They are almost universally considered to be the most capable Land Rover 110/Defender vehicles in the world. The "Perentie" was popularised around the world as Major Les Hiddins' vehicle in the hit TV series "Bush Tucker Man." This handbook reproduces the Australian Army's Electrical and Mechanical Engineering Instructions for the basic Land Rover "Perentie." Its 622 pages comprise a complete

electrical and mechanical repair and servicing handbook for these iconic vehicles. It covers everything from basic servicing to complete rebuilds of the vehicle. Available for the first time in print, this handbook is designed as a workshop reference manual. Don't rely upon loose paper printouts. This edition is purposefully a low cost option and it never goes out of print, so you can keep one copy with the vehicle and another in the workshop.
