Intellectual Leverage for the Information Society

The Improvement Era

Are you struggling to make the Law of Attraction work for you? Maybe you've heard of the Law of Attraction (LOA), but have you identified the way it can help you? Grounded in the teachings of Abraham-Hicks, Ginny Gane shares a simple approach to help you live your dream life now. If you have learned the basics of LOA, but are still searching for how to really see results in your life, A Champion Mindset will help you leverage what you already know to live the life of love and freedom you desire. You have the power to purposefully create the kind of life you dream of and the techniques taught within these pages will get you there. Learn the skills that will ultimately empower you to take control of your experience and truly uncover and be all that you want to be.

School Education

High Leverage Practices for Inclusive Classrooms offers a set of practices that are integral to the support of student learning, and that can be systematically taught, learned, and implemented by those entering the teaching profession. The book focuses primarily on Tiers 1 and 2, or work that mostly occurs with students with mild disabilities in general education

classrooms; and provides rich, practical information highly suitable for teachers, but that can also be useful for teacher educators and teacher preparation programs. This powerful, research-based resource offers twenty-two brief, focused chapters that will be fundamental to effective teaching in inclusive classrooms.

Mastering Formative Assessment Moves

The Australian Feminist Law Journal

A review devoted to the historical statistical and comparative study of politics, economics and public law.

Law of Leverage

"The authors introduce four "forces," or levels, of influence that educators can use to leverage relationships to support one another's practice and effect positive change"--

Joint Documents of the State of Michigan

Critical thinking is the essential tool for ensuring that students fulfill their promise. But, in reality, critical thinking is still a luxury good, and students with the greatest potential are too often challenged the least. *Thinking Like a Lawyer: Introduces a powerful but practical framework to close the critical thinking gap. Gives teachers the tools and knowledge to teach critical thinking to all students. Helps students adopt the skills, habits, and mindsets of lawyers. Empowers students to tackle 21st-century problems. Teaches students how to compete in a rapidly changing global marketplace. Colin Seale, a teacher-turned-attorney-turned-education-innovator and founder of thinkLaw, uses his unique experience to introduce a wide variety of concrete instructional strategies and examples that teachers can use in all grade levels and subject areas. Individual chapters address underachievement, the value of nuance, evidence-based reasoning, social-emotional learning, equitable education, and leveraging families to close the critical thinking gap.*

High Leverage Practices for Inclusive Classrooms

The Spivak Reader

"Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words"--

Report of the Superintendent of Public Instruction

This book is for any educator who's interested in understanding how learning works, and how to optimise their teaching to make it happen. From the author of Lean Lesson Planning, this latest instalment in the High Impact Teaching series pulls together the best available evidence from cognitive science and educational research, and stitches them together into a concise and coherent set of actionable principles that can be used to improve your impact in the classroom. It's an evidence-informed teacher's guide to building enduring understanding, and sits alongside books such as Make It Stick, Why Don't Students Like School?, and What Every Teacher Needs To Know About Psychology.

Memorable Teaching

"Leveraging the Law" is an important and timely collection of essays by noted political scientists and legal scholars who critically explore the relationship between the courts, political mobilization, and social change. Employing a wide variety of methodological perspectives and drawing upon numerous case studies, the authors demonstrate how and under what conditions the courts can be an important force for political change and social reform. While in some situations the judiciary

is politically impotent or irrelevant, "Leveraging the Law" shows that courts do matter and that litigants can use the judiciary to secure numerous goals.

Index to Volumes I-xlv. 1886-1930

How do you know if students are with you at the beginning, middle, and end of a lesson? Can formative assessment offer a key to better teaching and learning during instruction? What if you could blend different formative assessment moves in your classroom, with intention and care for all students, to help make better instructional decisions on the fly and enjoy more teachable moments? Educators Brent Duckor and Carrie Holmberg invite you on the journey to becoming a formative assessor. They encourage you to focus on these seven research-based, high-leverage formative assessment moves: Priming--building on background knowledge and creating a formative assessment-rich, equitable classroom culture Posing--asking questions in relation to learning targets across the curriculum that elicit Habits of Mind Pausing--waiting after powerful questions and rich tasks to encourage more student responses by supporting them to think aloud and use speaking and listening skills related to academic language Probing--deepening discussions, asking for elaborations, and making connections using sentence frames and starters Bouncing--sampling student responses systematically to broaden participation, manage flow of conversation, and gather more "soft data" for instructional use Tagging--describing and recording student responses without judgment and making public how students with different styles and needs approach learning in real-time Binning--interpreting student responses with a wide range of tools, categorizing misconceptions and "p-prims," and using classroom generated data to make more valid and reliable instructional decisions on next steps in the lesson and unit Each chapter explores a classroom-tested move, including foundational research, explaining how and when to best use it, and describing what it looks like in practice. Highlights include case studies, try-now tasks and tips, and advice from beginning and seasoned teachers who use these formative assessment moves in their classrooms.

Leveraging the Law

Bowker's Law Books and Serials in Print

The Spivak Reader offers a selection of a major critic's work, making it accessible to as wide an audience as possible in post-colonial studies, literature, women's studies, cultural studies, philosophy, and sociology. As a theorist, a feminist and a

cultural critic, Gayatri Chakravorty Spivak has rigorously expanded our understanding of some of the key issues of contemporary thought. The Spivak Reader both introduces many of her most important writings, while also making it possible for students of Spivak's work to view her project as a whole. Headnotes and introductory material (including a new essay, "Reading Spivak") by Donna Landry and Gerald MacLean provide a helpful guide to the selections. Many pieces in the Reader have not been published in Spivak's earlier books; the volume also includes a new interview on the question of the subaltern.

Same-sex Marriage, Legal Mobilization, & the Politics of Rights

Leveraging with Legal Assistants

Thinking Like a Lawyer

Law School 2.0

The civil rights of lesbians and gay men are a prominent issue on the public agenda today, and one of the most contentious debates is the recognition of same-sex relationships. Same-sex marriage is being addressed in legislatures and courts throughout the world. This book highlights the legal and political battles of same-sex marriages in the United States. In addition, a survey of the status of gay relationships in other countries is outlined in order to compare these claims for equal rights in various political and social contexts. The movement to recognize gay and lesbian relationships demonstrates that law and conceptions of rights are important political resources for creating social change.

Forces of Influence

Co-teaching is an equal partnership between a special education teacher and a general education teacher. They share a classroom and responsibilities for teaching all students in the class. But what does co-teaching look like? How does it work? Are we doing it right? Finding the answers to these questions is critical to the effectiveness of a co-teaching program that is grounded in inclusive educational practices. In this book, you'll learn how co-teachers

- * Define what effective co-teaching is and what it is not;
- * Engage students in evolving groups, using multiple perspectives for meaningful learning opportunities;
- * Resolve differences in teaching and assessment practices;
- * Respond to parents and students about inclusion and co-teaching concerns; and
- * Organize and teach an equitable, inclusive classroom.

Concise and informative answers to questions posed by real teachers, administrators, and parents help you learn about the components of co-teaching. And vignettes about issues that arise in co-teaching situations will help you start conversations and solve day-to-day challenges inherent to co-teaching. Whether you're already involved in co-teaching programs or are soon to embark on the effort, Teaching in Tandem provides knowledge and tools that you can use to create effective partnerships and powerful learning environments for teachers and students alike. Every teacher, principal, administrator, and paraprofessional who participates in co-teaching--or who is worried about how to address inclusion--needs this book. An additional annotated resource list is available online, along with an ASCD Study Guide.
