Californian Trails, Intimate Guide to the Old Missions

In this ground breaking reference book Sophie Fuller provides accessible, original and extensive information in an A to Z of over a hundred women composers from Britain and the United States, covering the period from 1629 right up to the contemporary scene. Each entry gives a flavour of the composer's milieu as well as her music, to provide a fascinating insight into both her life and creative works. Fuller examines the reasons why women composers have been so neglected, reassesses their work in the light of recent scholarship, both musicological and biographical and provides a critical frame of reference in which to place both the women and their music.
