When Portuguese sailor Ferdinand Magellan set sail from Spain in 1519, he believed he could get to the Spice Islands by sailing west through or around the New World. He was right, but what he didn't know was that the treacherous voyage would take him three years and cost him his life. Black-and-white line drawings illustrate Magellan's life and voyage, with sidebars and a time line that enhance readers' understanding of the period.

Based in part on the life and times of World War II US Navy dive-bomber hero Rear Admiral John Blitch, Jackson “Pop” Harrison returns from the war to his ancestral homestead on Sullivan’s Island near Charleston, South Carolina where he finds himself without family except those in the family plot under the spreading oak tree. There, like so many other Americans who had survived years of intense conflict, he goes about picking up the pieces of his shattered life while haunted by nightmares of his childhood and military combat. Almost immediately upon hanging up the shingle on “Pop’s Place,” the family residence-turned-boarding-house, Pop is immersed in adventure after adventure with romance and betrayal, life and death, challenges and victories, and the drama of post-war low country. Confident in battle as a warrior, Pop is curious in discovering that he is suddenly unsure of himself outside the cockpit—particularly with his best friend’s beautiful young daughter who has matured while he was away at war. Though he narrowly escaped countless close calls in a war that claimed the lives of so many others, true to his selflessness, courage and strength of character, Pop decides between life and making the ultimate sacrifice for the one he loves.

Convention on Contracts for the International Sale of Goods (CISG), contract formation issues, formal requirements, ambiguity of contract terms, parol evidence under domestic law and under the CISG, irrevocable offers, performance and breach, and comparative and CISG approaches to remedies. It is designed to inform but not overburden the basic contracts course. It also contains carefully drafted problems and notes.

Written for international trade lawyers, practitioners and students from common and civil law countries, this casebook is an

excellent starting point for learning about the CISG, providing an article-by-article analysis of the Convention. The commentary on each article is accompanied by extracts from cases and associated comparative materials, as well as references to important trade usages such as the INCOTERMS® 2010. The book features a selection of the most significant cases, each of which has been abridged to enable the reader to focus on its essential features and the relevant questions arising from it. The case extracts are accompanied by a comprehensive overview of parallel provisions in other international instruments, uniform projects and domestic laws. The analyses, cases, texts and questions are intended to aid readers in their comparative law and international sales law studies. They are designed to draw attention to the particular issues surrounding specific CISG provisions and to provoke careful consideration of possible solutions. The book is a reference work as well as an introduction to the individual problem areas. In particular, it acts as a preparatory work for the Willem C Vis International Commercial Arbitration Moot. The inclusion of sample questions and answers also makes it particularly helpful for self-study purposes.
