Ten Teachers' Self-Assessment in Gynaecology & Obstetrics, 4Ed

This book established itself in its first edition as the definitive 'one-stop-shop' revision aid; the only one available to encompass all elements of the MRCOG Part 2 examination in a single volume. Now incorporating practice EMQs as well as the standard question types, this second edition will ensure that it retains its place on the 'must-have' list for every candidate preparing for this exam. Concentrating on testing the candidate's theoretical and practical knowledge as recommended in the current MRCOG syllabus, the book tests the trainee with questions in obstetrics and gynaecology and those aspects of medicine, surgery and paediatrics relevant to the

practice of both. The book is divided into four key parts, one for each style of question, each of which opens with an introductory section on how to approach the exam and, crucially, how to fail it. # Part 1 provides a series of short answer practice papers. Common mistakes are highlighted as well as a list of key points required to get full marks. A sample answer is given for each question # Part 2 contains a mock paper for the MCQ part of the exam, containing 225 questions with answers and helpful annotations # Part 3 introduces the EMQ, giving the reader 40 questions in the style of the examination, together with answers and explanatory notes # Part 4 is devoted to the OSCE, with descriptions of 20 sample stations assessing different aspects of clinical practice, advice on how to tackle these, and suggested marking schemes. Throughout, questions have been designed to test factual knowledge and understanding, problem-solving ability, and clinical and communication skills.

Self Assessment in Obstetrics and Gynaecology by Ten Teachers 2E EMQs, MCQs, SAQs & OSCEs

Modelled on the current MRCOG syllabus, Get Through MRCOG Part 2: EMQs is designed to test candidates' theoretical and practical knowledge of obstetrics and gynaecology. The book opens with an introductory section explaining the format of the examination, providing advice on how to prepare for it and how EMQs should be approached in order to obtain the highest marks. 320 EMQs are presented in

the form of eight practice papers, reflecting the level of difficulty and style of the actual examination, and each answer is supplemented with a detailed explanation to help candidates assess and improve their own level of knowledge. Providing an invaluable bank of revision questions, *Get Through MRCOG Part 2: EMQs* is the essential revision guide for all specialist trainees preparing for this examination. The book is comprehensive and authoritative: Justin Konje was closely involved in pioneering the introduction of EMQs into the MRCOG examination and runs a highly regarded MRCOG Part 2 course in the UK.

SAQs, MCQs, EMQs and OSCEs for MRCOG Part 2, Second edition

Self-Assessment by Ten Teachers presents a new opportunity for medical students to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practise their exam technique. Working well as a stand-alone book, this comprehensive self-assessment book is also designed to complement the well-known volumes 'Gynaecology by Ten Teachers' and 'Obstetrics by Ten Teachers', both of which have now reached their 18th editions. The book tests information covered in the two 'Ten Teachers' volumes via the full variety of exam question types - EMQs, MCQs, SAQs and OSCEs. Each answer has a short explanation of its own, and cross-references are also made to page numbers and topics

in the main textbooks.

Self-Assessment by Ten Teachers: EMQs, MCQs, SAQs and OSCEs in Obstetrics & Gynaecology

MCQs in Obstetrics and Gynaecology

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

Pediatrics: PreTest Self-Assessment and Review

Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

EMQs in Obstetrics and Gynaecology

Featuring a range of commonly encountered and important conditions in women's health, Obstetrics & Gynaecology: Clinical Cases Uncovered allows the reader to understand normal reproductive physiology and anatomy in the context of clinical practice. It highlights aspects of good practice which in real life are considered beyond the presenting symptom. This unique case-based approach allows the reader to progress through each stage, gaining an understanding of the rationale for investigation and management and to consider other important aspects for holistic care. Obstetrics & Gynaecology: Clinical Cases Uncovered is ideal for medical students and junior doctors, obstetrics and gynaecology trainees, midwives and nurse practitioners.

How are OSCE and MCQ questions set and what marking schemes are used? Answer to all of these questions - and more - are provided in this new text. The quality of the text and supporting illustrations - many in full colour - will make it useful to a wide audience, including candidates preparing for the DRCOG and the MRCOG; undergraduate medical students who need to revise their understanding of O&G; midwives, as an aid to practice; and overseas doctors studying for the PLAB.

Essential MCQs in Obstetrics and Gynaecology for Medical Students

The aim of this book is to provide a straightforward summary of the knowledge required for examinations in specialist Obstetrics and Gynaecology. Part Two of the examination for Membership of the Royal College of Obstetricians and Gynaecologists would be a good example. The volume is intended as a companion to the highly successful Basic Sciences for Obstetrics and Gynaecology which covers the knowledge required for preliminary examinations. Increasingly, examinations of all types are based on multiple

Get Free Mcqs In Obstetrics And Gynaecology Williams

choice questions (MCQ) or structured answer questions (SAQ). No apology is made for the fact that the present book addresses the sort of "fact" which lends itself to testing by this approach. Thus, there is little discussion of speculative or contentious areas, no account of present or future research, and no references. Numerous excellent books are available which cover these topics in a much fuller and more discursive manner, and the present volume does not seek to emulate them.

MRCOG Part 2: 550 MCQs, EMQs and SAQs

First published in 1919 as 'Diseases of Women', Gynaecology by Ten Teachers is well established as a concise, yet comprehensive, guide. The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and additional reading where appropriate. New themes for this edition include 'professionalism' and 'global health' and information specific to both areas is threaded throughout the text.
