Mercedes-Benz E-class Owner's Bible, 1986-1995

American Book Publishing Record

This book is an E-class buyer's guide, maintenance handbook and technical reference source all wrapped into one. It is full of tech tips, service hints and system descriptions, plus lots of insightful information about the W124 E-Class chassis. This "E-Class Owner's Bible can help steer you through the purchase of your first Mercedes-Benz, provide the information necessary to maintain your E-Class to factory standards, give you the assurance to speak knowledgeably to your service professional and provide you with the hot setup for better road handling. The prospective buyer will also find tips on what to watch out for, why a pre-purchase inspection is important and why one model may be preferred to another. Do-it-Yourself owners will discover a huge hands-on maintenance chapter to help keep their E-Class at peak efficiency. To bring you this authoritative volume, Bentley Publishers has teamed up with Stu Ritter, a 25-year independent Mercedes-Benz repair shop owner/technician and current technical editor of "The Star (the magazine of the Mercedes-Benz Club of America).

A blended learning approach to automotive engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market though, this title takes a blended learning approach, using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA and several other countries.
