Has any individual been more influential in shaping Australia's culture than Kerry Francis Bullmore Packer AC? Kerry Packer: Tall Tales and True Stories is a collection of stories, gathered from people who knew the man, from those who have documented him, and from the folklore that inevitably surrounded him. In this fun, irrepressible collection, author Michael Stahl has delved into the world of the man who was instrumental in shaping Australia's media landscape. For 30 years, Kerry Packer controlled television's perennial ratings leader Channel Nine and up to half of the nation's magazines. So much of what Australians watched, read and believed came through the prism of this gigantic man. Beneath all the billionaire clutter, though, Packer had plenty in common with the man in the street: a cheeky humour, a competitive drive, a deep love for his kids and a passion for sports and television. In business, Packer would fight to the last dollar in a deal. Yet the same man would take his private jet to Las Vegas and lose \$20 million in a week - then leave a \$1 million tip. He could verbally dissect a hapless executive in front of his peers, yet no less often, would step in silently and invisibly when hardship or tragedy befell a loyal staff member or their family. This book is a collection of stories on the Big Fella, gathered from people who knew him, from those who documented him, and from the folklore that inevitably grew up around him. Michael Stahl is a journalist who during the 1980s worked at Packer's ACP headquarters in Park Street, Sydney, where his career highlights included riding in the lift with the chairman. Stahl was named Journalist of the Year in 2011 by Publishers Australia and is currently features editor of Qantas The Australian Way and contributing editor to Wheels magazine.

## Nissan GT-R Supercar

From leading motoring writers Toby Hagon and Bruce Newton comes the definitive countdown of the greatest, bravest, most iconic and inspired cars in our history. Packed with behind-the-scenes, under-the-bonnet stories of the social revolutions these cars drove, Kings of the Road also pays tribute to Australia's

innovation, courage, eccentricity and love of adventure that is embodied in these 50 iconic cars. From the 1948 Holden 'Humpy' - the first car manufactured by Aussies for Aussies in Australia - to the GT Falcon that started the blood feud between Holden and Ford. From the first car that crossed the Simpson Desert to the Volkswagen Kombi that redefined rural road trips. From the Repco BT19 race car that won Aussie Jack Brabham the Formula One championship to the Bushmaster driven into war by our troops in Afghanistan. These cars rev the engines of car lovers and patriots alike. Experience Australia's top 50 Kings of the Road, captured pictorially with iconic artwork, advertising, photography and conceptual designs and insider knowledge and never-before-heard stories from the team behind the bestselling Holden: Our Car. These are the cars that drove Aussie on- and off-road adventures for decades.

Since its introduction, the Skyline GT-R has been the undeniable king of the tuner CAR world. This book explains why. Along with an overview of Skylines since their debut in 1957, Author Alex Gorodji gives in-depth reviews of the last four generations of GT-Rs, including the new-for-2008 V35 – the first iteration of the car to be sold in the U.S. Paying special attention to technical aspects such as the all-wheel steering and drive systems, the chassis, and the legendary six-cylinder twin-turbocharged engine, his work explains the GT-R to those who already admire the car, and to those who wonder what the excitement is all about.

Autobiography of the most successful driver in Australian motorsport history He is the most successful driver in Australian motorsport history. One of the icons of the sport, ultimately a Holden hero after starting his career with Nissan: but there is

much more to Mark Skaife than just that. Move past the numbers – more touring car round wins than any other driver, equal to the best in touring car titles, five Bathurst wins, three Australian Drivers' Championships and numerous other accolades – and you'll find a driver with a deeply entrenched popularity in the sport. This is Mark's story in his own words, from before the time the motorsport bug first bit to the final days of his time with HRT and the desire to keep racing at Bathurst. He talks about the level of commitment he put in to become the very best while some of those around him tell how this changed the face of the sport in this country. Find out what motivated him to dominate. How teams he was involved with twice forced the rules to be changed to give others a chance. What he loved about the sport and what he misses today. But also discover the other Mark Skaife. An accomplished businessman with runs on the board, a family man devoted to his three children, a road safety advocate and much more. This is the only place you will read the true story of Mark Skaife and all that has gone on around him.

This book tells the full story of the seven Celica generations (from 1970 to date), and that of its close cousin the Supra with detailed coverage of all the road cars from the world's leading markets, and the story surrounding the many race and rally models based on the two vehicle lines. Written with the full co-operation of the factory in Japan (and various official sales organizations from around the globe), this truly is the definitive history of these sporting Toyotas. Written by an acclaimed motoring historian with full co-operation from the factory this is an extremely comprehensive reference containing well over 250 mainly color photographs. Contemporary advertising brochures and exhaustive appendices complete the package making this a vital addition to any enthusiast's library.

Consumers Union, Ford EcoSport, Mitsubishi Pajero iO, Daihatsu Rocky, Honda HR-V, Mini SUV, Toyota Urban Cruiser, Mitsubishi Pajero Junior, DR5, Mazda AZ-Offroad, Audi Q1. Excerpt: The Nissan Skyline ( in Japanese) is a line of compact cars originally produced by the Japanese carmaker Prince Motor Company starting in 1957 and subsequently by Nissan after the two companies merged in 1966. It is currently available in either coup, or sedan body styles, and are most commonly known by their round brake lights, with the station wagon bodystyle being dropped in 1989 with the introduction of the R32 platform. Iterations R30 to R34 of the Skyline are still popular tuner cars for Japanese car enthusiasts from the 1980s to today, especially with available features such as straight-6 engines, turbochargers, and the high-performance GT-R trim. While not distributed in the United States, the Skyline's prominence in video games, movies and magazines resulted in many such cars being imported there from 1999 to late 2005, after Motorex petitioned the National Highway Traffic Safety Administration to allow 1990-1999 GT-Rs and GTSs to be imported, at the condition that they were modified to meet United States Federal Motor Vehicle Safety Standards. The 11th generation Skyline (V35) was a major turning point for the nameplate, as it dropped the Skyline's trademark characteristics such as the straight-6 engine and turbocharging, eventually separated the GT-R into its own line, and moved to V6-engined era, this decision which extended to all later Skylines. Nissan decided to position the Skyline for the luxury-sport market,

Probably one of the most difficult feats in manga is to tell a compelling short story, and Mitsuru Adachi is a master of the medium. This selection of some of his best short works include two tales in the dangerous life of a pretty private-eye-to-be; a boy's stop-off on the way changes his life's destination; five short-shorts in a quirky cafe; Japan's future ace pitcher can't even throw a ball; when a school play goes bad, the world is a stage for love and karate; a drama of rugby and past lives; two off-beat time-travel tales; and more! Mitsuru Adachi's low-key but high-impact stories are a must read for any manga aficionado.

The Skyline first appeared at the 15th Tokyo Motor Show, and went on sale in February 1969. New models appeared in 1972, 1989 and 1995. January 1999 saw the arrival of the R34 Skyline GT-R and GT-R V models and when production finished in 2002, over 11,300 cars had been built and Nissan announced plans to separate the GT-R model from the Skyline name. The latest generation GT-R car appeared in the US in 2008 and had its European debut in 2009.
