Can a loner vampire and outcast wolf find love in Lori Devoti's Moon Rising? The discovery of lost treasure imperils the fragile peace between the vampire and werewolf populations. Especially when werewolf Cece Parks and vampire Marc Delacroix arrive at the remote site with the same agenda--to claim the loot. But when suspicious deaths begin occurring, the enemies must band together to solve the mystery. The truth proves far more complicated than either can imagine. Especially when Marc finds himself inexplicably drawn to Cece. For once in his long life he wants nothing more than to be with--and protect--the werewolf. Now loyalty to his race and his forbidden desire are about to collide.

The Apes of Eden - The Age of Thinkers

A chilling middle grade novel featuring a brave young girl, missing parents, and a terrifying stranger, based on a Native American legend. R.L. Stine, New York Times bestselling author of the Goosebumps series, raved, "This book gave ME nightmares!" Molly's father, who grew up on the Mohawk Reserve of Akwesasne, always had the best scary stories. One of her favorites was the legend of Skeleton Man, a gruesome tale about a man with such insatiable hunger he ate his own flesh before devouring those around him. But ever since her parents mysteriously vanished, those spooky tales have started to feel all too real. Don't miss The Legend of Skeleton Man: a spine-tingling collection of Skeleton Man and its sequel, The Return of Skeleton Man!

In Feeling Persecuted, Anthony Bale explores the medieval Christian attitude toward Jews, which included a pervasive fear of persecution and an imagined fear of violence enacted against Christians. As a result, Christians retaliated with

expulsions, riots, and murders that systematically denied Jews the right to religious freedom and peace. Through close readings of a wide range of sources, Bale exposes the perceived violence enacted by the Jews and how the images of this Christian suffering and persecution were central to medieval ideas of love, community, and home. The images and texts explored by Bale expose a surprising practice of recreational persecution and show that the violence perpetrated against medieval Jews was far from simple anti-Semitism and was in fact a complex part of medieval life and culture. Bale's comprehensive look at medieval poetry, drama, visual culture, theology, and philosophy makes *Feeling Persecuted* an important read for anyone interested in the history of Christian-Jewish relations and the impact of this history on modern culture.

Density functional methods form the basis of a diversified and very active area of present days computational atomic, molecular, solid state and even nuclear physics. A large number of computational physicists use these methods merely as a recipe, not reflecting too much upon their logical basis. One also observes, despite of their tremendous success, a certain reservation in their acceptance on the part of the more theoretically oriented researchers in the above mentioned fields. On the other hand, in the seventies (Thomas Fermi theory) and in the eighties (Hohenberg-Kohn theory), density functional concepts became subjects of mathematical physics. In 1994 a number of activities took place to celebrate the thirtieth anniversary of Hohenberg-Kohn-Sham theory. I took this an occasion to give lectures on density functional theory to senior students and postgraduates in the winter term of 1994, particularly focusing on the logical basis of the theory. Preparing these lectures, the impression grew that, although there is a wealth of monographs and reviews in the literature devoted to density functional theory, the focus is nearly always placed upon extending the practical applications of the theory and on the development of improved approximations. The logical foundation of the theory is found somewhat scattered in the existing literature, and is not always satisfactorily presented. This situation led to the idea to prepare a printed version of the lecture notes, which resulted in the present text.

The Age of Thinkers covers a time when the tribe reflected on their philosophy and their theology. According to reviewer Jim Bennett, "You will probably laugh, as I did, at some of the 'logical' developments of thought, about Earth, God, Creation, the Trinity, and Prophets." This is Book 5 of the Apes of Eden Saga. Coming Soon, The Writings of Louie.

Well it's a toy that I would like to play with as often as you want It's Razor's first trip as a steward on a Navy ship. There he meets Shirley, a gay guy who becomes his personal guide. He introduces Razor to the other stewards, explains the need-to-know things about the ship, the trip and a little something outside the call of duty. On the first night aboard, Shirley hands Razor a book that will change his life choices forever. Discovering all the pleasures the human body can offer is just the tip of the iceberg, especially when there's another person involved. In this coming-of-age story between a boy and all his firsts, the path to discovery follows. What will he end up becoming? More importantly, with whom? Sample 1: "After a little while, he leaned down and passed me a book, if it could be called that. 'I bet you haven't seen one of these before, ' he said. 'I picked it up in Port Said on my last

trip.' I took it from him and put my book to one side and saw that this so called book had been badly stapled together and that the cover was entitled "Gay" and was a picture of two naked men kissing each other. He was right. I hadn't ever seen such a book as I turned the pages Sample 2: Shirley's light was soon turned off and laying there in the dark, I thought back to what I had just done with Shirley. Me having for the first time had had my toy sucked, and me then sucking on his. The thing was, I liked it. Well both really, and laying there with my toy in my hand, relived those wonderful experiences, doing what he had done by having my toy in his hand and mouth. It was really throbbing away as I moved the skin up and down, and it wasn't long before I leaned over to one side and had my cum shoot out to make a mess on the bed sheet where I wouldn't be lying during the night. With my toy going soft in my hand, I began to fondle my balls and with Shirley having sucked on me and wanted me to do him, there was only one other place left for my toy and he'd already had in his mouth which just left his ass.
