America is currently undergoing a massive political and cultural change. While many of our societal changes have been positive, there are just as many negative pathways that we are pursuing, and these paths are threatening the very core values of the United States. From the perspective of a young, rural Northern Michigan resident, I highlight the most major cultural shifts that our nation is facing, and what the consequences are and more importantly, what can be done to either alleviate or reverse these dangerous changes. I began writing this book when I was sixteen years old and finished when I was eighteen. Even up here in the secluded north, I've experienced some of these changes first-hand, and how they effect the local community. From an increasing over-dependence on technology to the resurgence of racism that cloaks itself as 'equality' and 'tolerance' to the silencing of free speech and free thought; these ideologies are extremely hazardous to the sanctity of our nation. Our culture is vigorously attempting to copy the cultures of the very same countries that we have fought with blood and sweat to be different from them. We have always prided ourselves as being unique and different, and it has worked quite well for us. Why should we abandon that identity now, even as we sit as the world's economic, militaristic, and influential superpower? This book summarizes all of these key questions and more. So if you're interested at all about the future of this nation and are cautious about the changes in our culture, then this book is perfect for you.

The last thing she expected was the brutal betrayal by her beloved brother, forcing her into an arranged marriage with Prince Mazen to seal a Sisters Trading deal. Boethius was an eminent public figure under the Gothic emperor Theodoric, and an exceptional Greek scholar. When he became involved in a conspiracy and was imprisoned in Pavia, it was to the Greek philosophers that he turned. THE CONSOLATION was written in the period leading up to his brutal execution. It is a dialogue of alternating prose and verse between the ailing prisoner and his 'nurse' Philosophy. Her instruction on the nature of fortune and happiness, good and evil, fate and free will, restore his health and bring him to enlightenment. THE CONSOLATION was extremely popular throughout medieval Europe and his ideas were influential on the thought of Chaucer and Dante.

Moved by previous visits to the Centralia, and ultimately by a trip to the now deserted town, which was bought out by the state following an unstoppable mine fire that began in 1962, the author was inspired to write a fitting eulogy. The novel is a fictional accounting based on fact and metaphorically presents the mine owners and industrialists as Satanical manifestations in need of exorcism. It is a wonderful mix of period fact with fiction - there is much to learn while enjoying a fanciful journey through the author's imagination. Sample from the book: "More water! More water damn it! The fire is spreading!" From behind a fire pumper a soot covered black-faced fireman came running and shouting. "Around the other side! Quickly!" Three more fire fighters joined in, sweat pouring from their brows in the 83 degree heat, made many times hotter by the raging fire, dragging limp cloth hose toward the quickly spreading fire that was reaching out in anger from the pit. "Charge the line," screamed a scrawny teenage fireman. The hose they were carrying quickly filled and whipped along like a disturbed snake. The fire, in the pit of an old abandoned strip mine near the Odd Fellows cemetery was started once or twice a year to burn excess municipal rubbish, but had never gotten out of control, as did this one. This fire was started on May 27 to clean up rubbish and municipal waste in preparation for the Memorial Day celebration, and was then extinguished by the fire department and was thought to have gone out. It had again re-kindled on May 29 and was put out late in the evening. It again re-kindled on June 12, though not as bad. Now it had re-kindled yet again, this time with a vengeance, as if set by Satan himself. None of the locals had ever seen such an inferno.

At last, *Up Through an Empty House of Stars* brings together the best of the never before collected SF reviews and articles that helped build David Langford's towering reputation since 1980. Complementing the review columns collected in *The Complete Critical Assembly* and the knockabout essays and squibs in *The Silence of the Langford*, this volume's 100 glittering selections mix serious critical insight with the inimitable Langford wit. In 2002 David Langford won his sixteenth Hugo award as Best Fan Writer, for critical and humorous commentary on SF. In

the same year his occasionally scandalous SF newsletter *\_Ansible\_* won its fifth Hugo. Langford also received the 2001 Hugo for best short story, and the 2002 Skylark Award. Here he shines a unique light on classics like Ernest Bramah, G.K. Chesterton, Robert Heinlein and Jack Vance, and analyses major SF -- and major clunkers, and minor eccentrics -- of the 1980s, 1990s and early 2000s, continuing to the latest by such current stars as Gene Wolfe and China Mi, ville. Plus witty asides on crime fiction and its SF links, gleeful examination of writing so bad it's almost good, and (even at his most serious) turns of phrase to make you laugh aloud
