We promise this Bible study is unlike any Bible study you have completed. This Bible study was specifically designed with the classroom teacher in mind. I am often asked how a public school teacher can choose to share Christ in his or her classroom. While public school teachers may not be openly allowed to share Christ with their students, I believe that the love of Christ can be displayed through this word: Grace. You see Paul was writing to the Ephesians who lived in a culture that was much like ours. The Ephesians had to be creative in order to spread Christ's love in an anti-Jesus culture. We will explore what grace looks like in our lives, homes, and classrooms. You will find practical application that you can take back to your classroom as you begin to live a grace filled life. We, Bonnie and Bethany, both believe that interactive classrooms increase student engagement and learning. Come join our interactive classroom and explore a biblical world through QR Codes, coloring activities, and hands on activities. You will love the resources provided for scripture memorization and find community through our active Facebook Group.

Some say they deserve their fate. But isn't everyone entitled to justice? Forensic psychologist Paula Maguire is in a race against time to solve a deadly crime in *THE SILENT DEAD*, the third novel in Claire McGowan's terrific, hard-hitting crime series. Doyle was one of five suspected bombers who caused the deaths of sixteen people. The remaining four are also missing and when a second body is found, decapitated, it's clear they are being killed by the same methods their victims suffered. Forensic psychologist Paula Maguire is assigned the case but she is up against the clock - both personally and professionally. With moral boundaries blurred between victim and perpetrator, will Paula be able to find those responsible? After all, even killers deserve justice What readers are saying about *The Silent Dead*: 'Great atmosphere - it's tense and chilling. I simply did not want to put this book down. Superb fast-paced plot and wonderful storytelling' 'A gripping story covering grief and frustration as it explores the moral dilemma of people failed by the system to may just be taking justice into their own hands. A great read' 'Absorbing story that constantly holds your attention. Steady, tense layering, building up to the nerve-wrecking end'

As the first significant overview of the work by artist Olivia Plender, this monograph navigates through the evolving attitudes to historical and contemporary forms of communication and education that her research-based practice has explored for the last ten years. From the reappraisal of Plender's project *Google Office* (2010), in which artistic agency meets Liberation Management, to rethinking of the Open University as a model where the educational role of television and its relation to the public was reconfigured, her work is a critical envisioning of labor's extensive influence; addressing the work ethic embedded into mainstream educational systems during the industrial era, and the alternative movements that placed creativity and the arts as central to an attempt at emancipation. In specially commissioned essays, as well as interviews, archival material, and new texts by the artist, this publication addresses the in-depth investigation of Plender's research and artwork into educational models and their relation to social organization. Copublished with Arnolfini; The Banff Centre; CCA: Centre for Contemporary Arts, Glasgow; and MK Gallery Contributors Angus Cameron, Maeve Connolly, Lars Bang Larsen, Olivia Plender, Tirdad Zolghadr

Rise Early, be Industrious

If you have been diagnosed with End-Stage Renal Failure, or any other Chronic Degenerative Disease, this book may be helpful in supporting yourself as a patient, a family member, or a friend whose personal life has been massively influenced by such a calamity. This book ?Living On The Edge,? was written not only to share the story of my real experiences as a kidney patient, but it also tells how my illness tremendously crushed my life, my career, my finances, my marriage, and my day-to-day choices. It also talks about my trials and tribulations, which really put me on the edge of losing my sanity. Along with my journey as a kidney patient, I learned the pitfalls and setbacks, a patient faces when dealing with the realities of doing peritoneal and hemodialysis. The risks a patient is subjected to by taking various medications with side effects which develop more health problems. This book also tells how I managed unwarranted stress, highs and lows; a patient is obligated to handle and manage financial responsibilities and healthcare insurances. I told my story in order beginning from the first event until the last. They are all based on my real experiences, to offer knowledge and strength, to keep you from becoming a victim of irresponsible healthcare employees or unethical medical practices. If you or a family member encounter medical negligence, I hope my story might aid in evaluating your own situation or cope with any catastrophe. Instead of you feeling depressed and hopeless, my story motivates you to stand strong and shelter yourself or a loved one from any storm.
