## The War on Freedom

Consumers no longer simply "buy stuff" -- they forge their entire identities around a carefully selected set of brands. Consequently, they must become active participants in the development and marketing of products. This book details the factors that contribute to this continuing revolution, and reveals how companies can leverage their customers as an integral part of their branding and marketing strategies. It contains cutting-edge content, written in a lively, conversational style.

The War On Freedom  
The 9/11 Conspiracies  
Were the U.S. invasions of Afghanistan and Iraq planned long before the tragedies of September 11, 2001? Why did many WTC survivors mention bombs? Why did normal

security measures consistently fail that day? Why has no one in government been fired or even reprimanded for failure to anticipate and prevent the attacks? For that matter, who was truly behind the strikes? Who and where is Osama bin Laden? What connects the bin Laden and Bush families? If the purpose of the perpetrators of 9/11 was to end traditional American freedoms, they may well have succeeded. Laws rushed through a Congress that never had a chance to read them while under a declared state of emergency have curtailed our freedoms.
