### **Parenting For Dummies**

From a modern-day Mary Poppins and the former star of TLC's *Take Home Nanny* comes a holistic and guilt-free approach to parenting children ages seven and under. Emma Jenner lives, teaches, and nannies by this philosophy: if parents are in control, they can enjoy their children more. And what could be more enjoyable than well-behaved, respectful, healthy, thriving kids? *Keep Calm and Parent On* effectively places parenting expert Emma Jenner on your shoulder, helping you see your child's behavior from an objective standpoint that puts you firmly in charge. Each chapter opens with a checklist of questions to ask yourself when you run into a specific problem, whether it's sleeping, nutrition, communication, manners, consequences, or self-esteem. Jenner then breaks down each checklist, explaining how bad behavior is really just a habit that needs to be corrected. By connecting the dots in all areas of your child's life, you can understand why he or she is acting out—and how to fix it. For example, the best discipline techniques in the world won't work if a child is sleep-deprived, and a child will not demonstrate good manners if communication is faulty and he doesn't understand what's expected of him. Each chapter also features handy sidebars, as well as instructive and memorable quizzes. A strong proponent of raising our expectations, Jenner shows how parents can do more by doing less for their children. With an interactive format and straightforward solutions, this invaluable guide is designed to give parents bite-size takeaways they can use immediately with their children. Jenner's blend of British and American parenting styles is more than advice; it is proof that all children are capable of behaving—and that you have the keys to unlocking their potential.

### **Parenting by The Book**

American families are sick of rudeness, aggression, and unruly behavior. They are searching for ways to cool down society -- and bring up kids who win at life by peaceful, compassionate, and rational means, rather than the opposite. This is the book that casts out a new lifeline to them and speaks positively to their deepest needs and yearnings. Explaining that kindness is the heart and core of civility and manners in any society, Letitia Baldrige, America's number one best-selling authority on manners, has finally written the book that millions have been waiting for: a road map to raising and guiding kids who succeed in life through decency and honor. "It all starts in the home," says Baldrige, as she shows parents and other concerned adults how to teach kids to: Gain respect and become leaders -- at home, at school, and in the larger world -- without becoming wimps or bullies. Defuse explosive situations with words and actions that turn hostility into harmony. Use conciliation instead of confrontation with peers, authority figures, and others. Be courteous and compassionate with family and friends and out in public while still standing up for themselves. Learn behaviors that will make them liked and respected and will make the world around them a better place as they grow up. And much more Baldrige accomplishes this using real-life examples of encounters between adults and young people and the day-to-day interactions between young peers -- at home, at school, and out in the world -- plus the compelling and often personal true stories and anecdotes that have made her other books so warm and conversational and loved by millions. In his longtime best-selling Book of Virtues, William Bennett showed us the values we should strive for to get life back on track again. In her book, Letitia Baldrige shows us how to apply those principles in everyday life, twenty-four hours a day -- and get results!

### **Parenting Matters**

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services.

This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

"Dishpan Dad: A Guy's Guide to Raising Infants, Toddlers and Preschoolers" was written by and for a stay-at-home dad, but it's a book for essentially any parent who has children under age 5. In more than 80 chapters, the book delves into issues unique to at-home dads: being surrounded by moms-whose husbands eye you with suspicion or derision-crises of self worth, cultural dogma, stereotypes, emotional and intellectual challenges and more. It also gets down to the business of raising mannered, well-behaved, resilient kids. In "Dishpan Dad," fathers will learn where to get good parenting advice-and where not to get it-how to avoid doing laundry, at least for a while, the importance of mouth breathing, why candy for breakfast is a bad idea, the importance of a manly diaper bag and how much time and effort it takes to get kids ready and out the door. There is more, of course. Lots more, all packaged in a book that's educational, fun and easy to read.

### **Twin Expectations**

Tom Perrotta's thirty-ish parents of young children are a varied and surprising bunch. There's Todd, the handsome stay-at-home dad dubbed "The Prom King" by the moms of the playground; Sarah, a lapsed feminist with a bisexual past, who seems to have stumbled into a traditional marriage; Richard, Sarah's husband, who has found himself more and more involved with a fantasy life on the internet than with the flesh and blood in his own house; and Mary Ann, who thinks she has it all figured out, down to scheduling a weekly roll in the hay with her husband, every Tuesday at 9pm. They all raise their kids in the kind of sleepy American suburb where nothing ever seems to happen—at least until one eventful summer, when a convicted child molester moves back to town, and two restless parents begin an affair that goes further than either of them could have imagined. Unexpectedly suspenseful, but written with all the fluency and dark humor of Perrotta's previous novels, *Little Children* exposes the adult dramas unfolding amidst the swingsets and slides of an ordinary American playground.
