Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

## **Feminism and the Politics of Travel After the Enlightenment**

I am pleased to present a work which marks a milestone in the history of public works and, more precisely, in that of permanent structures—a comprehensive dictionary of Civil Engineering terms. Since the beginning of time, Man has always tried to find a means to clear the obstacles which nature erected to displace him. With the first tree trunk thrown across a river, man sought to improve the crossing structure. After the invention of the wheel, and to satisfy his thirst for conquest (Roman ways), and comfort (aqueducts), man built bridges that became a preremptory necessity to move quickly. Thus, Man started to build wooden and masonry works. With the passing centuries, the builders became masters in the art of building masonry works. Then came the Industrial Revolution and the advent of the steel (1864), which was closely followed by the invention of the reinforced concrete (1855). The need for railways and improving the road network inspired great works of crossing such as viaducts and tunnels. The boom of the railway network and the development of the car required the construction of an increasing number of new structures. This phenomenon continues today with hundreds of structures built each year throughout the world.

coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert George Sand, Robyn Davidson, and Sara Wheeler.

For most visitors interested in the outdoors, Acadia National Park on Mount Desert Island is the top destination. It has more than 50 miles of groomed gravel carriage roads, where motorized traffic is banned. Nearly 120 miles of hiking trails traverse seven major barren mountaintops. There is much to see and do here, and plenty of places to explore. The island's many lakes invite paddlers and swimmers of all skill levels. Pocket cobblestone beaches in hidden coves await discovery by those who wish to avoid the crowds at Sand Beach. With thousands of motel rooms, a similar quantity of campsites, and plenty of private cottages and cabins to rent, Mount Desert Island easily accommodates the throngs of visitors, although traffic can get heavy in late July and in August. Towns surrounding Acadia brim with galleries and shops offering interesting wares from around the world. Bar Harbor alone boasts more than

100 restaurants. While many come back year after year to stroll Bar Harbor's shore path, gazing out at some of the more than 40 ocean liners that visit each year, others prefer to visit more traditional fishing villages such as Bass Harbor. Elsewhere along the coast in Hancock and Washington Counties you will find picturesque fishing villages. To the west sits Castine, home to the Maine Maritime Academy and several historic sites. Just south is Deer Isle and Stonington, both home to busy commercial harbors bustling with lobster and fishing boats. Here, more and more galleries are tucked into the weathered buildings every year. Ellsworth is a major commercial center. Still, just a few miles from the inviting Main Street area of downtown, the waters of Green, Graham and Branch Lakes are popular recreational destinations. One of the undiscovered gems of this region is Schoodic Point, near Winter Harbor. Schoodic is part of Acadia National Park, and offers spectacular scenery and rough surf crashing into rocks on stormy days. Here is the most detailed guide to this unforgettable region of Maine. It is loaded with maps and color photographs as well."
