Internationally bestselling financial advisor David Bach's Automatic Millionaire promotes a revolutionary system for making even the most undisciplined money managers rich. The Automatic Millionaire shows readers how to change their financial practices and even their lives, the simple and automatic way. The book begins with a powerful story about an average Canadian couple — he's a low-level manager, she's a beautician — whose joint income never exceeds \$55,000 a year, yet who somehow manage to own two homes debt-free, put two kids through college, and retire at fifty-five with more than \$1 million in savings. The incredible message Bach delivers is that the key to getting rich is "automating" the way to wealth by "paying yourself first," using automatic funded retirement accounts and money market accounts to secure the future and pay for the present. A concise guide that's a fixture on bestseller lists, The Automatic Millionaire introduces readers to a system that is powerful and simple — an automatically effective, life-changing system that delivers. Do it once, the rest is automatic.

Here is a single-sit read than can change the course of your retirement. Written by Dr. Teresa Ghilarducci, an economics professor, a retirement and savings specialist, and a trustee to two retiree health-care trusts worth over \$54 billion, How to Retire with Enough Money cuts through the confusion, misinformation, and bad policy-making that keeps us spending or saving poorly. It begins with acknowledging what a person or household actually needs to have saved—the rule of thumb is eight to ten times your annual salary before retirement—and how much to expect from Social Security. And then it delivers the basic principles that will make the money grow, including a dozen good ideas to get current expenses under control. Why to “get rid of your guy”—those for-fee (or hidden-fee) financial planners that suck up valuable assets. Why it’s always better to pay off a loan or a mortgage. There are no gimmicks, no magical thinking—just an easy-to-follow program that works.

Retire Early, Retire Rich

Your Money Or Your Life

I wrote this book as a testimony of how property investing has changed my life in just over three years. Very few people think outside the square. They are caught up in 'the rate race' and just keep living the same way, year after year. However, there are some individuals who try to break away from this cycle of following the crowd. They are fed up with this miserable existence and explore ways to break out of this situation. I was once caught up in this very situation above before 2005. In 2005, I decided that I had enough of this living and economic conditions. I had to find ways to break free of this miserable existence and move up the economic ladder. I also wanted to be financially free. I wanted to have more money to retire early. I can say that I'm half-way there. In the next five years, I will have all the properties to complete my portfolio. My aim is to have a portfolio of 6-8 investments, most returning positive incomes.

Nice Girls Don't Get Rich

Felix Dennis is an expert at proving people wrong. Starting as a college dropout with no family money, he created a publishing empire, founded Maxim magazine, made himself one of the richest people in the UK, and had a blast in the process. How to Get Rich is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. He merely wants to help people embrace entrepreneurship, and to share lessons he learned the hard way. He reveals, for example, why a regular paycheck is like crack cocaine; why great ideas are vastly overrated; and why "ownership isn't the important thing, it's the only thing."
