The very best of Italian cooking with Michela, Romina and Emanuela in Simply Italian. 'Wales and Italy, family and food: for us, these four things are inextricably linked and at the root of our upbringing.

Whether at the family home in Wales or when we spend holidays in the small hilltop village we are from in northern Italy, we have always heard Dad say that 'la tavola' (the table) is the central focus of our lives. It's where we cook, eat and socialise as a family.' Michela, Emanuela and Romina Chiappa grew up in Wales in the heart of a close-knit Italian community where food was always at the centre of family and social gatherings. Whether searching for porcini in the hills near their parents' home, or making pasta for Christmas Eve with the whole family, to sharing food at the annual Welsh-Italian summer picnic, the three sisters have been immersed in the Italian way of cooking all their lives. In their first cookbook they share their cherished family recipes, including all the pasta dishes recently seen in their Channel 4 series *Simply Italian*. From snacks, soups and salads, to mains, side dishes and desserts, *Simply Italian* brings you good, simple, fresh Italian food. Michela works as an agent in a sports management company, as well running a coffee and pizza café in Cardiff with her husband. Of the sisters, she's the risotto expert and also loves to make pasta sauces. Romina works for a luxury fashion brand in London, and loves to bake for friends and family. Emanuela runs an online business selling bespoke homemade gifts for children, and works as a nanny. She loves to cook time-consuming meals and entertain large groups.

Maddison James is about to discover some truths about the world. Firstly supernatural exist. WTF? Secondly she is one, even though no one seems to know exactly what kind. Double WTF. Thirdly she's about to go back to school. Well, things just got a little more interesting. The Supernatural Academy is where shifters, vampires, magic users, and fey are educated. Where they are taught about their abilities, and how to function in the human world. Maddison already has the human part down, but this supernatural thing is an entirely new dangerous game. Example one: mean girls who can actually turn you into a frog. Example two: Asher Locke, a god at the Academy. Not literally well, who knows for sure. He certainly acts the part, as do all of his minions who worship him. Asher drives her crazy, because apparently gorgeous and arrogant is her thing. Sparks fly between them, and the more they're thrown together, the more Asher is determined to figure out what's been blocking her abilities. Until the moment the truth is revealed, and they find out nothing in this supernatural world is what they thought. Including each other. Supernatural Academy is 105k words, full length urban fantasy story. Recommended 17+ due to language and sex scenes.

of Worcester 'Will assist practitioner researchers to develop a profound and critical understanding of this approach' -Professor Marion Jones, Liverpool John Moores University This hands-on and user-friendly book uses illustrative case studies to demonstrate and explore the potential for change in real social situations. This book seeks to assert the academic integrity of action research and to de-mystify the process. Each chapter includes: - a 'how to' section based on concrete examples and dilemmas - commentary that relates examples to the broader field - a discussion of the underlying theoretical approach - discussion and exploration of quality issues - discussion of ethical and pragmatic decision-making The mix of theoretical grounding and focus on real issues will be of benefit to Master's level or advanced undergraduate students on Education and Research Methods courses or those undertaking Action Research as part of professional development activities. Mary McAteer is Director of the Mathematics Specialist Teacher (MaST) programme at Edge Hill University Research Methods in Education series: Each book in this series maps the territory of a key research approach or topic in order to help readers progress from beginner to advanced researcher. Each book aims to provide a definitive, market-leading overview and to present a blend of theory and practice with a critical edge. All titles in the series are written for Master's-level students anywhere and are intended to be useful to the many diverse constituencies interested in research on education and related areas. Finalist for the National Book Award for Fiction
“[These stories] vibrate with originality, queerness, sensuality and the strange.”—Roxane Gay “In these formally brilliant and emotionally charged tales, Machado gives literal shape to women’s memories and hunger and desire. I couldn’t put it down.”—Karen Russell In *Her Body and Other Parties*, Carmen Maria Machado blithely demolishes the arbitrary borders between psychological realism and science fiction, comedy and horror, fantasy and fabulism. While her work has earned her comparisons to Karen Russell and Kelly Link, she has a voice that is all her own. In this electric and provocative debut, Machado bends genre to shape startling narratives that map the realities of women’s lives and the violence visited upon their bodies. A wife refuses her husband’s entreaties to remove the green ribbon from around her neck. A woman recounts her sexual encounters as a plague slowly consumes humanity. A salesclerk in a mall makes a horrifying discovery within the seams of the store’s prom dresses. One woman’s surgery-induced weight loss results in an unwanted houseguest. And in the bravura novella “Especially Heinous,” Machado reimagines every

episode of Law & Order: Special Victims Unit, a show we naïvely assumed had shown it all, generating a phantasmagoric police procedural full of doppelgängers, ghosts, and girls with bells for eyes. Earthy and otherworldly, antic and sexy, queer and caustic, comic and deadly serious, Her Body and Other Parties swings from horrific violence to the most exquisite sentiment. In their explosive originality, these stories enlarge the possibilities of contemporary fiction.

From the Wall Street Journal bestselling author of the Kingfountain Series comes the first novel in a bold and richly imagined world. There is a world of opposites. The privileged live in sky manors held aloft by a secretive magic known only as the Mysteries. Below, the earthbound poor are forced into factory work to maintain the engine of commerce. Only the

wealthy can afford to learn the Mysteries, and they use their knowledge to further lock their hold on society. Cettie Pratt is a waif doomed to the world below, until an admiral attempts to adopt her. But in her new home in the clouds, not everyone treats her as one of the family. Sera Fitzempress is a princess born into power. She yearns to meet the orphan girl she has heard so much about, but her father deems the girl unworthy of his daughter's curiosity. Neither girl feels that she belongs. Each seeks to break free of imposed rules. Now, as Cettie dreams of living above and as Sera is drawn to the world below, they will follow the paths of their own choosing. But both girls will be needed for the coming storm that threatens to overturn both their worlds.

Optical Media

Friedrich Kittler's lecture series provides a concise history of optical media from Renaissance linear perspective to late twentieth-century computer graphics. He begins by looking at European painting since the Renaissance in order to discern the principles according to which modern optical perception was organised. Kittler also discusses the development of various mechanical devices, like the camera obscura and the laterna magica, which were

Get Free Retorika Masining Na Pagpapahayag Cecilia S Austero

closely connected to the printing press and which played a pivotal role in the media war between the Reformation and the Counterreformation. After examining this history, Kittler then addresses the ways in which images were first stored and made to move through the development of photography and film. Kittler discusses the competitive relationship between photography and painting as well as between film and theater, as innovations like the Baroque proscenium or "picture-frame" stage evolved from elements that would later constitute cinema. The central question, however, is the impact of film on the ancient monopoly of writing, as it not only provoked new forms of competition for novelists but also fundamentally altered the status of books. In the final section, Kittler examines the development of electrical telecommunications and electronic image processing from television to computer simulations. In short, these lectures provide a comprehensive introduction to the history of image production, which is indispensable for anyone wishing to understand the prevailing audiovisual conditions of contemporary culture.

Children who Read Early

Susan Hill—the Man Booker Prize nominee and winner of the Whitbread, Somerset Maugham, and John Llewellyn Rhys awards—returns with a gripping new novel, the latest chapter in one of the most acclaimed mystery series of our time. From the outside, the cathedral town of Lafferton seems idyllic, but in many ways it is just like any other place. It suffers from the same kinds of crime, is subject to the same pressures from a rapidly changing world, and has the same hopes and fears as any number of towns up and down the land. When Simon Serrailer is called in by Lafferton's new Chief Constable, Kieran Bright, he is met by two plainclothes officers, who ask him to take the principal role in a difficult, potentially dangerous undercover operation. He must leave town immediately, without telling anyone—not even his girlfriend Rachel, who has only just moved in with him. Meanwhile, Simon's sister Cat is facing difficult choices at work, as Lafferton's hospice closes its bedded units—and at home, as her daughter is presented with a glittering opportunity that they would have to struggle to afford. And all is not well with Simon and Cat's stepmother, Judith, either. To complete his special operation, Simon must inhabit the mind of the worst kind of criminal. This takes its toll on Simon and—as the investigation unfolds—also on the town and some of its most respected citizens.

Businesses, institutions, families, and individuals rely on security measures to keep themselves and their assets safe. In "The Art and Science of Security," author Joel Jesus M. Supan provides a practical and effective resource to show how the public can protect themselves against dangers and hazards. He helps leaders understand the real meaning of security—one of their primary responsibilities. "The Art and Science of Security" teaches and guides team leaders on how to preserve and protect the team's resources in order to achieve their objectives. Supan, with more than twenty-five years of experience in the security industry, provides a thorough understanding of the principles and aspects of a wide range of security concerns, including personnel, informational,

operational, environmental, physical, and reputational. It discusses the guard system, details how to develop a corporate security program, shows how to conduct a security assessment, and tells how to manage a crisis. Supan demonstrates that the need for security goes beyond what is generally held to be the domain of guards, law enforcement agencies, and the military. Security is an important facet of every person's well-being.

ancient tales for a new generation of readers and performers. Written by Arabic writers from tales gathered in India, Persia and across the great Arab Empire, the One Thousand and One Nights are the never-ending stories told by Shahrazad night after night, under sentence of death, to the king Shahrayar who has vowed to marry a virgin every night and kill her in the morning. Shahrazad prolongs her life by keeping the King engrossed in a web of stories that never ends - a fascinating kaleidoscope of life, love and destiny. The tales that unfold are erotic, violent, supernatural and endlessly surprising. The web of tales woven by Shahrazad were exoticised and bowdlerised in the West under the title of the Arabian Nights. This adaptation unearths the true character of One Thousand and One Nights as it is in the oldest Arabic manuscripts. In turns erotic, brutal, witty, poetic and complex, the tales tell of love and marriage, power and punishment, rich and poor, and the endless trials and uncertainties of fate. The great cities and thriving trade routes of the Islamic world provide the setting for these stories that employ supernatural mystery and intense realism to portray the deep and endless drama of human experience.
