Understanding Development

This is a thoroughly revised edition of the “Constructive Programme” which I first wrote in 1941. The items included in it have not been arranged in any order, certainly not in the order of their importance. When the reader discovers that a particular subject though important in itself in terms of Independence does not find place in the programme, he should know that the omission is not intentional. He should unhesitatingly add to my list and let me know. My list does not pretend to be exhaustive; it is merely illustrative. The reader will see several new and important additions.

The course of south Indian history from pre-historic times to the contemporary era is a complex narrative with many interpretations. Reflecting recent advances in the study of the region, this volume provides an assessment of the events and socio-cultural development of south India through a comprehensive analysis of its historical trajectory. Investigating the region's states and configurations, this book covers a wide range of topics that include the origins of the early inhabitants, formation of the ancient kingdoms, advancement of agriculture, new religious movements based on bhakti, and consolidation of centralized states in the medieval period. It further explores the growth of industries in relation to the development of East-West maritime trade in the Indian Ocean as well as the wave of Islamicization and the course of commercial relations with various European countries. The book then goes on to discuss the advent of early-modern state rule, impact of the raiyatwari system introduced by the British, debates about whether the region's economy developed or deteriorated during the eighteenth century, decline of matriliney in Kerala, emergence of the Dravidian Movement, and the intertwining of politics with contemporary popular culture. Well illustrated with maps and images, and incorporating new archaeological evidence and historiography, this volume presents new perspectives on a gamut of issues relating to communities, languages, and cultures of a macro-region that continues to fascinate scholars and readers alike.

Mental Ability for NTSE & Olympiad Exams for Class 10 (Quick Start for Class 6, 7, 8, & 9) 2nd Edition

The Shadow Club starts simply enough: the kids who are tired of being second-best get together and, for the first time, talk about how they feel. But soon the members decide to play practical jokes on the first-place winners they envy, and things begin to spin dangerously out of control. "This is a provocative novel . . . The plot is ingeniously simple and the course of events compelling. Brisk enough to snag a popular audience, but forceful in impact, it will leave readers thinking." (Booklist, starred review)

Lakhmir Singh's Science for Class 8

After nearly 60 years, with descriptions of more than 270 species and almost 200 illustrations, Textbook of Dendrology continues to remain a top resource for taxonomic and silvicultural information on North American trees. In this new edition, material throughout the text has been updated and expanded to provide current information on tree sizes, damaging diseases and insect pest, economic uses, and silvics. Because of growing concern for the environment, it is even more necessary for students to know and understand the importance of conservation. Many of these issues are incorporated throughout the book.

The Cat and the Pain-Killer

Whoo-whooh-whoohoo cried the wind as it swept down from the Himalayan snows The menacing wind rattled windows, choked chimneys and blew away clothes as it loomed over the little village next to Haunted Hill, where Usha, Suresh and Binya lived. It was even more ominous the day Usha was on her way back from the bazaar. A deep rumble echoed and a sudden flash of lightning lit up the hill as heavy pellets of rain came down in quick succession. Usha was forced to take shelter in the ruins of Haunted Hill that stood before her, grim and forbidding. As the tin sheet above groaned and clattered and streaks of lightning lit up the walls, Usha saw two small figures crouching in the disused fireplace. Then everything was dark again . . . A gritty, hair-raising story about friendship, courage and survival from India's favourite teller of tales, this stunning edition is an absolute must-have to introduce young readers to the magic of Ruskin Bond's craft.

History of Modern India presents an authoritative overview of the history of what was known as British India. The text is largely based on the author's research on nationalism and colonialism in India and also draws from the works of eminent historians of the period. Challenging and revising colonial and nationalist interpretations of history, this book moves away from a largely political narrative to a social, economic and religious history of modern India. It explains how conditions in India during the eighteenth century helped the British East India Company establish its rule in India. It also gives us important insights into the primary aim of colonial rule which was the economic exploitation of India through trade and investment. The topics are arranged thematically in order to showcase the various forces that went into the making of independent India. However, in the entire arrangement of themes, the chronology of the period is enmeshed innovatively with the various forces that evolved both as a cause and effect of British imperialist rule of the subcontinent. The book also provides a detailed account of the nationalist movement and introduces us to the contributions of different individuals who were behind the nationalist movement. A comprehensive textbook for students of history and interested readers, History of Modern India is essential reading for a broad based understanding of the making of modern India.

The pawnbroker Jabez Wilson comes to Sherlock Holmes because his suspicions for his weird but well-paid job got bigger. He was actually hired solely because of his flamboyant red hair. Wilson had to copy the Encyclopaedia Britannica four hours a day but suddenly the office was closed without any explanation. Will Holmes find out what the Red-Headed League was aiming? "The Red-Headed League" is part of "The Adventures of Sherlock Holmes". Sir Arthur Conan Doyle (1859-1930) was born in Scotland and studied medicine at the University of Edinburgh. After his studies, he worked as a ship's surgeon on various boats. During the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction.
