Chapter 1 Excerpt "Social Media Marketing 2020 : The Ultimate Guide to Boosting Your Business Through Social Media Marketing Efforts in 2020 "The Constantly Changing World of Social Media

Just a few years ago, running a successful business did not demand an online presence. With the rise of the internet, entrepreneurs began debating among themselves whether or not they should have an online presence. As a matter of fact, it was something optional. Whether you wanted to turn to the internet or merely run an ordinary business, it was up to you. Back in the halcyon days, business owners had the notion that running an online store was too expensive and that their target market would not bother searching them over the internet. Well, today, things have drastically changed. The public is more aware of the products and services that they need. They are more knowledgeable than ever before regarding what they need and what they don't. What's worse, they have fingertip information regarding the brands that they should go for.

Customers are now even aware of existing brand competition in the market. Thanks to the internet, they can conveniently shop from their homes. Do you remember word of mouth marketing? Back in the golden days, local stores could depend on word of mouth marketing as a way of getting information about their products and services to their potential market. This meant that they only needed to provide quality products accompanied by excellent customer care services. After this, they hoped that customers loved their products/services. Also, they were quite confident that through word of mouth, their customers would appreciate them in front of their neighbors. When customers were not happy, it was an unfortunate thing for these businesses. Nonetheless, they were lucky enough that the message was only contained within their local surroundings. In any case, the negativity was soon forgotten. After all, folks have short memories.
