### Girl Land

A perennial favorite, Dr. Seuss's wonderfully wise graduation speech is the perfect send-off for children starting out in the world, be they nursery school, high school, or college grads! From soaring to high heights and seeing great sights to being left in a lurch on a prickly perch, Dr. Seuss addresses life's ups and downs with his trademark humorous verse and illustrations, while encouraging readers to find the success that lies within. In a starred review, Booklist notes: "Seuss's message is simple but never sappy: life may be a 'Great Balancing Act,' but through it all 'There's fun to be done.'" This Read & Listen edition contains audio narration.

### I Wish You More

## **Make Good Art**

In the kingdom of Axaria, a darkness rises. Some call it a monster, laying waste to the villagers and their homes. Some say it is an invulnerable demon summoned from the deepest abysses of the Immortal Realm. Many soldiers from the royal guard are sent out to hunt it down. Not one has ever returned. When Asterin Faelenhart, Princess of Axaria and heir to the throne, discovers that she may hold the key to defeating the mysterious demon terrorizing her kingdom, she vows not to rest until the beast is slain. With the help of her friends and the powers she wields—though has yet to fully understand—Asterin sets out to complete a single task. The task that countless trained soldiers have failed. To kill it. But as they hunt for the demon, they unearth a plot to assassinate the princess herself instead. Asterin and her companions begin to wonder how much of their lives have been lies, especially when they realize that the center of the web of deceit might very well be themselves. With no one else to turn to, they are forced to decide just how much they are willing to sacrifice to protect the only world they have ever known. That is if the demon doesn't get to them first. From young author Coco Ma comes a dazzling new tale of adventure, power, and betrayal, weaving together a stunning world of magic with a killer cast in an explosive, unforgettable debut.

## **If God Gave Your Graduation Speech**

The inspiring #1 New York Times bestseller that "should be read by every leader in America." (Wall Street Journal)  
"Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." --Washington Post  
"Superb, smart, and succinct." --Forbes  
BASED ON THE INCREDIBLE GRADUATION SPEECH WITH OVER 14 MILLION VIEWS ON YOUTUBE  
If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves—and the world—for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments.

## **The Everything New Teacher Book**

Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

## **Second Language Students in Mainstream Classrooms**

A profound expansion of David McCullough, Jr.'s popular commencement speech—a call to arms against a prevailing, narrow, conception of success viewed by millions on YouTube—You Are (Not) Special is a love letter to students and parents as well as a guide to a truly fulfilling, happy life. Children today, says David McCullough—high school English teacher, father of four, and son and namesake of the famous historian—are being encouraged to sacrifice passionate engagement with life for specious notions of success. The intense pressure to excel discourages kids from taking chances, failing, and learning empathy and self-confidence from those failures. In You Are (Not) Special, McCullough elaborates on his now-famous speech exploring how, for what purpose, and for whose sake, we're raising our kids. With wry, affectionate humor, McCullough takes on hovering parents, ineffectual schools, professional college prep, electronic distractions, club sports, and generally the manifestations, and the applications and consequences of privilege. By acknowledging that the world is indifferent to them, McCullough takes pressure off of students to be extraordinary achievers and instead exhorts them to roll up their sleeves and do something useful with their advantages.

## **What Your First Grader Needs to Know (Revised and Updated)**

### **Make Your Bed**

\* USA Today and Wall Street Journal best seller\* Be inspired by the book behind the graduation speech by Dr. Rick Rigsby's—now with 100+ million views on Facebook and YouTube. After his wife died, Rick Rigsby was ready to give up. The bare minimum was good enough. Rigsby was content to go through the motions, living out his life as a shell of himself. But then he remembered the lessons his father taught him years before - something insanely simple, yet incredibly profound. These lessons weren't in advanced mathematics or the secrets of the stock market. They were quite straightforward, in fact, for Rigsby's father never made it through third grade. But if this uneducated man's instructions were powerful enough to produce a Ph.D. and a judge - imagine what they can do for you. Join Rigsby as he dusts off time-tested beliefs and finds brilliantly simple answers to modern society's questions. In a magnificent testament to the "Greatest Generation" which gave so much and asked so little in return, Lessons from a Third Grade Dropout will challenge you while reigniting your passion to lead a truly fulfilling life. After all, it's never too late to learn a little bit more about life - just ask the third-grade dropout.

Mrs. Hartwell's students worry that their teacher will miss them while they are gone for the summer. The class comes up with a way to make sure Mrs. Hartwell won't be too sad. But Mrs. Hartwell and the other teachers have some plans of their own. Once again Julie Danneberg and Judy Love bring to life the crazy antics of Mrs. Hartwell and her class and show that teachers and students are more alike than we sometimes think.

## **All-about-me Web, Grades 3-6**

Over 400 schools throughout the world have adopted Invitational Education to foster innovative thinking, sustained positive action, and the creation of socially and emotionally safe schools. As educators are now involved in an epic rethinking of what they do and how they do it, Developing Inviting Schools provides a dependable guide for improvement. Written by two of the creators of the Inviting Schools movement--Purkey and Novak--along with Joan Fretz, who works with public schools, this book updates and extends the construct of invitational learning to assist today's teachers and leaders. The authors present a simple but not simplistic framework that offers real-life responses to such challenges as faculty morale, school safety, conflict management, community involvement, student behavior, motivation, and school success. Use this resource to create, sustain, and enhance the social and emotional climate of your school. Book Features: A defensible theory of practice based on the community values of intentional care, respect, trust, and optimism. A deep dive into the basic assumptions that guide life in schools. Guidance for developing and maintaining positive school climate initiatives. Practical examples of how Invitational Education works in real-life situations. A fresh and innovative approach to a positive social and emotional learning environment.

## **Developing Inviting Schools**

"We cannot change the cards we are dealt, just how we play the hand."---Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

A chilling, lavishly illustrated who's who of the most despicable people ever to walk the earth, featuring stories from the

Lore podcast—now a streaming television series—including “Black Stockings,” “Half-Hanged,” and “The Castle,” as well as rare material. Some monsters are figments of our imagination. Others are as real as flesh and blood: humans who may look like us, who may walk among us, often unnoticed, occasionally even admired—but whose evil deeds and secret lives, once revealed, mark them as something utterly wicked. In this illustrated volume from the host of the hit podcast Lore, you’ll find tales of infamous characters whose veins ran with ice water and whose crimes remind us that truth can be more terrifying than fiction. Aaron Mahnke introduces us to William Brodie, a renowned Scottish cabinetmaker who used his professional expertise to prey on the citizens of Edinburgh and whose rampant criminality behind a veneer of social respectability inspired Robert Louis Stevenson’s classic novella *Strange Case of Dr. Jekyll and Mr. Hyde*. Then there’s H. H. Holmes, a relentless and elusive con artist who became best known as the terror of Chicago’s 1893 World’s Fair when unwitting guests were welcomed into his “hotel” of horrors . . . never to be seen again. And no rogues’ gallery could leave out Bela Kiss, the Hungarian tinsmith with a taste for the occult and a collection of gasoline drums with women’s bodies inside. Brimming with accounts of history’s most heinous real-life fiends, this riveting best-of-the-worst roundup will haunt your thoughts, chill your bones, and leave you wondering if there are mortal monsters lurking even closer than you think.

## **The Class Size Debate**

No Regrets Parenting is a book for busy parents in our busy times. Juggling family and professional lives is not a course taught in high school or college--many parents find the challenges of being all things to all people daunting. This theme is ubiquitous in today's culture--movies, theatre, books, magazine features, and human interest news stories all find the challenge of raising children to be prime fodder for audiences. How to do it all? How to stay sane while trying to do it all? No Regrets Parenting teaches parents how to experience the joy and depth of the parenting experience amidst the chaos and choreography of daily routines. Car pool, bath time, soccer practice, homework, dinner hour, and sleepovers all become more than just obligations and hurdles to overcome to get through the day. They are opportunities for intimate and meaningful time--quality time--with young kids. It's not how much time you have with your kids, but how you spend that time that matters in the life and legacy of a young family. No Regrets Parenting readjusts parents' perspectives and priorities, helping them find the time to do it all and feel good about your kids' childhood. There is a simple, single truth for every parent. Your kids need you to be there. They need to see who you are and how you live your life. And, in return, they will help you to see who you are and how you should be living your life. For all of that to happen, parents need time with their kids. Memorable and meaningful time. No Regrets Parenting is about time. Finding enough of it and making the most of it.

The physical, emotional, and social milestones of every girl's life: what we've lost and gained in the 21st century. Caitlin Flanagan's essays about marriage, sex, and families have sparked national debates. Now she turns her attention to girls: the biological and cultural milestones for girls today, and how they shape a girl's sense of herself. The transition from girl to woman is an experience that has changed radically over the generations: everything from how a girl learns about her period to how she expects to be treated by boys and men. Girls today observe these passages very differently, and yet the landmarks themselves have remained remarkably constant-proof, Flanagan believes, of their significance. In a world where protections of girls' privacy and personal freedom seem to disappear every day, the ultimate challenge modern parents face is finding a way to defend both.

## **The Leader in Me**

Drawing upon a generation of research on self-fulfilling prophecies in education, *Reaching Higher* argues that our expectations of children are often too low. Weinstein shows that children typed early as "not very smart" can go on to accomplish far more than is expected of them by an educational system with too narrow a definition of ability. She faults the system, pointing out that teachers themselves are harnessed by policies that do not enable them to reach higher for all children.

## **Wonder**

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

Drawing from stories of her own post-graduate years, the world famous author addresses some of life's most important questions with acuity and emotional force.

## **No Regrets Parenting**

Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease,

colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. Educating the Student Body makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

In this rare peak into the personal life of the author of numerous bestselling novels, gain an understanding of David Foster Wallace and how he became the man that he was. Only once did David Foster Wallace give a public talk on his views on life, during a commencement address given in 2005 at Kenyon College. The speech is reprinted for the first time in book form in *This is Water*. How does one keep from going through their comfortable, prosperous adult life unconsciously? How do we get ourselves out of the foreground of our thoughts and achieve compassion? The speech captures Wallace's electric intellect as well as his grace in attention to others. After his death, it became a treasured piece of writing reprinted in *The Wall Street Journal* and the *London Times*, commented on endlessly in blogs, and emailed from friend to friend. Writing with his one-of-a-kind blend of causal humor, exacting intellect, and practical philosophy, David Foster Wallace probes the challenges of daily living and offers advice that renews us with every reading.
