The Lonely Ones

The 1964 murder of a nationally known cancer researcher sets the stage for this gripping exposé of medical professionals enmeshed in covert government operations over the course of three decades. Following a trail of police records, FBI files, cancer statistics, and medical journals, this revealing book presents evidence of a web of medical secret-keeping that began with the handling of evidence in the JFK assassination and continued apace, sweeping doctors into cover-ups of cancer outbreaks, contaminated polio vaccine, the arrival of the AIDS virus, and biological weapon research using infected monkeys. This new edition includes a foreword from author Jim Marr.

The Lonely Warrior

In June 2005 four US Navy SEALs left their base in Afghanistan for the Pakistani border. Their mission was to capture or kill a notorious al-Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs was alive. This is the story of team leader Marcus Luttrell, the sole survivor of Operation Redwing. Blasted unconscious by a rocket grenade, blown over a cliff, but still

armed and still breathing, Luttrell endured four desperate days fighting the al-Qaeda assassins sent to kill him, before finding unlikely sanctuary with a Pashtun tribe who risked everything to protect him from the circling Taliban killers.

A brilliant virtuoso of violence, Richard Marcinko rose through Navy ranks to create and command one of this country's most elite and classified counterterrorist units, SEAL TEAM SIX. Now this thirty-year veteran recounts the secret missions and Special Warfare madness of his worldwide military career -- and the riveting truth about the top-secret Navy SEALs. Marcinko was almost inhumanly tough, and proved it on hair-raising missions across Vietnam and a war-torn world: blowing up supply junks, charging through minefields, jumping at 19,000 feet with a chute that wouldn't open, fighting hand-to-hand in a hellhole jungle. For the Pentagon, he organized the Navy's first counterterrorist unit: the legendary SEAL TEAM SIX, which went on classified missions from Central America to the Middle East, the North Sea, Africa and beyond. Then Marcinko was tapped to create Red Cell, a dirty-dozen team of the military's most accomplished and decorated counterterrorists. Their unbelievable job was to test the defenses of the Navy's most secure facilities and installations. The result was predictable: all hell broke loose. Here is the hero who saw beyond the blood to ultimate justice -- and the decorated warrior who became such a maverick that the Navy brass wanted his head on a pole, and for a time, got it. Richard Marcinko -- ROGUE WARRIOR.

Where the spiritual world intersects with the political world This book is about medicine; the antidote and prescription for staying the plague of ignorance overcoming the US and the world. It is about the restoration, if not for the soul of a nation, at least the restored mind of individuals. It is a gathering of missing pieces to a puzzle extracted from the annals of time. It is a crystal clear picture painted from the heavens, an eye salve for healing smoke-filled eyes and the restoration of faraway vision. As the sands of time dwindle, history has played out exposing hidden pieces to a great prophetic puzzle. The fog of religious doctrine long shrouding short-sighted minds has lifted. Men can see clearly now, as long standing prophetic theories are exposed by the purifying light of the real facts. New York City is the story world of the great intrigue and holds the clues to a

remarkable story. Why? Because NYC is the Citadel of world commerce, the home state of the Trump-eter, but most importantly it is the residence of the Great Beast; the United Nations, the nerve center for the globalization of the planet earth. All the pieces fit together tightly, in high definition, in the DEEP STATE PROPHECY AND THE LAST TRUMP.

2019 Reprint of 1943 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition software. This work attempted to fill the need for a presentation of real, modern, scientific psychology so that it could be understood by the average American enlisted man during World War II. It was intended so that every soldier who reads it should understand and use more effectively those most complicated "instrumentalities of war," that is, his own human reactions. Many of the preeminent psychologists of the era contributed chapters. Profusely illustrated.

A young girl's disappearance rocks a community and a family in this stirring examination of grief, faith, justice, and the atrocities of war from Joyce Carol Oates, "one of the great artistic forces of our time" (The Nation) Zeno Mayfield's daughter has disappeared into the night, gone missing in the wilds of the Adirondacks. But when the community of Carthage joins a father's frantic search for the girl, they discover the unlikeliest of suspects—a decorated Iraq War veteran with close ties to the Mayfield family. As grisly evidence mounts against the troubled war hero, the family must wrestle with the possibility of having lost a daughter forever. Carthage plunges us deep into the psyche of a wounded young corporal haunted by unspeakable acts of wartime aggression, while unraveling the story of a disaffected young girl whose exile from her family may have come long before her disappearance. Dark and riveting, Carthage is a powerful addition to the Joyce Carol Oates canon, one that explores the human capacity for violence, love, and forgiveness, and asks if it's ever truly possible to come home again.

Thirteen Pieces of the Jigsaw

Why are there so many divisions America? What can we do to fix these divisions that are tearing the U.S. apart? FRACTURED AMERICA discusses these many divisions and how to fix them. It begins by looking at the first racial divide going back to Civil War times. Then, it fast forwards to discuss the present conflicts, such as the controversy over the killings of blacks by cops and the Black Lives Matter movement. It describes the difficulty of ending segregation and ending or delaying affirmative action. Additionally, the book points out other divides based on: - geography and politics, including the nationality and language divides caused by undocumented immigrants, - the North-South divide, - the division between the Coasts and Middle America, - rural and urban American differences, - conflicts between different ethnic groups, - lifestyles of younger and older generations. - the income inequality between the rich and poor, which is getting wider. The book concludes with some suggestions for reforming the system. These are fixes that are desperately needed, as uncivility and violence between groups are getting

worse -- unless we do something to create a new unity in the U.S. This book will help you think of ways to heal the growing divisions.

A Curse So Dark and Lonely

Twenty-five years after publication of *The Shadows of Power*, James Perloff returns to the venue of political history, and takes you where the mass media won't. Who benefited from the mysterious sinking of the USS Maine? Why did President Woodrow Wilson order the manifest of the torpedoed Lusitania hidden in the archives of the U.S. Treasury? After the official inquiry into the Pearl Harbor attack, why did Admiral Kimmel and General Short - the commanders at Pearl Harbor - want to be court-martialed? Why was the Soviet Union given control of North Korea after World War II, when the Soviets did nothing to win the war in the Pacific? What did Congressional Medal of Honor recipient James Stockdale reveal about Tonkin Gulf (the event used to justify intervention in Vietnam)? How did "Operation Rockingham" lead America into the Iraq war? Since its founding in 1921, what small organization has produced 21 Secretaries of Defense/War, 19 Treasury Secretaries, 18 Secretaries of State, and 16 CIA directors? How did Jimmy Carter go from a generally unknown figure to Presidential nominee in just seven months? Why has America had decades of destructive inflation (understated recently by the Consumer Price Index), when there was zero NET inflation from the days of the Pilgrims until the early 20th century? Why did the Vietnam War last 14 years - and end in defeat - when it took us only 3 and 1/2 years to win World War II? What did the head of the Ford Foundation tell Congressional investigator Norman Dodd that made him "nearly fall off the chair"? Is it possible that many kings and other monarchs of past centuries were not as evil as they've been portrayed? What American capitalists were given landing rights for their private jets in Moscow - at the height of the Cold War? What KGB defector predicted glasnost five years in advance - yet was ignored by the major media? Who is at the top of the pyramid on the back of the dollar bill? Why was the USS Liberty attacked in 1967, and why was there no Congressional investigation? The official explanation of 9-11 - where do we BEGIN to name the holes? Were the Beatles a set-up? Who financed ecumenism and the decline of Christian faith? What are world elitists saying about population control? What are courageous doctors revealing about vaccines that the major media won't report? Does weather control go beyond seeding clouds? What is behind the recent spike in weather disasters? How did the Establishment trick conservatives into supporting its "free trade" agenda, destroying millions of U.S. jobs? Who's pouring billions of dollars into the "green" movement? 1984 - the amazing ways in which Orwell got the future right. And how does ALL this tie together? If you are one of those who senses that something just isn't right with the explanations we are given for wars, our dying economy, and other world events, this book may be just right for you. Countless lies have been planted in the corporate-controlled media to benefit the rich and the few; these lies have become "fact" through the mechanism of frequent repetition. Refuting such lies with credibility requires in-depth analysis. Therefore, beware of reviews of this book which attempt to debunk it by pulling a sentence or idea out of context. Rogue Warrior

Charles Guiteau, best-known for being the assassin whose bullet led to the death of President James A. Garfield in 1881, had, prior to that occasion, written a book on the second coming of Jesus Christ, called "The Truth." It is said that he plagiarized most of the material from Noyes, but that it also expressed Guiteau's theological beliefs isn't denied. A look at the titles of Part One of this book will give you some insight into his thoughts on the issue. After his conviction of murdering the President, he tried to drum up financial support for an appeal by re-releasing The Truth, and accompanying it with a second section on "The Removal" of Garfield. For the person interested in American history, this section is fascinating, especially the newspaper reports that state that the assassination of the President actually saved the United States from engaging in a planned war with Chile. In preparing this work, we have modernized the spelling, corrected typographical errors, updated the formatting for Bible references ("ii, 24" is now "2:24"), and given the whole book a visual facelift. We are publishing this book because we like American history and religious history-and this one has both, as Guiteau (and others) believed that assassinating the only U.S. President who had also been a preacher was something God wanted done. We believe you will find it interesting as well.

Fractured America

At any time in our history, you will find significant and seemingly indisputable events occurring, the kind that can change the course of our lives -- the assassination of President John F. Kennedy, the terrorist attacks of 9/11. Yet for every one of them, somebody, somewhere will loudly dispute the 'official' account, doubting that the truth has been told. In today's environment, with trust in authorities at an all-time low, conspiracy theories have found a new currency, and websites and social networking ensure they receive a wider and more rapid spread than ever before. But how do we separate truth from imagination? Was Princess Diana murdered, as many people think, despite all the official denials? Did NASA really go to the Moon, when anomalies in the photographic record suggest otherwise? Could 9/11 really have been set up by agencies within the USA itself? The Kindle edition includes an update on all the conspiracy theories that have emerged in the wake of the Coronavirus pandemic. The author opens the conspiracy casebook by examining the mindset of those who believe in conspiracies, and considers whether the dismissive attitude towards them has been fair. Part Two looks into history to establish that conspiracies do occur, credibility should therefore be given to belief in some of the alleged plots and cover-ups of today. This leads into a well-argued examination of some of the most popular conspiracies of our times, including theories over assassinations, UFO cover-ups, and widely voiced concerns over 9/11 and the 'New World Order'. Part Three draws the conclusion that while not all conspiracy theories can be proven, they do at least draw attention to paths not to take, and can be valuable in helping to create a better world where new trust and hope can be forged. Are we living in a world of control, of oppression, of habitual deception? Is this really how things are,

or simply human nature massively distorted through a dark lens? The truth probably lies somewhere in the middle.

Waterloo: The Truth At Last

In his groundbreaking book 'Musical Truth, ' DJ-turned author/ researcher Mark Devlin showed how the true nature of the corporate music industry tells a very different story to what's conveyed on its glossy, glamorous surface. The manipulations run so deep, however, that the full story couldn't be told in just that first book. Here, in Volume 2, he continues to guide readers through the dark labyrinth of machinations. Discover the world of Lifetime Actors and the crucial part they play in social engineering; delve into Heavy Rock, frequently touted as the most 'satanic' of all music genres; consider the evidence for the hip-hop scene being a cult-like fraternity on a staggering scale; reflect on the nature of sound itself and the ways it can be used to affect human behaviour; and study the striking parallels between the 1960s counter-culture and the UK's Acid House scene that kicked off 21 years later, all bearing the hallmarks of Establishment manipulation. Crucially, Volume 2 reminds readers of how the music industry's activities form only one small part of what's really going on in this reality, and how the power to bring it all to an end lies with us and us alone. It always has. We've just been programmed to forget. Amazon review excerpts for 'Musical Truth, Volume 1' "I came across this book by chance, and am so glad I did. It's very well-written and a fascinating subject. It goes far deeper than just the music, too, the first chapter explaining how music fits into the larger scheme of things is spot-on. The author explains everything he speaks about, and provides links and other resources so the reader can check all the facts for themselves and it all checks out!" "Excellent tome! Very well-researched, engagingly presented, pithy, witty, incisive and compelling." "I was aware of much of its content already, but Mark Devlin has brought so many pieces of a puzzling jigsaw together in an immensely comprehensive and articulate way. His style of writing is very natural and readable which makes it effortless for the reader - a skill that not all writers of this genre possess." "Beautiful, easy-reading language, where his soul combined with his intellect controls the pen. I just wanted to continue reading the whole night. Important stuff about our reality."

Can you have a strong personality and still be a godly wife? YES! Do you ever get the idea that being a godly wife means you need to be a mousy doormat? Be as unnoticeable as a doorknob? No matter whether you're an extrovert or more introverted, Kimberly Wagner believes women are created to be a compelling force. You may not see yourself as beautifully fierce or even slightly strong, but what if God has placed a powerful fierceness within you, within every woman? Kim admits her fierceness became a source of conflict in her marriage, but the relationship dynamic totally changed when she discovered her fierce

strengths could be used to encourage and inspire her husband. She invites you to come alongside as she takes an honest look at a destructive relationship dynamic and casts a vision for the transformation God can bring to troubled marriages. The Lonely Warrior

The real story behind the Tavistock Institute and its network, from a popular conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

A “very dramatic [and] compelling” World War II story of murder, mutiny, and a military cover-up, from the author of *The Phoenix Program* (The New York Times). Captured by the Japanese while on patrol in the fetid jungles of New Guinea, Douglas Valentine’s father, who’d enlisted in the US Army at age sixteen, was sent to a prison camp in the Philippines, where he was interned with Australian and British soldiers. The events that followed make up this “well-told, chilling” story of betrayal and brutality—a powerful tale of a son uncovering the traumatic events that shaped the rest of his father’s life (Los Angeles Times Book Review). “Not just a searing picture of life in a terrible POW camp, it is also a significant historical document about a place that the U.S. military says never existed.” —Publishers Weekly

Doctor of Truth

The bestselling, widely heralded, Jungian introduction to the psychological foundation of a mature, authentic, and revitalized masculinity. Redefining age-old concepts of masculinity, Jungian analysts Robert Moore and Douglas Gillette make the argument that mature masculinity is not abusive or domineering, but generative, creative, and empowering of the self and others. Moore and Gillette clearly define the four mature male archetypes that stand out through myth and literature across history: the king (the energy of just and creative ordering), the warrior (the energy of aggressive but nonviolent action), the magician (the energy of initiation and transformation), and the lover (the energy that connects one to others and the world), as well as the four immature patterns that interfere with masculine potential (divine child, oedipal child, trickster and hero). King, Warrior, Magician, Lover is an exploratory journey that will help men and women reimagine and deepen their understanding of the masculine psyche.

Fierce Women

In an easy-to-read text, this book examines the growing scientific evidence that is challenging Darwin's theory of evolution: lack of transitional forms in the fossil record; the impossibility of mutations (almost universally destructive) serving as evolutionary building blocks; the flawed logic of natural selection theory; the stunning lack of evidence for ape-men; the mathematic impossibility of life

beginning by itself; and much more. Also explores the damaging effect societal impact of Darwinism, and examines how Inherit the Wind grossly misled Americans about the Scopes trial. Addresses the ever-vital question: Are we here by chance or are we created by God? Indexed, over 80 illustrations, hundreds of quotes from scientists.ENDORSEMENTS DR. DUANE T. GISH, SENIOR VICE PRESIDENT, INSTITUTE FOR CREATION RESEARCH: "Tornado in a Junkyard by James Perloff should be in the library of every one who is interested in the subject of origins. This book is a powerful argument for creation because it is thorough, fully documented, and scientifically accurate. It is easily readable by scientist and layman alike, and is written in a popular style that will make it interesting and entertaining for readers of all ages. I highly recommend this book."PUBLISHER'S WEEKLY, 8-30-99: "James Perloff's intriguing Tornado in a Junkyard aims to debunk evolutionary theory in favor of creationism. Perloff, a former contributing editor to the New American, draws upon the work of neo-Darwinists and geneticists to argue that 'while microevolution does occur--meaning minor adaptations and variations within a species, ' there is no solid evidence for macroevolution, or conversion of one animal type into another."DR. EMMETT L. WILLIAMS, PRESIDENT, CREATION RESEARCH SOCIETY: "Tornado in a Junkyard is a unique presentation of the scientific case against Darwinism, informally written for laymen. If you are looking for a user-friendly explanation of the facts supporting creation, this book is for you."CONSERVATIVE BOOK CLUB, 12-99: "James Perloff brings all the data together in a volume readily accessible to nonscientific types. His conclusion, carefully drawn: science contradicts Darwinism. . . . Perloff's style, unusually lively, makes Tornado in a Junkyard entertaining as well as educational."ACTOR JACK LEMMON, WHO PLAYED CLARENCE DARROW IN THE 1999 FILM VERSION OF INHERIT THE WIND: "My congratulations to Mr. Perloff for an outstanding piece of work."HOMESCHOOLING TODAY, JAN/FEB-2000: "Why another 'anti-evolution' book? Because Tornado in a Junkyard is different. Author James Perloff, a former fanatical atheist and anti-creationist, understands the other side's point of view. He presents facts that logically disprove Darwinism and unveils the many frauds and lies perpetrated by Darwinists that the public accepts as unshakeable scientific fact."ELLEN MYERS, CREATION RESOURCE LIBRARY, WICHITA, KANSAS: "I've been heavily involved in the creationist movement for many years and am familiar with most of the facts cited in Tornado. However, the racy style, the many excellent photos, and especially the less known details and extensive documentation will now make Tornado my resource of choice in my work."THE NEW AMERICAN, 9-13-99: "Perloff demonstrates--in this reviewer's opinion conclusively--that scientific evidence, when examined honestly, does not support modern Darwinism, but actually contradicts it. . . . This is a very important work, written in an informal and attractive style that is a joy to read."VICKI BRADY, HOST, "HOMESCHOOLING USA": "With so many books out on the evolution/creation debate it is getting hard to choose from good, better and best. James' book falls in the best category. I recommend that every homeschool family and church have a copy for their libraries."CHRISTIAN NEWS, 9-27-99: "Christian News highly recommends Tornado in a Junkyard.

Lonely on the Mountain

During October 2016 Paul Dawson visited French archives in Paris to continue his research surrounding the events of the Napoleonic Wars. Some of the material he examined had never been accessed by researchers or historians before, the files involved having been sealed in 1816. These seals remained unbroken until Paul was given permission to break them to read the contents. Forget what you have read about the battle on the Mont St Jean on 18 June 1815; it did not happen that way. The start of the battle was delayed because of the state of the ground not so. Marshal Ney destroyed the French cavalry in his reckless charges against the Allied infantry squares wrong. The stubborn defense of Hougoumont, the key to Wellingtons victory, where a plucky little garrison of British Guards held the farmhouse against the overwhelming force of Jerome Bonapartes division and the rest of II Corps not true. Did the Union Brigade really destroy dErlons Corps, did the Scots Greys actually attack a massed French battery, did La Haie Sainte hold out until late in the afternoon? All these and many more of the accepted stories concerning the battle are analysed through accounts (some 200 in all) previously unpublished, mainly derived through French sources, with startling conclusions. Most significantly of all is the revelation of exactly how, and why, Napoleon was defeated. Waterloo, The Truth at Last demonstrates, through details never made available to the general public before, how so much of what we think we know about the battle simply did not occur in the manner or to the degree previously believed. This book has been described as a game changer, and is certain to generate enormous interest, and will alter our previously-held perceptions forever.

Dr. Mary's Monkey

Winner of the L.A. Times Ray Bradbury Prize Finalist for the 2019 National Book Award The New York Times Bestseller Named a Best Book of 2019 by The Wall Street Journal, TIME, NPR, GQ, Vogue, and The Washington Post "A fantasy world as well-realized as anything Tolkien made." --Neil Gaiman "Gripping, action-packed. The literary equivalent of a Marvel Comics universe." --Michiko Kakutani, The New York Times The epic novel, an African Game of Thrones, from the Man Booker Prize-winning author of A Brief History of Seven Killings In the stunning first novel in Marlon James's Dark Star trilogy, myth, fantasy, and history come together to explore what happens when a mercenary is hired to find a missing child. Tracker is known far and wide for his skills as a hunter: "He has a nose," people say. Engaged to track down a mysterious boy who disappeared three years earlier, Tracker breaks his own rule of always working alone when he finds himself part of a group that comes together to search for the boy. The band is a hodgepodge, full of unusual characters with secrets of their own, including a shape-shifting man-animal known as Leopard. As Tracker follows the boy's scent--from one ancient city to another; into dense forests and across deep rivers--he and the band are set upon by creatures intent on destroying them. As he struggles to survive, Tracker starts to wonder: Who, really, is this boy? Why has he been missing for so long?

Why do so many people want to keep Tracker from finding him? And perhaps the most important questions of all: Who is telling the truth, and who is lying? Drawing from African history and mythology and his own rich imagination, Marlon James has written a novel unlike anything that's come before it: a saga of breathtaking adventure that's also an ambitious, involving read. Defying categorization and full of unforgettable characters, *Black Leopard, Red Wolf* is both surprising and profound as it explores the fundamentals of truth, the limits of power, and our need to understand them both.

Love Warrior

Lone Survivor

Lieutenant Ed Stovic, an F/A-18 pilot, is vectored to intercept Algerians who are defending their newly claimed two-hundred-mile territorial limit. During a dramatic, high-stakes dogfight, the Algerians open fire and Stovic shoots down one of the Algerians' MiGs, its pilot tumbling to a fiery death in the Mediterranean. Stovic is hailed as a hero, and he sees this as the perfect moment to help him achieve his life-long dream—flying with the world-famous Blue Angels, the Navy's elite flight demonstration team. Ismael Nezzar, the brother of the deceased Algerian pilot, is in the U.S. on a student visa. He sees the boastful Stovic on the Today show and is enraged by his glibness. While attending his brother's funeral—the biggest event in Algeria in a decade—Ismael is coerced by a group of Islamic radicals to seek revenge for his brother's death. Though he withdrew from the powerful group years before, Ismael is filled with fury and will stop at nothing to destroy Stovic. Unknown to either of these two men, Kent Rathman has been assigned by a highly placed government official to watch them. Working in the shadows, Rat moves easily among government agencies and is ordered by his White House contacts—including the President and the NSA director, who has plans to bring about a change of power on her own—to stop the Algerian. To save his country and his friend, Rat must devise a brilliant counterstrike—a mission in which failure means certain death. Packed with deadly intrigue, Beltway power plays, and high-flying adventure, *The Shadows of Power* is Huston's most exciting novel yet. Combining his knowledge of how things work in Washington with his expertise on military hardware, Huston has written an electrifyingly realistic tale of international terrorism and American triumph.

The Book of Five Rings

#1 New York Times Bestseller Oprah's Bookclub 2016 Selection "Riveting a worthy investment this book has real wisdom." —New York Times Book Review "A book with so much painful truth packed into its pages that every person who's ever married or plans to marry should really give it a read." —Chicago Tribune "Provocative. I adore her honesty, her vulnerability, and her no-nonsense wisdom, and I know you will, too." —Oprah Winfrey "This memoir isn't really about Glennon rebuilding her relationship with her husband; it is about Glennon rebuilding her relationship with herself. Utterly refreshing and badass." —Bustle.com The highly anticipated new memoir by bestselling author Glennon Doyle tells the story of her

journey of self-discovery after the implosion of her marriage. Just when Glennon Doyle Melton was beginning to feel she had it all figured out—three happy children, a doting spouse, and a writing career so successful that her first book catapulted to the top of the New York Times bestseller list—her husband revealed his infidelity and she was forced to realize that nothing was as it seemed. A recovering alcoholic and bulimic, Glennon found that rock bottom was a familiar place. In the midst of crisis, she knew to hold on to what she discovered in recovery: that her deepest pain has always held within it an invitation to a richer life. *Love Warrior* is the story of one marriage, but it is also the story of the healing that is possible for any of us when we refuse to settle for good enough and begin to face pain and love head-on. This astonishing memoir reveals how our ideals of masculinity and femininity can make it impossible for a man and a woman to truly know one another—and it captures the beauty that unfolds when one couple commits to unlearning everything they've been taught so that they can finally, after thirteen years of marriage, commit to living true—true to themselves and to each other. *Love Warrior* is a gorgeous and inspiring account of how we are born to be warriors: strong, powerful, and brave; able to confront the pain and claim the love that exists for us all. This chronicle of a beautiful, brutal journey speaks to anyone who yearns for deeper, truer relationships and a more abundant, authentic life.
