"If you need more traffic, leads and sales, you need The Conversion Code." Neil Patel co-founder Crazy Egg "We've helped 11,000+ businesses generate more than 31 million leads and consider The Conversion Code a must read." Oli Gardner co-founder Unbounce "We'd been closing 55% of our qualified appointments. We increased that to 76% as a direct result of implementing The Conversion Code." Dan Stewart CEO Happy Grasshopper "The strategies in The Conversion Code are highly effective and immediately helped our entire sales team. The book explains the science behind selling in a way that is simple to remember and easy to implement." Steve Pacinelli CMO BombBomb Capture and close more Internet leads with a new sales script and powerful marketing templates The Conversion Code provides a step-by-step blueprint for increasing sales in the modern, Internet-driven era. Today's consumers are savvy, and they have more options than ever before. Capturing their attention and turning it into revenue requires a whole new approach to marketing and sales. This book provides clear guidance toward conquering the new paradigm shift towards online lead generation and inside sales. You'll learn how to capture those invaluable Internet leads, convert them into appointments, and close more deals. Regardless of product or industry, this proven process will increase both the quantity and quality of leads and put your sales figures on the rise. Traditional sales and marketing advice is becoming less and less relevant as today's consumers are spending much more time online, and salespeople are calling, emailing, and texting leads instead of meeting them in person. This book shows you where to find them, how to engage them, and how to position your company as the ideal solution to their needs. Engage with consumers more effectively online Leverage the strengths of social media, apps, and blogs to capture more leads for less money Convert more Internet leads into real-world prospects and sales appointments Make connections on every call and learn the exact words that close more sales The business world is moving away from "belly-to-belly" interactions and traditional advertising. Companies are forced to engage with prospective customers first online—the vast

majority through social media, mobile apps, blogs, and live chat—before ever meeting in person. Yesterday's marketing advice no longer applies to today's tech savvy, mobile-first, social media-addicted consumer, and the new sales environment demands that you meet consumers where they are and close them, quickly. The Conversion Code gives you an actionable blueprint for capturing Internet leads and turning them into customers.

“Someday, somewhere” is a dangerous game. The real stuff of life is here and now. Life is scary. Adulthood is hard. When faced with the challenges of building a life of your own, it's all too easy to stake your hope and happiness in “someday.” But what if the dotted lines on the map at your feet today mattered just as much as the destination you dream of? Hannah Brencher, TED Talk speaker and founder of The World Needs More Love Letters, thought Atlanta was her destination. Yet even after she arrived, she found herself in the same old chase for the next best thing...somewhere else. And it left her in a state of anxiety and deep depression. Our hyper-connected era has led us to believe life should be a highlight reel—where what matters most is perfect beauty, instant success, and ready applause. Yet, as Hannah learned, nothing about faith, relationships, or character is instant. So she took up a new mantra: be where your feet are. Give yourself a permission slip to stop chasing the next big thing, and come matter here. Engage the process as much as you trust the God who lovingly leads you. If you are tired of running away from your life or tired of running ragged toward the next thing you think will make you feel complete, Come Matter Here will help you do whatever it takes to show up for the life God has for you. Whether you need to make a brave U-turn, take a bold step forward, or finish the next lap with fresh courage, find fuel and inspiration for the journey right here.

The Art of Gathering

"Hosts of all kinds, this is a must-read!" --Chris Anderson, owner and curator of TED From the host of the New York Times podcast Together Apart, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. *The Art of Gathering* will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them.

Accelerate sales and improve customer experience Every day, most working professionals entrust their most important messages to a form of communication that doesn't build trust, provide differentiation, or communicate clearly enough. It's easy to point to the sheer volume of emails, text messages, voicemails, and even social messaging as the problem that reduces our reply rates and diminishes our effectiveness. But the faceless nature of that communication is also to blame. Rehumanize Your Business explains how to dramatically improve relationships and results with your customers, prospects, employees, and recruits by adding personal videos to emails, text messages, and social messages. It explains the what, why, and how behind this new movement toward simple, authentic videos—and when to replace some of your plain, typed-out communication with webcam and smartphone recordings. • Restore face-to-face communication for clarity and

connection • Add a personal, human touch to your emails and other messages • Meet people who've sent thousands of videos • Learn to implement your own video habit in an easy, time-saving way • Boost your replies, appointments, conversion, referrals, and results dramatically If you're ready to influence, teach, sell, or serve in a more personal way, Rehumanize Your Business is your guide.

My Daily Routine In Korean

As seen in *Time*, *USA TODAY*, *The Atlantic*, *The Wall Street Journal*, and on *CBS This Morning*, *BBC*, *PBS*, *CNN*, and *NPR*, *iGen* is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, *iGen* is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, *iGen* spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes *iGen* distinct from every generation before them; they are also different in how they spend their time,

how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.
