J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

The Pocket Paderewski

Wearing the Green Beret

The Fifth Report of the International Committee on Taxonomy of Viruses (ICTV), summarizes the proceedings and decisions reached by the ICTV at its meetings held at the International Congresses of Virology in Sendai (1984), Edmonton (1987) and Berlin (1990). This report has been organized in the same way as the previous ones (Wildy, 1971; Fenner, 1976; Matthews, 1979; 1982), yet it encompasses many more families and groups of viruses than previous reports, and it includes new tables, diagrams and keys. The officers and members of the ICTV study groups from 1984 to 1990 are listed, as the current ICTV statutes and rules of nomenclature. Information on the format for submission of new taxonomic proposals to the ICTV is also provided. Since the Fourth Report of the ICTV (1982), 19 new virus families and groups have been described. This report includes 2,430 viruses belonging to 73 families or groups, as well as virus satellites and viroids descriptions, but it does not include descriptions not approved by the ICTV. It now will be possible to publish such preliminary, and in some cases controversial, descriptions in the Virology Division pages of the Archives of Virology --this will allow virologists to carry on the kind of interim dialogue that is necessary for arriving at broad agreement on taxonomic matters.

Twelve Years a Slave

At age twenty-one, while she was working with the legendary Nadia Boulanger in France, concert pianist Carol Rosenberger was stricken with paralytic polio—a condition that knocked out the very muscles she needed in order to play. But Rosenberger refused to give up. Over the next ten years, against all medical advice, she struggled to rebuild her technique and regain her life as a musician—and went on to not only play again, but to receive critical acclaim for her performances and recordings. Beautifully written and deeply inspiring, *To Play Again* is Rosenberger's chronicle of making possible the seemingly impossible: overcoming career-ending hardships to perform again.

Whatever happened to him actually outshines anything I've had my James Bond do. --Ian Fleming James Bond: author, ornithologist, marksman, and . . . identity-theft victim? When James Bond published his landmark book, *Birds of the West Indies*, he had no idea it would set in motion events that would link him to the most iconic spy in the Western world and turn his life upside down. Born into a wealthy family but cut off in his early twenties, James Bond took off to the West Indies in search of adventure. Armed with arsenic and a shotgun, he took months-long excursions to the Caribbean to collect material for his iconic book, *Birds of the West Indies*, navigating snake-infested swamps, sleeping in hammocks, and island-hopping on tramp steamers and primitive boats. Packed with archival photos, many never before published, and interviews with Bond's colleagues, here is the real story of the pipe-smoking, ruthless ornithologist who introduced the world to the exotic birds of the West Indies.

From silent cinema pianist born in the Australian Bush to celebrity virtuoso entertaining Royalty in Mayfair--an

extraordinarily magical and inspirational musical odyssey. The concert pianist Edward Cahill (1885-1975) rose to prominence from humble beginnings in the inauspicious setting of 19th-century rural Queensland. At a time when Australian concert artists were virtually unknown in Europe, he dazzled the salons of royalty, aristocratic patronage and privilege in London, Paris and the French Riviera during the glittering decades of the 1920s and 1930s 'With what vigour, what virtuosity and poetry this master plays the piano!' --Chronique musicale, Montreux, 5 May 1939

The Brand New Kid

It is often said that the poet Homer "educated" ancient Greece. Joseph J. Foy and Timothy M. Dale have assembled a team of notable scholars who argue, quite persuasively, that Homer Simpson and his ilk are educating America and offering insights into the social order and the human condition. Following Homer Simpson Goes to Washington (winner of the John G. Cawelti Award for Best Textbook or Primer on American and Popular Culture) and Homer Simpson Marches on Washington, this exceptional volume reveals how books like J. R. R. Tolkien's *The Hobbit* and J. K. Rowling's *Harry Potter*, movies like *Avatar* and *Star Wars*, and television shows like *The Office* and *Firefly* define Americans' perceptions of society. The authors expand the discussion to explore the ways in which political theories play out in popular culture. *Homer Simpson Ponders Politics* includes a foreword by fantasy author Margaret Weis (coauthor/creator of the *Dragonlance* novels and game world) and is divided according to eras and themes in political thought: The first section explores civic virtue, applying the work of Plato and Aristotle to modern media. Part 2 draws on the philosophy of Hobbes, Locke, Rousseau, and Smith as a framework for understanding the role of the state. Part 3 explores the work of theorists such as Kant and Marx, and the final section investigates the ways in which movies and newer forms of electronic media either support or challenge the underlying assumptions of the democratic order. The result is an engaging read for undergraduate students as well as anyone interested in popular culture.

World Economic and Financial Surveys

With the authenticity of *Jarhead* and *Bravo Two Zero* and the straight-up narrative of *Contact Charlie*, this military memoir describes what really goes on in the training of an elite soldier and his tours in Afghanistan. In 2004, Jake Olafsen signed up for the Royal Marines Commandos. He left everything behind at home in Canada on the basis of a spur-of-the-moment decision. The Royal Marines have the toughest and longest basic training of any infantry unit in the world. For Olafsen, this meant eight months of wet and cold in England and Wales. It was hell, but he came out with the four Commando qualities that the corps look for: courage, determination, unselfishness, cheerfulness in the face of adversity. Olafsen went on to serve for four years as a Commando in the Royal Marines, an elite military unit based in the United Kingdom. He went to Afghanistan twice: in 2006, he went to confront the Taliban in Helmand Province for six months, and in 2007, he was sent to

do it all over again. His story is filled with good experiences, like the sense of accomplishment, patriotism, and camaraderie, and the opportunity to travel the world. But all good things come at a price. The sacrifices he made for the Corps are significant; he has killed the enemy and he has buried his friends. And in telling his story, Olafsen hopes that he can make sense of it all. This is an honest, gutsy story about the mud and the blood, the triumphs and the tragedies. From the Hardcover edition.
